Seventh Biennial Report

OF THE

State Corporation Department

TO THE

Governor of the State of California

By
J. M. FRIEDLANDER
Commissioner of Corporations

SEPTEMBER 1, 1926

TO

AUGUST 31, 1928

CALIFORNIA STATE PRINTING OFFICE
SACRAMENTO, 1928

63166

LETTER OF TRANSMITTAL

SACRAMENTO, CALIFORNIA, October 31, 1928.

To HON. C. C. YOUNG,
Governor of California.

I herewith transmit the Seventh Biennial Report of the State Corporation Department.

Respectfully,

J. M. FRIEDLANDER,
Commissioner of Corporations.

BIENNIAL REPORT

OF THE

STATE CORPORATION DEPARTMENT

For the Years Beginning September 1, 1926, to August 31, 1928

I

SUBJECT MATTER TREATED IN THIS REPORT

My incumbency as Commissioner of Corporations dates from the twenty-fifth day of February, 1927. During that time, reports have heretofore been submitted for the periods beginning with March 1, 1927, to August 31, 1927, and again from March 1, 1927, to February 29, 1928.

This biennial report is respectfully submitted concerning the operations of the State Corporation Department from September 1, 1926, to August 31, 1928, and must of necessity, therefore, include all of the matters heretofore submitted to you during my incumbency, as well as the matters appearing upon the records of this department prior to February 25, 1927.

There are attached to this report schedules which provide the following financial and statistical information:

1. Summary of operations.
2. Total securities authorized by all offices.
3. Budget allowances and expenses.
4. Statement of receipts and expenses by offices.
5. Consolidated detailed report of all offices by departments, for year ended August 31, 1928.
6. Report of Los Angeles office by departments, same period.
7. Report of Los Angeles Promotional Department, same period.
8. Report of Los Angeles Regulatory Department, same period.
9. Report of Los Angeles Secured Issues Department, same period.
10. Report of Los Angeles Engineering Department, same period.
11. Report of Los Angeles Complaint Department, same period.
12. Report of Los Angeles Amendments and Orders, same period.
13. Report from San Francisco office, all departments, same period.
14. Report of Promotional Department, San Francisco, same period.
15. Report of Regulatory Department, San Francisco, same period.
16. Report of Secured Issues Department, San Francisco, same period.
17. Report of Complaint Department, San Francisco, same period.
18. Report on Amendments and Orders, San Francisco office, same period.
19. Report from Sacramento office, all departments, same period.
20. Report of Promotional Department, Sacramento, same period.
21. Report of Regulatory Department, Sacramento, same period.
22. Report of Secured Issues Department, Sacramento, same period.

23. Report of Engineering Department, Sacramento office, same period.
24. Report of Complaint Department, Sacramento office, same period.
25. Report on Amendments and Orders, Sacramento office, same period.
26. Suspensions and revocations, all offices, detailed semiannually to August 31, 1928.
27. Report on impound conditions all offices for biennium.
28. Suspensions and revocations for finance, mortgage and related companies.
29. Report on finance companies for biennium.
30. Report on holding companies for biennium.
31. Report on industrial loan companies for biennium.
32. Report on mortgage companies for biennium.
33. Report on security companies for biennium.
34. Investment trusts, northern district, as of June 30, 1928.
35. Investment trusts, southern district, as of June 30, 1928.
36. Combined report on investment trusts as of June 30, 1928.
37. Rules and regulations governing investment trusts.
38. Letter to North American Investment trust of March 15, 1928.
39. Rules for the organization of finance companies.
40. Opinion *in re Coronado Development Company.*
41. Letter to California Development Association *in re* earthquake insurance.

General Statement.

The foregoing schedules were evolved as a result of the reorganization plan of the Department. They endeavor to systematically analyze the work of the office. The function and service of a methodical examination at reasonable and regular periods is self-evident, particularly in view of the fact that this is a public service and accountable to the public at large.

With the perfecting of the reorganization plan, it is hoped that this analysis will become more efficient and will, to a greater degree, reflect the volume, nature and character of the business of the department. The analysis might also be useful, we venture to say, as a barometer of corporate finance in the State of California. Were we ambitious we might even predict that such detailed report might point a way to the reduction of unnecessary cumbersome practices to elements of standard soundness, which are prerequisite to successful corporate business. It might also reveal certain phases of corporate business which can be improved upon and certain others which should be rejected as fraught with danger. While this is not our direct objective, we hope, nevertheless, that this report, or similar ones, contains potentialities in that direction.

II

OPERATION OF THE DEPARTMENT UNDER A COORDINATING DIVISIONAL REORGANIZATION PLAN

A complete reorganization of the department has been perfected, and this department, during the past year, has been operating under a coordinated, divisionalized plan heretofore described in my prior reports. The department, as it is now organized and functioning, consists of the following major divisions, with a brief description of their respective functions:

Promotional Division.

In this division, all applications for the sale of stock to the public are considered. Projects which have for their purposes a method of financing by public contribution to their capital assets are required to file complete and detailed information, as required under the Corporate Securities Act, before any public sales can be made.

The Promotional Division is constituted so as to provide expert analysis of the various financial plans and setups that are submitted to this department for consideration. It is the function of this division to analyze such applications for the purpose of determining whether the plan of business proposed to be conducted by the applicants is fair, just and equitable, and whether the company "intends to fairly and honestly transact its business, and whether the securities that it proposes to issue and the methods to be used by it in issuing or disposing of them * * * will work a fraud upon the purchaser thereof."

This division must, therefore, consider the application in its entirety, and in connection therewith must analyze all accompanying documents, such as articles of incorporation, financial statements, appraisals, contracts and other various types of evidenciary writings filed in support of such application.

The activity of this division is indicated by schedules 7, 14 and 20 hereto attached.

Regulatory Division.

This division was organized for the purpose of expeditiously disposing of matters that do not require the same amount of scrutiny and analysis as promotional matters. To this division are assigned applications where the public is not necessarily involved or concerned. Where corporations are formed by limited groups for the advantage and interest of certain designated individuals, permits are issued without delay or inconvenience to the incorporators or the persons constituting such closed corporations. These applications are seemingly filed for the purpose of complying with the statute and, therefore, no obstacles are placed in the way of these applicants, and their permits are issued as fast as it is humanly possible, with due consideration for a certain amount of mechanical and clerical requisites in order to complete the files and records in each separate case.

In this division, applications for stock dividends and distribution of capital assets are considered. Applications involving the readjustment of stock holdings, such as transfer of personally owned stock held in escrow, are also assigned to this division.

The extent of the activities of this division are indicated by schedules 8, 15 and 21 hereto attached.

Secured Issues Division.

The functions of this division are to consider applications for the issuance of bonds, debentures, collateral trust notes, and other types of documents which are fortified and secured by real or personal properties. The applications assigned to this division are usually supported by lengthy documents, such as trust indentures, syndicate agreements, appraisal reports and financial statements.

What has been accomplished by this division during the period of this report is indicated by schedules 9, 16 and 22 hereto attached.

Advisory Division.

This division is composed of the Commissioner, the Assistant Commissioner and the Senior Deputy Commissioner of Corporations. Its function is to review any questions of policy or of propriety with respect to the issuance of securities that might arise in any of the foregoing divisions hereinabove described.

Constructive Service Division.

The experience and the analytical ability developed by the deputies of this department has been made available to the public. The department encourages inquiry concerning matters of corporate organization and finance. Although it does not assume the aspects of a legal aid bureau, the department has found it advisable and desirable in many instances to render constructive service to attorneys and their clients with regard to the most appropriate method of financing, with due regard to the existing laws pertaining to corporate organization and financing.

The function, therefore, of this division is to impart the knowledge and experience of the State Corporation Department concerning the matters herein described, especially where applications are to be made in the future for the sale and distribution of securities.

Public Relations Division.

Closely akin to the functions as described in the Constructive Service Division are the functions of the Public Relations Division.

In order that proper regard be had for the inquiries made to this department concerning companies and their methods of disposing of securities, the Public Relations Division has been assigned to the task of rendering such service, and disseminating such information as might be of public interest. This division will answer inquiries respecting conditions of companies and the circumstances under which stock might be sold. It is not, however, to be regarded as an information bureau for the purpose of recommending or endorsing any security; on the contrary, its function is to advise any inquirer of the conditions under which any company subject to the jurisdiction of this department might dispose of its securities.

This division has proved its importance. The immediate contact that the public has with this department is a value that can not be overestimated. This value can only be determined by the amount and degree of satisfaction that has been experienced by all persons who have

had the occasion to consult this division in connection with their investments and their securities.

This division concerns itself with the broadcasting of stock swindling schemes through every available channel of dissemination. A series of articles on the subject were prepared and published by some of the daily newspapers. As a matter of fact, this information was worked up into a number of feature articles written by financial editors of the various newspapers.

The widest publicity is given the issuance of permits. A copy of the analysis of the financial and legal structure of applicant companies is accessible to the press. Some of the newspapers were kind enough to devote a certain amount of space for this publicity every day and to create a special column treating this subject matter. The value of such publicity is inestimable. It subjects the corporation, at its inception, to the severe test of public scrutiny. Seemingly, that was contemplated under the act.

Engineering and Technology Division.

This division is one of the most important in the departmental organization. It was created for the purpose of considering applications of companies formed for the exploration of oils and minerals. It calls for highly specialized and trained assistance in the field of petroleum engineering, mining engineering, geology and general technology. The functions of this division, therefore, are to consider applications and to analyze them in connection with mining, petroleum and geological reports.

This division considers all applications for the promotion of oil and refining companies, as well as such new mining ventures as might be organized.

What has actually been accomplished by this division is indicated by schedules 10 and 23 hereto attached.

Legal Research Division.

Investigation of law and the determination of legal problems that arise in connection with the consideration of applications before this department are concentrated in the Legal Research Division, whose function it is to determine such legal problems and to bulletinize the same for the benefit of deputies and other members in the department. It is purely an interdepartmental agency, and operates as an auxiliary to the other divisions hereinabove described.

This division is indispensable to the efficiency of the department. A great many questions of law frequently arise pertaining to the organic functions of corporations and which must be speedily decided so that no pending matter will be retarded.

This division keeps abreast with current legal and financial events and activities and keeps in contact with the stock exchanges in the United States so that we might be continually advised as to the practice and procedure resorted to by modern finance.

This division has made investigation into the legal status of land trust certificates with a view of determining their validity under the California law, thereby laying the foundation to meet the promised influx of business of this character into the state.

Auditing Division.

This division is composed of professional accountants. All financial statements submitted to this department in support of petitions and applications are analyzed within this division. In addition thereto, it performs the duties of considering financial conditions of companies and of brokers, pursuant to the requirements contained in sections 8 and 9 of the Corporate Securities Act.

Complaint and Investigation Division.

The functions of this division include the hearing of complaints against brokers and agents, and against companies that have received permits from this department. Where information is brought to the department to indicate that the Corporate Securities Act has been violated, this division compiles the facts and data for submission to the proper law enforcement agencies.

This division also comes in direct contact with the public, and, as hereinafter indicated, has been instrumental in recovering large sums of moneys for investors who have made investments as the result of false and fraudulent representations.

The tangible results of what has been accomplished by this division is indicated by schedules 11, 17 and 24 hereto attached.

Board of Review.

At the suggestion of Mr. Fred C. Athearn, a prominent attorney in San Francisco, we are contemplating, at the present time, inaugurating into the system of the department a Board of Review.

This board will be composed of the Commissioner, the Assistant Commissioner of each office and a Deputy Commissioner, two of whom shall have no previous direct connection with the matter under review. Such Board of Review shall meet at least once each month, at the headquarters of each district. Any person or company dissatisfied with any permit or order of the deputy in charge of such matter may file with the department a reasonable request stating that he or it is dissatisfied with such permit or order, setting forth his or its reasons, in a plain and clear manner, and asking that the matter be referred to the said Board of Review. Thereupon the matter shall be referred to the said Board of Review, together with the entire file on the subject, and the matter shall be set for hearing before the board, at the headquarters of the district in which the matter first arose, at which time the party or parties, in person or by counsel, shall be heard. A decision of this board affirming, modifying or reversing the action of the deputy in charge of such matter respecting the permit or order under review shall be final.

Coordination of the Various Departments.

The various divisions of the office, by reason of their very nature, are closely and intimately interlaced and interwoven, because, as is readily seen, one division is, in a large measure, dependent upon the other. In many instances a division is not entirely self-constituted or self-executing, and in the course of disposing of any matter before any division, of necessity it must cooperate and coordinate with other divisions of the department. Besides, matters submitted to this department are largely influenced in their initiatory stage by the Constructive Service Division, and finally by the Advisory Division, and to no small extent would be affected by the Board of Review and Legal Research Division.

The work of the office is further coordinated through the assembly of deputies at the regular Tuesday meetings, which take place in each district. These meetings are presided over by the Commissioner or his assistant, in his absence, and at these gatherings the problems of the department are frankly and candidly discussed, with a view to bringing about a practical and feasible solution. These meetings are conducive of informing and advising the deputies of the department of the general work of the department, so that they might be conversant with the various phases of corporate finance from the standpoint of the department.

We have also established, and are now maintaining a bulletin, the purpose of which is to advise and inform the deputies of current decisions pertaining to the work of the department, and treats also, in a general way, with corporate law, as well as with problems of corporate finance.

Effect of Departmental Reorganization.

1. Speed in Handling Applications

As the result of reorganization of this department, the consideration of applications has been expedited. Matters which are not impressed with public interest and assigned to the Regulatory Division are handled, determined and disposed of within a relatively short time; in many instances permits have been prepared and delivered within twenty-four hours following the filing of the applications. Applications of this type and character should not be delayed pending the determination of an application that requires a great deal of time, study and analysis.

The handling of applications of the regulatory type demands astuteness and precision. It is the segregation of this type of application from the promotional, secured or mining issues, that has made it possible to dispose of a vast amount of work in an exceedingly short space of time.

With respect to applications for the sale of securities where the public might be interested, the segregation of promotional matters from bond issues, collateral trust issues and the like, has likewise reduced the time within which permits are issued, whereas under the old arrangement, sometimes months elapsed before attorneys and their clients received their permits. A careful check upon the operations of this department indicates that in all proper cases involving sales of stock, bonds or other like securities to the public, permits can be procured from this department within a few days from the filing of the application. The element of time, as a matter of concern in the promotion of new companies in the State of California, has been entirely eliminated.

Specialized Service.

A further effect resulting from the reorganization of this department is the special consideration given to the groups of applications pending before the department.

A high point of efficiency has been attained and is being maintained in the consideration of the various problems presented by the differently classified applications that are referred to the respective divisions. That efficiency is reflected by the rapidity with which applications are now considered and disposed of and the quality of work turned out by the divisions.

III

INTROSPECTION OF GENERAL DEPARTMENTAL ACTIVITIES

General Volume of Business for Years Last Past.

For the period of time covered by this report, let me point out some of the outstanding features of the work of the department that has been collected in the enclosed schedules.

1. The department authorized the issuance of securities in the amount of	$2,886,302,288 00
2. Companies whose permits were revoked had been authorized to sell stock in the amount of	412,031,047 00
3. Moneys recovered by the department for purchases of securities in which questionable elements were involved	722,625 00
4. The department collected in fees	608,436 99
5. Number of separate matters handled by the department	43,483
6. Number of permits for issuance of securities, revoked	3,748
7. Letters received by the department from the general public, commending its work	1,231

Economy in Operation of the Department.

It has been my endeavor during my incumbency to have the office operate as economically as possible. In evidence thereof, I desire to point to the fact that the budget allowances for the operation of the department during the biennial term was $715,309.56. The actual expenditure during that period amounted to $608,915.10. The result indicates a saving of $106,394.46. As heretofore indicated to you in my report for the year beginning March 1, 1927, to February 29, 1928, this department had operated within the budget allowance and had reflected a saving of $74,441.15.

During the period covered by this report, fees were collected amounting to $608,436.99, while the total expenses of the department amounted to $612,972.54. It will be observed, therefore, that the department is comparatively self-sustaining and self-supporting. The excess of expenses over receipts, however, for the biennium, is $4,535.55, of which $4,057.44 is chargeable to the next biennial period. This excess of expenses over revenue must be explained by the fact that a complete reorganization of the department took place about the beginning of the second year of the biennium, and incidental to this reorganization the salaries of the members of the department were increased approximately twenty-five per cent as compared with the first year of the biennium. The increase has been more than justified, as it resulted in the betterment of the service, efficiency in the handling of the work, and has created a morale which is conducive to improve disposal of the business of the office.

From close observations with the growth and development of corporate finance in the State of California, it is warranted to say that the excess of expenses over revenue will, in a short time, be entirely absorbed.

Moneys Recovered for Investors in Questionable Transactions.

The aggregate amount of money recovered by the entire department from brokers, promoters and corporations which were charged with the violation, either of the Corporate Securities Act or the conditions

contained in the permit, for those who were unfortunate enough to part with it, during the period of this report, was $722,625.

It might be safe to say that a great deal of this money was recovered for people in poor circumstances, without financial ability to initiate litigation. Civil litigation is prohibitive to this class of investors, and were they confined to their remedy at law, it would undoubtedly result in precluding them from all redress. In this respect and to this extent, the department is obviously functioning not only as a preventive, but also as a remedial agency. It must be pointed out, however, that this does not include, by any means, all the restitution brought about by the department.

Equally justified are we to say that for the same period the department has recovered many hundreds of thousands of dollars in property, the exact amount of which it is utterly impossible to compute or estimate. The intercession by the department and the use of its offices in this regard, either directly or indirectly, has been a powerful influence in saving the investing public of California many millions of dollars that would ordinarily have been a total loss to those who have parted with it and diverted it into illegitimate channels. It is unfortunate that the effectiveness of the Corporate Securities Act in this regard can not be determined with any degree of certainty, but, nevertheless, it is felt by those for whose protection and benefit this law has been put upon our statute book.

The office has inaugurated a service, through the creation of a Public Relations Department, which attempts to contact with the investor, if possible, before purchasing securities. It would be folly for anyone to attempt to make an estimate of the aggregate amount of money saved to the investors who have inquired of the Public Relations Department concerning securities, the purchase of which they were considering. It might not be bold to say that the total would be almost unbelievable. The fact that inquirers and letters of inquiry are increasing in number, proves that the efforts to bring the department closer to the public produces results.

Letters of Commendation.

During the last year the department has received 1231 letters of commendation. These letters were from persons and corporations who contacted with this department for the period covered by this report, and who have, without solicitation, voluntarily expressed their satisfaction of the manner in which the various matters were handled. These letters are not attached hereto, but are accessible in our files and are embodied herewith by reference only.

It might be well to point out that but very few letters of adverse criticism have been received. At any rate, these letters of commendation and criticism are of great value to the department because they indicate whether or not the department functions efficiently. A letter of commendation will continue a certain policy or practice, while a letter of criticism has the tendency to rectify and strengthen in places the department might prove to be weak.

Financial Bubbles.

Some day a securities commissioner may report that during a stated period of time no fraudulent transactions have come to his attention.

I am not so optimistic as to believe that such an event will come in my day nor so credulous as to even picture cosmopolitan California as the first state where such an Utopian situation will prevail.

Wherever gullible persons are found there will also be the guileful eager to take advantage of their credulity.

Many cases of fraud and attempts at fraud in securities transactions have come to the attention of the department during the biennial period just closing.

The latest and most widespread attempts at swindling was through the medium of so-called "tipster sheets." The department recently received a list of 84 of these fly-by-night publications and issued a warning to California investors to investigate thoroughly before purchasing the wares they offered.

Too much praise can not be given to the newspapers of the state for publishing this and other messages of caution emanating from the department. Proof has been ample of the splendid results that have attended their ready and generous cooperation.

That our warning with respect to "tipster sheets" was timely was shown by the large number of inquiries we received from persons in all parts of the state who were being importuned through these publications to invest in securities of little or no value. There can be little doubt that the warning broadcasted in this case saved many California investors from loss and provided another lesson in our campaign to acquaint the public with the ways of the trickster.

In May, 1927, reports were published generally that a new gold field had been discovered at Weepah, Nevada. Excitement ran high. The department made an investigation and found that the much published field was a pocket from which a few nuggets had been taken. One company sought to offer its securities in California without authority of this department, but stopped when the department stepped in and ordered a cessation of its activities. Other companies were conceived but publicity sent out by the department telling the facts of its investigation finally halted the operations of the promoters.

In June, this year, many California investors received highly colored literature offering the stock of a company, capitalized in no less a sum than one billion dollars, whose name was not disclosed. The matter was called to the attention of the department and through correspondence with authorities in the state from which the literature was sent the mystery stock offerings ceased.

During the same month the department called attention of the postal authorities to a flood of prospectuses offering stock in questionable oil companies in Texas. The offerings were stopped.

Brief reference follows concerning other fraudulent schemes and operations which the department has been instrumental in halting:

Sale of illegally issued mortgage notes secured by over inflated real property.

Closing down of one bucket shop.

Sale of stock through spirit mediums.

Sale of so-called bankers shares of the Ford Company of Canada.

Fake brokers offering securities by telephone.

Sale of Russian Imperial bonds.

Sale of alleged "free" stock with merchandise.

Sale of interests in several rabbit, silver fox and poultry enterprises.

Sale of stock in a New Mexico mine.

Sale of stock in an unformed airplane company.

Interests in an expedition to search for Pancho Villa's buried treasure in Mexico.

Interests in a suit pending at Washington to obtain $20,000,000 from the government.

Promotion of an impossible $8,000,000 terminal project in Los Angeles.

Sale of stock in a reputed $1,500,000 mine in Idaho.

Activities of a group proposing to offer $10,000,000 in securities in a land development enterprise in New Mexico.

Sale of stock in a fake airplane company at Long Beach. (Warrant issued; promoter fled.)

Fake ice plant at San Diego. (Promoter fled to Mexico.)

Illegal sale of stock in a Mexican mine.

Sales of stock in Orange County in a defunct engineering company.

Scheme for sale of fake cleaning preparation in connection with Delaware corporation under a "direct selling" method.

Land colonization and fig planting scheme in district south of Sacramento through the sale of so-called profit sharing or growers' contracts.

Operations of two high-pressure salesmen in trading stockholders out of dividend paying stocks and giving in return worthless or nearly worthless oil well units.

Operations of an agent in Lassen County selling stock without a license and trading holders of valuable securities for questionable paper.

Operations of two high-pressure salesmen in trading dividend paying stock for German bonds and German marks. In one case an 84-year-old man was traded out of $16,000 worth of dividend stocks and several hundred dollars in money for German marks. The department was instrumental in having returned to this aged pioneer all of the securities and cash and was the means of saving to his heirs the entire estate which included a ranch of several hundred acres.

Halted illegal sale of undivided interests in a mine; sales were made in Stanislaus County.

Stopped at its inception, sale of contracts covering purchase of hogs and provision for raising and selling of the animals for the benefit of the purchasers.

Illegal sale of interests in oil property to persons in the vicinity of Turlock and Modesto.

Sale of oil stock without a permit covering a New Mexico lease. The sales were made in the vicinity of Turlock and Modesto. The company is defunct, according to the Arizona commission where the company was organized.

Illegal sale of oil stock of another oil company, also around Turlock and Modesto. The commissioner of Arizona, where this company was also formed, reports the concern is defunct.

Sale of alleged personally owned stock of a mining company. Washed sales were being made on a mining exchange to establish quotations and upon these prices stock was being sold at highly inflated figures.

Sale of oil leases in the so-called Livermore oil fields. Many of these leases covered property where there was no possibility of obtaining oil as shown by reports of government and other geologists.

Sales of interests in oil properties in an alleged oil field, a short distance west of Williams, Colusa County. Sales were made in Woodland and vicinity.

Sale of memberships in a mountain club which claimed to have a site in the United States Forest Reserve. An investigation by the Department showed the promoters had no permit to use the land.

Investment Trusts.

There is no business at the present writing that has grown with such rapidity and such magnitude in this country as the investment trust business. This type of business represents an agency by which the combined contributed capital of numerous investors is employed in the procurement and purchase of securities of various type and character. Soundness and safety are attempted to be based upon the principle of the diversification of the securities composing the trust. In this connection, I desire to point out that the term "trust" is used in the economic sense, and is not given a juristic significance.

This history of investment trusts in America is recent. There are, notwithstanding, a greater number of companies organized of this type than the field can comfortably and successfully nourish. Greater still is the number, by many multiples, of investors who have made their contribution of capital in this type of organization. In order to meet the situation presented by the growth of the investment trust business in the State of California and to prevent unhealthy situations and circumstances which might arise from a too rapid growth of this type of organization, rules have been promulgated by the State Corporation Department to more effectively guard against possible disasters and undesirable consequences of poorly managed investment trusts.

The State Corporation Department was first to officially apply constructive regulation to this type of business. Notwithstanding that various efforts made in different quarters to promulgate rules establishing a policy that would make for the safety and betterment of investment trusts, California now occupies the center of the stage, so far as real accomplishment is concerned. Accordingly, rules concerning investment trusts have been made, as a promulgation of policy, in order that such companies in the United States might be impressed with the same degree of dignity and respect concerning the soundness and safety of this type of organization as is now enjoyed by the English and Scottish investment trusts on the continent. These have been announced and disseminated to the legal profession, to investment companies, and to the general public.

The rules on investment trusts are herewith set out, as an appendix to this report, and the reason for the major rules is also herewith set out and appended to this report, as contained in a letter to the North American Investment Trust of March 15, 1928, and marked Schedule 38.

The general attitude toward the rules in California is perhaps reflected in a report made by the Los Angeles Chamber of Commerce. The committee, referring to the rules and regulations of the department, says:

> "The regulations referred to appear to assure, as nearly as possible at this period in the history of investment trusts operating in this state, a high degree of fundamental management at the outset. In effect, they should keep out the promoters of doubtful standing and questionable purpose."

The same report concludes by saying:

> "The Corporate Securities Act and the regulations promulgated by the Corporation Commissioner of the State of California, appear at present to afford a means of protection for the investor against the operation of investment trusts in the State of California, except by those who are qualified under the law and under the regulations."

It might be well to add that, though investment trusts have resulted in a serious problem to the investing public, it does not at this time, at any rate, require any specific legislation to further regulate them. The Corporate Securties Act of the State of California is sufficient in its scope to meet every contingency that might arise by reason of their operation.

In the report referred to by the chamber of commerce, the committee, in discussing the matter of legislation on this subject matter, says:

> "Rather is your committee of the opinion that the Corporate Securities Act of the State of California should be relied upon for the present to furnish protective measures against the sale of securities by unscrupulous and inexperienced persons."

Schedules 34 and 35 attempt to analyze the investment trusts which have qualified in California, either directly or indirectly, and which give, as near as possible, their present status, yet there are a greater number that have appled to this department and found that they could not qualify, and were either rejected by the department or they abandoned their applications. The exact number of applicants that did not complete their applications before the department and who were unsuccessful in obtaining a permit, can not be ascertained, because no record was kept of this phase of the work. A few applied in written form, and a great many more applied orally, and inquiries of all kinds were received by the department as to the possibility of qualifying. All these projects were defeated in their initial stage, saving the promoter a great deal of effort and expense and the investing public money and grief, and those engaged in the investment business a great deal of capital that would perhaps have been diverted into idle and useless channels.

It might be significant to point out that the combined authorized capital stock of investment trusts operating in this state is $181,290,800 and the amount authorized to be sold under permits of this department is $139,309,729.

Finance Companies.

In July, this year, the department completed an analysis of its records in the hope that we would be able intelligently to reply to many inquiring stockholders who complained to us that they had not received promised returns on investments in finance and related companies. The survey covered the period from March 1, 1927, to June 1, 1928.

The results were somewhat startling. The figures indicated that more than 200 of these concerns had ceased business or became involved in financial difficulties during that time.

The following table is evidence of what a survey of the premises disclosed:

SUSPENSIONS AND REVOCATIONS

Finance, Mortgage and related companies, March 1, 1927, to June 1, 1928

	Bankruptcy	Failure to render financial statement	Poor financial condition	Dissolution	Company's request	Without prejudice	Violations	Charter suspension	Permit expired	Abandoned or withdrawn	Denied
SUSPENSIONS											
Finance	0	22	6	6	8	8	5	1	1		
Mortgage	0	1	4	2	0	4	1	0	1		
Security	0	0	0	2	0	0	1	1			
Industrial loan	0	0	0	0	0	0	3	0			
Holding	0	2	0	1	3	1	1	0			
Totals	0	25	10	11	11	13	11	2	2		
REVOCATIONS											
Finance	6	0	1	25	15	7	3	12	0	4	2
Mortgage	2	1	2	11	2	1	0	0	0	0	0
Security	0	0	0	6	0	2	0	2	0	0	0
Industrial loan	0	0	0	2	1	0	0	1	0	0	0
Holding	0	1	0	6	0	2	0	10	0	0	0
Totals	8	2	3	50	18	12	3	25	0	4	2

Grand Total Suspensions and Revocations

Finance	132
Mortgage	32
Securities	14
Industrial loan	7
Holding	27
Total	212

It is apparent, therefore, that if the investors generally, whose money financed these enterprises, were to receive every protection that possibly could be afforded by the department, rules and rgulations must be provided for the control of the concerns.

Tentative rules have been prepared. Using methods similar to those which marked our efforts in handling the investment trust situation, copies of the rules and an explanation of why they are needed have been sent to financial men and institutions throughout California. The fact has been stressed in our communications that successful and going concerns need feel no concern over the proposed requirements.

The proposed rules for the organization of finance companies will doubtless have a tendency to go a considerable distance towards curing the heavy mortality that the foregoing schedule has made so obvious. Under the present system of conceiving, organizing and maintaining a finance company, 20 per cent is allowed for selling expenses, 50 per cent is allowed for promotion. It results in the company commencing business heavily handicapped, with each dollar received from the public being worth only 40 cents and at the same time expecting this 40-cent dollar will absorb the 60 per cent and pay a reasonable dividend from the slender efforts of a business just initiated. It is, therefore, not to be wondered that so many companies fail to succeed.

As finally adopted, the rules will represent a crystallization of the best opinion on this important subject.

The suggested rules are herewith appended and marked schedule 39.

Status of Permit Holders.

Probably one of the most formidable tasks performed by the department during the past twenty months was an investigation to determine the financial status of the thousands of companies which had received permits. Our efforts concerned chiefly those companies receiving permits for the sale of securities to the public. At the close of the biennium I find our records in this regard in splendid up-to-date shape. At the same time a system has been inaugurated by which the checking of companies will automatically continue. As a result of this work the files have been cleared of many companies that became defunct, while many others were found to be in such poor financial condition that further sale of their securities was halted pending rehabilitation.

Mining.

Not long after taking up my duties as Commissioner of Corporations, I sensed the existence of a sentiment in opposition to blue sky legislation of the type now in effect in California.

A brief investigation convinced me that this opposition centered chiefly in the mining industry and that the targets at which the arrows of criticism were aimed were the conditions placed in permits granted to mining companies by this department. I found that the conditions which were regarded as especially onerous were those requiring the impoundment of the proceeds of sales of stock to a stated sum, and providing for a commission of not more than 20 per cent to cover expense in stock sales and the amount of promotion stock allowed to the promoters.

I approached this subject with an open mind, but with a double trend of equally proportioned thought. First, the investor's rights and protection as far as possible under the law must be considered. Second, like all true lovers of California and admirers of the developers of some of its richest natural resources, I felt a keen and sympathetic interest in the miner and his work.

I am convinced that the impounding condition is an absolutely essential provision to be included in permits given not only to mining enterprises but to other speculative ventures. The purpose of this condition is obvious. Its beneficial results have been proven time and again.

Briefly, the requirement is that a stated proportion of the proceeds from stock sales shall be placed in a depository, the total amount so deposited being based upon a statement by the company of the amount it will need to carry out its business plans in a way that would be impossible if the money were frittered away in small sums.

With reference to the commissions, I believe the 20 per cent figure fixed by the department is sufficient in most cases and too high in others. In connection with some of the numerous projects presented to the department, the question has frequently occurred to me whether we would not be warranted in discriminating between mining and industrial ventures in the matter of commission allowed.

In passing, I want to say the question of the amount allowed for commissions is one of deep concern and some perplexity. For that reason I shall discuss that question briefly later in this report.

My investigation to determine if our requirements were in any measure causing the mining industry to ebb—a charge that was frequently made—was not confined to the department.

Early in May, last, a survey was begun by the Engineering division of the department for the purpose of obtaining the views of men, who, we believed, were closest to the mining industry, and, therefore, best qualified to speak. These were the consulting engineers.

On May 2d a questionnaire, or letter of inquiry, was addressed to consulting engineers throughout the state. In this letter the policies of the department with reference to impoundments, commissions, promotion stock and other matters considered in connection with the development of California's natural resources, particularly precious metals and oils, were placed before the persons addressed with a request for opinions whether those principles were fair or in what manner they should be changed.

Considering the adverse criticism which has been directed at the act and its administration, the results of this inquiry were surprising. A tabulation of the 54 replies received follows:

Against the department	1
Noncommittal	7
Unqualified endorsement of the department	24
Endorsement of the department with minor suggestions	12
Criticisms and suggestions	10

Analyzing the responses we found the following with respect to criticisms:

One suggested the elimination from a list on the exchanges of numerous questionable stocks.

One suggested a further investigation of the promoters' histories and the feasibility of enterprises.

Four suggested cooperation with the Commonwealth Club and American Institute of Mining Engineers.

Four believed that the work of the department in issuing permits should be speeded up.

Six believed the personnel of the department should be strengthened and that more field work should be undertaken in order to give us first-hand information regarding districts and properties.

Three believed the sale of initial stock in speculative enterprises should be below par.

Two believed the impound condition to be too stringent.

One believed the commission of 20 per cent to be too low.

One believed the holding of stock in escrow should be for a fixed time.

Two believed we allow too much stock for promotion and services.

One believed too many permits are issued.

One believed the 20 per cent commission is too high.

The criticisms were constructive, and generally speaking were based upon sound arguments. Nevertheless, the conflict of opinions was such and the opinions themselves so varied that I believe we might be pardoned for a suggestion that the mining industry get together and decide upon some settled program that will meet the views of this department in its administration of the law under which it functions.

A second survey was completed under my direction in July relative to the mining industry, generally in the so-called mining states of the west. The results of that survey were enlightening, showing, as they

did, that the admitted decrease in metal production was not peculiar to California alone, but that a similar situation prevailed in other mineral producing states.

The results of this second inquiry are given in an article prepared by me for publication in a recent number of the *Coast Investor and Industrial Review*. I am including in this report that portion of the article relating to this survey. It follows:

"In 1925, California showed a slight decrease in gold yield, but an increase in total metal production. One of the state's largest silver mines did not run on full time and a large copper mine was closed.

"This condition was not peculiar to California. In the same year gold production decreased in Nevada, Idaho and Colorado. Going back over a period of ten years preceding 1925, we find conditions in California and these other states closely resemble each other, indicating that what may have affected one was felt in others with the same results.

"Probably figures will prove the clearest way to tell the story. From 1915 to 1925, inclusive, the average value of production of gold, silver, copper, lead and zinc in California was $26,438,000. In 1925 the value was $22,908,500, a loss of 15%. The average value of the same products in the same 10-year period for Nevada was $30,305,000. In 1925, the value was $22,914,000, a loss of 30%. Colorado's average production for the 10-year period was $27,251,000. In 1925, it was $20,924,000, a loss of 30%. Idaho, on the other hand, showed a small gain in 1925 of 5% above the 10-year average. It will be seen that California not only held its own but outstripped other metal producing states, with one exception, Idaho.

"In seeking an explanation for this decreased production, one naturally turns to publications issued in the interest of the mining industry, or for the information of those engaged in that industry. While it is recognized that minerals are wasting assets and that what is taken from the mines can not be returned, I do not believe that the explanation can be found in depleted resources. While some persons, familiar with mining activities, seem to take the position that supplies of metal are depleting to the extent of affecting production, I find this opinion is far from general.

"Figures prepared by the U. S. Bureau of Mines may be enlightening. They show that the value of gold, silver, copper, lead and zinc produced at mines in California in 1927 was $16,768,500, a decrease of 16 per cent compared with the value for 1926. The same report shows this condition was not peculiar to California, but affected generally the metal producing states. The value of metallic output for the entire United States in 1927 was placed at $1,250,000,000, or 11% below the 1926 value.

"The chief explanation for decreased production may be found in a review of the metallic industry for 1927 which appeared recently in a well-known mining publication (*Engineering and Mining Journal*). Here is a quotation from an article in that publication: 'If the materials and labor consumed in getting out any given quantity of gold have a greater value than the gold pro-

duced, it will be more profitable to the individual producers to leave the gold in the ground.'

"That statement relates particularly to gold. Quoting from another article which dealt with the decrease in production generally: 'Lower prices for mine products were the primary cause of the general decline in production. A lessened demand for metals on the part of the industries, and decreased operating costs, owing chiefly to further mechanization of underground operations and to continued improvement in metallurgical practice, were the outstanding factors contributing to the lowering of metal prices.'

"A quite extended perusal has been made of recognized mining publications, but in none have we been able to find an assertion that the mining industry is being hampered because of laws governing the sale of securities. We can not see how any contrary situation could exist. The department is sympathetic with respect to every legitimate venture in the mining field. Probably this is more clearly shown in the figures in my last annual report to Governor Young. This report, in part, covers the work of the department's engineering division, which handles applications of oil and mining companies.

"These figures show that 86 permits were issued to this class of companies during the year ended February 29, 1928. The total par value of the securities for which permission to sell and issue was asked was $49,522,028. The total amount permitted to be sold and issued was $45,504,738, or more than 91% of the amount applied for. The figures are not given here as a defense against criticism. They are presented merely as data in support of my statement that so far as this department is concerned, legitimate mining propositions in California need have no fear.

"Summing up the information we have been able to obtain and which is presented here in very brief form, it would seem that if there is any trouble with the mining industry, it is not peculiar to California alone and that it is due to an economic situation."

Air Transportation.

California is today one of the principal centers in the nation of aerial activity both in the way of manufacture and transportation. Recently, in a published interview, a leader in this industry was quoted as predicting that, on account of climatic conditions, the superiority of air lanes in this section of the country and the constantly increasing interest in aeronautics, California was rapidly advancing to the foremost in this branch of productive activity.

The State Corporation Department up to more than a year ago took a negative position with respect to applications of air transportation companies.

While no specific rules have been made for the control of these companies and concerns planning to manufacture aerial equipment, a policy has been adopted which, I believe, should properly be discussed while I am on the subject of rules and regulations.

This policy is a reversal of the department's former position. I feel that aerial transportation and the manufacture of equipment for such

transportation should be regarded in a common sense way. As a business, the industry will undoubtedly undergo stages similar to the progressive development of the oxteam, the horsedrawn vehicle and the modern steam locomotive.

Whether or not aerial transportation has proved successful, there is no doubt it has reached a point where it must be regarded as legitimate and worthy of encouragement. The department so regards it.

Careful examinations are made of applications of these companies for permits to sell securities in order to finance their projects and when the good faith and integrity of the officers have been established, the department gives encouragement to the enterprises by granting permits.

Whether or not recent strides in the manufacturing end of this industry may be regarded as a consequence of this policy of encouragement, the fact remains that California now ties with Michigan for second place in the number of establishments engaged in building aircraft. Figures compiled by the Department of Commerce state that of sixty-one establishments reporting for 1927, fifteen were located in New York, nine in California, nine in Michigan, four each in Illinois, Missouri and Ohio, while the remainder were scattered in ten other states.

Seemingly, the same situation applies to air transportation. Washington dispatches under date of August 22, this year, quoted W. Irving Glover, Second Assistant Postmaster General, to the effect that the operating line between Los Angeles and Salt Lake City still is the outstanding line for mail and that air passenger service between San Francisco and Los Angeles is the most efficient to be found in the country.

Brokers and Agents.

Pursuant to the provisions of the Corporate Securities Act, certificates issued to brokers and agents by the State Corporation Department terminate on the 31st day of December of each calendar year. Beginning with 1928, a more detailed record has been kept concerning the financial standing and business integrity of the brokers and agents. The program naturally caused some delay in the issuance of licenses, but one of the important effects is the elimination of delay in the future.

By reference to the information now on file with the department concerning the financial condition and integrity of the respective brokers and agents, certificates will be issued in the future, immediately or soon after the first of January of each year. Indeed, under the new order of things, applications for renewals might be made before the termination of the calendar year, and in the plurality of cases, licenses will be issued to brokers and agents effective as of January 1st.

Supervision of brokers and agents does not end with the issuance of certificates. The Regulatory Division possesses information and maintains its files concerning the operations of all persons holding certificates as brokers or agents, particularly those against whom complaints have been made. The character of the information so collected and compiled will, in many cases, determine whether brokers should be permitted to retain their licenses and to carry on a stock and bond business.

The provisions of the law require each complaint to be heard at a hearing, where the broker may be present and be represented by counsel. These hearings are conducted by the Complaint and Investigation Department. Where the complaints are unfounded, the matter is disposed of by dismissal of the complaint. Where fraud or unconscionable conduct has been proved, revocations of brokers' and salesmen's licenses must issue, as a matter of law, and for the protection of the public.

Supervision and control after the issuance of licenses is accomplished by means of conditions which accompany the certificates at the time they are issued. The department has one general condition for all brokers. This requires the keeping of full, true and proper records of all transactions. The results of imposing this condition have been very valuable, both to the department and the broker. We at all times are in a position to learn the financial status of any broker, while the license holder always is able to tell where he stands, a situation particularly to be desired in a business where the status is constantly changing.

A second condition is the same as that just discussed, with an additional requirement that the license holder shall file a copy of his record of transactions at specified intervals with the department. This condition is imposed chiefly to new brokers and in order that the department may know what classes of securities are handled and whether the prices are proper.

A third condition requires that no contract shall be entered into by the broker for the sale of securities until it has been approved by the department. This does not apply to the sale of securities of a company which has been paying dividends over a period of two years. Under this condition the department is enabled, through means at its immediate command, to determine whether securities, particularly those underwritten, should be offered to the public.

A fourth condition is similar to the one last discussed, except for the further requirement that the department must be supplied with a complete statement as to the financial status of the company in the securities of which the certificate holder proposes to deal. Under this rule information which the department is unable to obtain quickly through its own efforts must be supplied by the broker.

A fifth condition requires that the broker shall every three months submit profit, loss and financial statements to the department. This condition is also imposed in cases where licenses are held for the first time and where the financial condition of the certificate holder is such that frequent checks are necessary for the protection of security purchasers.

Frequently reports have been made to the department of persons who have lost securities through high-pressure methods or by reason of deliberate fraud, and we have later found that the securities were purchased and sold by persons holding brokers' certificates. Where suspicion exists that any broker may be acting as a clearing house for securities obtained in this way, a condition is imposed requiring that the broker shall take precautionary measures, all of which are clearly specified, to see that no securities fraudulently obtained pass through the hands of himself or his agents. With the further requirement that

the department be given full information concerning all transactions, this rule has proved to be a splendid weapon against unscrupulous persons who now find it difficult to dispose of securities they have procured illegally.

Altogether, the effect of the conditions has been to place brokerage concerns on a firmer and sounder foundation. Evidence of this fact may be seen in the following figures:

From March 1, 1927, to date, the number of brokers' certificates issued was 837. The number of revocations because of failure was eleven, only three of which were ordered since the rules became effective the first of this year.

The department's supervision over brokers has been made much easier through the splendid cooperation it has received from the stock exchanges of the state and the California Group of the Investment Bankers of America. There have been many cases where the assistance of these organizations have been of great benefit in our labors.

I desire to stress the point that the department, in administering the Corporate Securities Act with respect to brokers and agents, has entirely eliminated the "thumb-screw" policies heretofore existing of penalizing brokers and agents for every violation of the law committed by them. Especially is this true in those cases where the violations were virtually mistakes on the part of brokers and agents, and where said mistakes were afterwards rectified by an equitable adjustment or proper restitution of funds. In those cases, it is obvious, the acts of the brokers and agents are not such as involve moral turpitude, nor should they reflect on the honesty and integrity of the broker. Wherever such situations have arisen, we have felt that equitable adjustments and proper restitutions were concrete evidence of good faith and of intentions to carry on the brokerage and stock deals upon a moral and equitable plane.

Brokers and agents, therefore, do not regard with alarm the attitude of the department toward their honest mistakes and errors, due to ignorance, when these are brought to our attention. The policy has been openly expressed that every opportunity to make rectification will be afforded the broker or the agent before any action for the revocation and denial of licenses is taken, particularly where the broker or agent has entertained an honest difference of opinion concerning the propriety of the deal and where bad faith is an absent element.

New Conditions in Permits.

In order to adequately meet and treat the many varied problems arising in the department it is necessary to formulate special rules and regulations so that the law might be properly administered and enforced.

I want to emphasize the fact that rules are not the product of the independent thought of the Commissioner who prepared them. They represent a natural and logical reaction to conditions. They should, in the main, be regarded as the moral effects of experience. Virtually every rule was adopted in an attempt to prevent the recurrence of a fraud or to circumvent the plans and purposes of those who might prey upon the unwary investors.

Experience has brought us to the realization that one effective way of preventing frauds and swindles of all kinds is to include an express

condition in permits requiring companies, particularly foreign corporations, to keep their books and records, stock journals, stock ledgers, as well as books of general entry within the State of California and accessible to all persons interested. One of the great difficulties was in supervising foreign corporations coming to California to sell stock to the public, in that very frequently their books and records were not within the state and beyond the jurisdiction of legal authorities of the State of California. This condition makes it imperative to keep the books within the state. I need not stress the results that naturally follow a condition of that kind. They are obvious.

As a complement to the foregoing condition, it is further required by specific provision in the permit, that the applicant company make periodical reports to the department, showing the true financial condition of the company. Those conditions are imposed in all open permits where a great number of shares of stock are offered to the public for sale involving large sums.

In order to avoid the disastrous results that might be caused by an overissue of stock, the department has inaugurated for the first time in its history, in those cases where the number of shares of stock are many, a policy requiring companies to appoint and maintain registrars and transfer agents. The registrar and transfer agent must be a responsible organization and with respect to registrars particularly, none other than banks and trust companies are qualified to act as such.

In the interest of the protection of bondholders, as well as for the protection of the borrower, we are embodying in every bond permit a condition requiring that the department be advised in the event of a default in any of the provisions of the trust indenture supporting the bonds. We feel that greater care is necessary in guarding the interest of the beneficiaries, either proximate or remote. Not only is the trustee and the department entitled to know that the various conditions in the trust indenture are complied with, but we believe that this information would enable the department to ascertain, with a reasonable degree of certainty, what the factors are which contribute to the default.

The purpose of this condition is to afford the department the opportunity to make a careful analysis of the economic conditions that prevail when bonds are in default. At the same time it would afford a measure of protection to stockholders and creditors who have put in the first money to start the enterprise into operation.

Conditions under which a default is produced should be carefully scrutinized, because not infrequently it happens that defaults are brought about by designing and contriving manipulators and promoters, whose object it is to eliminate those who have advanced the junior financing.

Club Memberships.

During 1927, there sprang up, mushroom like, a number of club propositions which resulted in losses to purchasers, the aggregate of which can not be estimated. The majority of these enterprises were beach clubs, chiefly in southern California. The propositions, set forth in the most alluring way, made a strong appeal. In addition, fear was placed in the minds of many that the clubs must finally become the only salvation for beach lovers, as the sections for public use were

rapidly being taken over by these organizations. The department sought to control the club situation at its inception.

A ruling was made that the memberships issued by the clubs constituted securities as defined by the Corporate Securities Act. Notwithstanding, however, the sales continued. The entire subject matter was reported to the prosecuting authorities, but, as far as is known, without results.

A test case was finally started. That case was carried to one of the appellate courts, but upon motion of the club's counsel, it was dismissed. That particular club later applied to the department for a permit.

I feel that the action of this club under reference, in having the case dismissed and making application for a permit, was in the nature of a victory for the department, but it came too late to prevent the loss of great sums of money in a number of such promotions.

This is one of numerous deplorable situations which, I am certain, could have been avoided if the department had had the authority to institute injunction proceedings and brought the matter to an issue in court in the first instance for final determination.

The question of jurisdiction remains entirely unsettled because there is no adjudication of a court of appellate jurisdiction construing and interpreting the status of a membership to an organization of this character. Some decision on this point would ultimately settle the matter.

Radio Broadcasting.

In connection with our Public Relations Department an educational campaign was conducted over the radio, through the Los Angeles and San Francisco offices, admonishing the investing public against purchasing securities in dubious schemes, and advising them of our experiences with various frauds, so they might be able to recognize them when approached. Besides, this campaign stressed that "when in doubt concerning the matter of purchasing securities," the department might be in a position, upon request, to furnish them information concerning the securities and the company issuing them, which might be of considerable help in basing an opinion.

Advertising.

Section 7 of the Corporate Securities Act requires that general advertising should be submitted to the department for approval before being published. In this case we do not pass upon the amount or volume or size of the advertisement, but confine ourselves strictly to what the advertisement contains.

During the year last past the department has handled 14,160 separate pieces of advertising. It would have been practically humanly impossible to have handled this volume of advertising expeditiously were it not for the cooperation of the various newspapers in which they appear. The press is maintaining a close scrutiny for fraudulent advertising. A determined effort is being made by outstanding stock and bond houses, as well as by the press, to cooperate with this department to eliminate false, questionable and misleading advertising, and it is through these mediums that a great deal of colorful advertising has been suppressed.

Projects Involving Moral Turpitude.

Basing our opinion upon the ground of public policy, the department, in January of 1928, denied the application of the Coronado Development Company for a permit to finance a club in Mexico. The denial was issued following investigation which convinced us that the project was a gambling enterprise and that the memberships proposed to be sold were nothing more than a license to indulge in drinking and gambling. The opinion upon which this course of conduct is predicated is herewith appended as schedule 40.

According to the application of another company, it planned to offer securities to finance a bail bond business. Believing that a permit for that type of business would establish a precedent for the encouragement and promotion of crime, the department requested the withdrawal of the application, and the request was complied with.

It might be well, while under this heading, to just mention, since we are going to refer to the subject again, that occasionally in finance companies of various types, or in kindred companies where the chief commodity is money, the question of compliance with the Usury Statute arises. The policy of the office under those circumstances, is not to sanction, through the approval of a permit, an offering to the public where it patently appears to be a violation of the statute.

Another phase involving moral turpitude arose in connection with the growing of hemp in the State of California. Upon investigation, it was disclosed that cultivated hemp possesses only a negligible quantity of narcotics, and under supervision and policing will not result in a moral hazard. A most searching study was made of the problem of hemp growing by the department with the result that proper policing arrangements have been provided by companies which encourage hemp culture in connection with their industries.

Court Decisions of Importance Affecting the Department.

Decisions of considerable importance have been recently handed down by the courts of appellate jurisdiction, all of which have far reaching effects. Among these cases are *Otten* vs. *Reisner Chocolate Company*, 52 C. A. D. 839; *Boss* vs. *Silent Drama Syndicate*, 52 C. A. D. 870; and *Gracchi et al.*, vs. *J. M. Friedlander*, 57 C. A. D. 127.

The Otten and Boss cases deal with the illegal sale and issuance of securities and by virtue of the court's interpretation of the provisions of the Corporate Securities Act involved in said decisions, greater strength and force have been given to the constitutionality of the Corporate Securities Act.

The more recent decision handed down by the District Court of Appeal is the case of *Gracchi et al.* vs. *J. M. Friedlander*, decided during the month of September, 1928. The case involved the determination of a question of whether the sale of agency contracts issued by a copartnership business conducting rabbit farms, were securities within the meaning of the Corporate Securities Act. The business of the copartnership consisted of operating a plant for the harboring and boarding of units of rabbits in hutches and fractional parts thereof, without any segregation of property. Each contract was proposed to be sold in expectation of a gain to the investor.

The agency appointment provided that the vendors of the rabbit shall care for, supervise, inspect, market the rabbits and their increase, and

while the agency exists, possession and title to said rabbits are to remain with the vendor.

The District Court of Appeal determined that such contracts are securities and fall under the influence of the Corporate Securities Act.

This case sets at rest any question that contracts for the sale of rabbits, muskrats, hens, foxes and other stock are subject to the supervision of the department.

The fourth decision of undoubted importance is a case involving the officials of Fishelton Farms, Incorporated, a poultry colony. In that case, the appellate court made the important determination that the reasonable orders of the Commissioner of Corporations did not contravene any provision of constitutional law; that, although no legislative power can be delegated to commissions, the law does not intimate "that they are mere rubber stamps." That decision was the first to be rendered by any court upholding the authority of the blue sky commission to impose reasonable and necessary conditions for the protection of the public.

Gridley vs. *Filson*, 75 Cal. Dec. 8, affirms the right of the Commissioner of Corporations to provide conditions in the permit and that a violation of such conditions makes the entire contract void and unlawful.

In *Mitchell* vs. *Grass Valley Gold Mines Company*, 56 C. A. D. 931, the District Court of Appeal in another district rendered a similar opinion.

The District Court of Appeal, in *People* vs. *Bachman*, 56 C. A. D. 1238, affirmed a conviction for violating the Corporate Securities Act in selling mining stock.

Prosecutions.

The Complaint and Investigation Division has been active in contributing to the prosecution of offenders of the Corporate Securities Act and persons charged with frauds involving the sale of securities. The department has cooperated to the fullest extent with the district attorneys of the various counties of the State of California, by the collating of evidence, interviewing witnesses and assisting in the prosecutions.

The department has also kept in close touch with litigation affecting the Corporate Securities Act that was taken before the appellate jurisdictions, and invariably, in important litigation, we appeared as *amicus curiae* in order to afford the court the greatest discussion upon the subject under consideration.

It is pardonable at this time to comment that we were fortunate, in all appellate matters, to be sustained. However, in the superior court, during the past biennium only in one instance the act of the department was reversed. This case, which involves the denial of an application of C. C. Streeter and Company for a broker's license, was recently filed. The superior court held that the department exceeded its authority. The denial of the application was on statutory grounds and was based upon statements and admissions made by the applicant in testimony before the Los Angeles County grand jury. Under those circumstances we were without alternative in the premises.

During the period covered by this report the department has been actively engaged in the superior court of various counties of the state in the prosecution of over forty cases. In approximately 75 per cent of the cases we were successful in procuring convictions.

For the first time in its history the department recently undertook a survey of the entire state to determine the extent of offenses in which securities were involved. The results of that survey clearly show that securities swindlers centralize their activities in the large centers of population. It also seems to indicate that either of two situations exist in counties where the population is comparatively small. One is that the operations of handlers of securities of little or no value are virtually nil, or that those who purchase such paper pocket their losses without complaint. We are inclined to take the first view. Otherwise reports of some of these transactions, at least, would have reached the department. It is probable that various warnings and educative material sent out by the department and published also had good effect.

The survey was conducted among the district attorneys of the state. The result follows:

Number of Prosecutions, by Counties

	1928	*1927*
Los Angeles	61	90
San Francisco	12	15
San Diego	7	10
San Bernardino	6	6
Inyo	2	0
Alameda	1	0
Glenn	0	1
Fresno	0	1
San Mateo	1	1
Totals	90	124

Of the remaining counties, 36 reported "No prosecutions," while 14 failed to report.

The foregoing figures show a decrease of 27 per cent for the first nine months of 1928 compared with the entire year of 1927.

In this connection it might be well to point out that results are not always obtained through the medium of prosecutions in courts. There are various other effective methods of getting at nefarious practices that are resorted to. I direct your attention to a matter that has given the office considerable concern.

One of the worst evils that flourished in California for several years apparently has almost, if not entirely, been eliminated during the bienninm. I refer to the so-called financing service companies. Emboldened by the apparent success of one such concern known as the Hitchcock Financing Service, Inc., which held itself out as in a position to handle all phases of corporate development from the inception to complete financing, several enterprises of similar character sprang into being. The existence of the Hitchcock concern ended abruptly after the department obtained proof that it was representing it could dispose of securities of the corporations it organized, when in fact it held no such authority. All the facts were laid before the prosecuting authorities and this step, together with an expose of the methods used by this company, was given wide publicity. While no prosecutions have taken place, the effect of the publicity was to cause the company to change both its plans and its name, while at the same time other similar concerns became discouraged and abandoned this particular field of endeavor.

Efforts were made by some of these companies to operate through licensed brokers, but these were quickly halted by the department.

There is no doubt that many honest persons seeking to promote legitimate propositions were inveigled by the false promises of these concerns, and, after paying exorbitant fees, were left to shift for themselves in their efforts to place their enterprises on a going basis.

In this and in similar ways we have been able to reach out and cope with many aggravating situations that would be impracticable to take into court.

A matter of vital importance that the department has uncovered and has vigorously contended with during the past year is with regard to the so-called money lenders on stock. A class of professional short sellers have recently cropped up and are eating at the vitals of the ignorant, unwary and indifferent investor.

A company will be organized and may even receive a broker's license from this department, and then will advertise in the local papers stating that it will loan up to 80 per cent of the market value of any security. When the individual presenting the security borrows from one of these companies, he signs an agreement whereby said company can at any time sell the security and is only obligated to return the security to him upon payment by him of the amount of the loan. Other companies secure the same result by a dual contract by which the borrower actually makes a sale of the stock to the lending company at 80 per cent of the stock's then market value and receives from the company an option to purchase the same number of shares of the same stock thirty or sixty days from date.

The practice in any event is that the company making the loan immediately sells the security, thereby getting the full market value of the security, while it only lends to the real owner 80 per cent of the market value. In other words, 20 per cent more than is loaned is received by the lending company, together with the legal rate of interest on the 80 per cent so loaned. In many cases the loaning company is able to purchase back the stock at a much lower figure than it sold it, and by this method gains additional moneys on the transaction. Also in some cases where the stock has gone up, the company frankly admits that it is unable to deliver the stock, but will, as a matter of compromise, pay the person who was the original borrower, the market price of the stock the day the stock was loaned on.

In order to counteract this practice, the Complaint and Investigation Department has put in stop orders on all brokers who were known in this way, and said brokers have been called before the department and forced to cease this method of operation. In cases where companies other than brokers, or individuals have been dealing in this manner, the department has made complaint to the district attorney's office and gathered the information which will show that by this method of operation, said company or individual is operating a brokerage business. So far, two companies have ceased operations entirely in this manner, and three companies have modified their plan of business and ceased this particular method of brokerage. A third company has been complained against both in San Francisco and in Los Angeles, and the officers of said company have been arrested in San Francisco and the matter is now pending in the Court of Appeals.

Codification of Practice Before Department.

A great many regulations have developed since the adoption of the Corporate Securities Act. The volume has increased almost proportionately with the growth of the state. The nature and character of these regulations have become as technical and as intricate as the field it purports to cover. Notwithstanding this fact, very little has been accomplished in the way of promulgating and publishing the procedure that the department has adopted as a basis of conduct for it to follow.

Doing business without a systematic or methodical practice to resort to, we are mindful, is entirely unsatisfactory. Besides, as a matter of common courtesy, those who resort to this office have a right to know and should know the general modus operandi, so that those who practice before the department can be prepared to meet ordinary and reasonable regulations, thereby eliminating every possibility of arbitrary, whimsical and capricious administration of the Corporate Securities Act. But the fact remains that no attempt ever has been made to publicize the practice before the department. We found it, therefore, imperative that the practice of the department be codified.

We have been engaged, in the last year, in codifying the practice and procedure before the department, which, we hope, will be completed about the first of next year. We are bending every effort to make this code as feasible and as flexible as possible, meeting with facility and expedition the many and varying phases of business which come through this office.

To do so, we felt it was necessary to apply ourselves seriously to the study of the practice and procedure resorted to in the various states of the Union, as well as to ascertain the practice of the various stock exchanges in the country, including the general procedure resorted to by the various organizations of investment bankers.

When this code will be completed, it is contemplated that we will present it to those who would be most likely interested therein, for criticism and suggestion. The criticism will be assimilated, organized, analyzed and, as far as it is practical, embodied therein.

In re Amending the Corporate Securities Act.

Thomas E. Ridgway, president of the State Bar Association, in July of last year appointed, at our request, a special committee to make a study of the Corporate Securities Act, to recommend amendments to the law which would render it more effective. Every detail of the operation of the State Corporation Department was submitted to the committee. The proposal that the law be changed occasioned considerable editorial comment, the general tenor of which invariably was very encouraging and very favorable and to the effect that if such changes would be made it would mean further and greater protection to the investor.

While the State Bar has not endorsed or approved all the changes suggested by the department, it is fair to say that they have made no recommendation that would in any way detract from the effectiveness, integrity and the status of the present act. There seems to exist among the members of the State Bar various opinions upon the changes proposed by the department, and it is unable, at the present writing, to reconcile the diversity of opinion. Nevertheless, the State Bar has undertaken the further study of the act and the needs of the depart-

ment, in an effort to bring about a more efficient administration of the act.

The department suggested that it be given jurisdiction to initiate and prosecute violations of the Corporate Securities Act, and, whenever necessary, to institute such civil litigation as would prevent violation of the Corporate Securities Act.

Through the instrumentality of the amendments sought, it would operate to permit the department to make its own rulings on questions of law instead of looking to the district attorneys of the various counties of the state and to the Attorney General's office for opinions on questions of interpretation and construction of the Corporate Securities Act.

I might add that these proposals were considered and endorsed by the Better Business Bureau of San Francisco, Better Business Bureau of Los Angeles, Better Business Bureau of Oakland, Better Business Bureau of San Diego, Better Business Bureau of Long Beach, and the California Group of Investment Bankers of America.

Among the newspapers who spoke favorably editorially upon the subject are the San Francisco *Examiner*, San Francisco *Chronicle*, San Francisco *Call*, San Francisco *News*, Los Angeles *Times* and the Los Angeles *Express*, San Diego *Union*, Sacramento *Bee*, San Bernardino *Sun*, Pasadena *Star-News*, Long Beach *Press-Telegram*, Santa Cruz *News*, *California Oil World*, *Southern California Business*, *Southwest Builder and Contractor*.

It is hoped that the amendments might be crystallized before the next session of the legislature, so that we might submit them to Governor C. C. Young for his consideration. Exhaustive surveys have been made and are now in our files to support the suggested changes.

Impounds.

The field that is covered by the Corporate Securities Department is concededly of such magnitude that it touches more business and more sides than any other department in the state. It is, therefore, natural that it has more resistance and opposition than any other one agency of the state. For this reason it is important to stress the effectiveness and efficiency of the act, the substantive part rather than the administration and the enforcement of it.

The act provides for the escrow of, in cases where it is "fair, just and equitable," stocks and bonds, and impounding of moneys. The impounds are essential in cases of new enterprises, to see that the applicant has sufficient funds or margin wide enough to reasonably assure, upon a reasonable basis, commencement of the actual operation of the business. That is determined upon a purported budget, depending upon the nature and character of the enterprise.

An approximate analysis of a cross-section of this particular work shows that 631 permits required $39,221,022.68 to be impounded. Summarized, it is as follows:

85 permits (13⅖%) met the conditions and released $5,852,777.03 (15%) in amount.

80 permits (12⅘%) partially complied and obtained releases for $1,101,821.05 (2⅘%) in amount.

311 permits (49¼%) failed to meet the requirements to raise $16,878,637.50 (43%) in amount.

155 permits (24 11/20%). Period not yet expired. $15,387.787.10 (39⅕%) in amount.

250 out of the 631 required an extension of time to comply with the conditions. Out of 631 companies only 165 were able to acquire adequate capital to commence operating with some degree of assurance to successfully pass the immediate heavy strain on a new business.

311 companies, or 49⅕%, failed to acquire capital in an amount sufficient to avoid receivership within the first year. This is an immediate saving to the investing public of an amount equal at least to $16,878,637.50, the amount required to be impounded by the department. The actual sum paid for stock would undoubtedly have been slightly less; however, the attending costs to investors in bankruptcies and receiverships would bring the total up to, if not in excess of, the amount stated.

Predicated upon this showing, it would be safe to predict that of the remaining unexpired permits only half will be successful in meeting the impounding condition. The safeguard of the impound is inestimable.

Were the impound not imposed, in cases where it is warranted, the inference is inescapable that it would result, no doubt, in a great loss to the investing public. That is made obvious from the fact that money put into any given project before a reasonable amount of money is established, is money virtually dissipated.

Escrow.

Escrow conditions are usually imposed in the case where promoters desire stock for promotion and intangibles. Promotion stock and stock for intangibles is escrowed, as it is quite apparent, because the business is, in the final analysis, dependent upon the money that the public puts into it and not upon the promotion services or the intangible assets conveyed to the corporation by the promoter. The promotion stock is escrowed, therefore, until such time as the financial statement of the applicant shows that the stock given for intangibles has a tangible value back of it, thereby preventing the promiscuous sale of such stock to the public.

Tests made of the efficacy of the escrow condition show that about 40 per cent of the permits issued to companies contain the escrow condition. Of these, 20 per cent were able to make showing sufficient to warrant the release of stock from escrow and 2 per cent failed to make a showing sufficient to warrant release; 50 per cent of these companies apparently will never be able to make a sufficient showing, while 28 per cent of the companies will be able to show some value on the stock over a period of many years.

Companies issuing reasonable amounts of stock for good will and patents come under the first two groups. Companies who have issued large blocks of promotion stock, and companies with ideas to exploit and patents to perfect, for which stock is issued, come under the last group.

The protection to the investing public against the floating of stock which is of little or no value, would run into the millions. For example, from March 1, 1928, to August 31, 1928, ninety-nine companies were

granted releases of stock from escrow, amounting to $4,050,073. The value of the escrow provision in the statute is conclusive.

Commissions.

In my discussion relative to the mining industry, I stated the question as to how much commission should be allowed in promotional enterprises frequently was the occasion for some perplexity in the department. I believe I should make this statement stronger and say that it has caused us no little anxiety.

The problem which confronts us when a promotional concern applies for permission to sell its stock at a commission of 20 per cent, is whether it can at any time sufficiently absorb that much of a margin.

Frequently we have been asked to allow more than the 20 per cent which is the limit under the department's rules, and at times we have felt there was good reason for the requests. In other cases 20 per cent has been allowed although we were doubtful if the amount could be used in sales expense.

It has been contended with good grounds that large commissions are conducive to fraud due to the possible intent of an applicant to promote a project merely for the purpose of obtaining the allowed compensation and not actually to engage in business.

Recently under my direction an inquiry was begun in an effort to solve this problem. The results so far have been unsatisfactory. Summed up, the responses we have received are that those who request to be allowed 20 per cent commission know the cost is justified or they would not ask for it, and that the department knows the cost is justified, because if it did not, it would not approve the permit authorizing the expense.

However, actual contact and experience, tested through the records of the department, indicate that about 35 per cent of the companies receiving permits are permitted to pay 20 per cent stock selling expenses. Of these, 1.7 per cent have succeeded in writing off that selling expense and paid dividends. 22 per cent have partially succeeded in writing off the stock selling expenses and at the same time paying dividends. Slightly less than 10 per cent of these companies are authorizing the stock selling expenses but are not paying dividends. It follows, then, that approximately 67 per cent of the companies who have applied to this department to sell their stock at 20 per cent commission could neither absorb the selling expense nor pay dividends. In other words, the selling commission is so great that it results in ruin to the new enterprise.

It would inevitably follow if the selling expense were greater than 20 per cent, the number of companies organized upon this basis would be far less able either to absorb the stock selling expenses or to pay dividends. It follows, therefore, that 20 per cent commission is a liberal amount to be allowed, which would rationally be conducive to bringing in reasonable returns to the public investor.

Industrial Loan Companies.

The Industrial Loan Act passed in 1917 by the legislature was, we believe, primarily intended as a means of assisting the wage earner and

small salaried man in securing financing in case of emergency, and was, we believe, intended to protect him from the unscrupulous loan shark preying upon unfortunate victims of society who found themselves in need of immediate funds, and were required to pledge their salary or other means of income.

While the purpose of the act was undoubtedly sound, and the results aimed at intended to be beneficial, the practices to which the act was submitted led to many abuses and instead of benefiting the class of persons intended to be protected, it led, in many cases, to their undoing. This was largely due to the excessive interest charges, investigation fees, insurance charges, and other charges placed against the account of the individual desiring to borrow money. In view of the fact that all of these charges were discussed in advance, and in view of the fact that the applicant for the loan was in dire need, he was compelled to accept the terms offered him regardless of how disadvantageous. In many instances he was even forced to buy stock or securities in the lending company, therein enabling that company to make a further profit. These practices, the department feels, have been in a large measure, if not entirely, corrected in the manner set forth below.

Some time during the month of June, 1927, the question of usurious rates of industrial loan companies was raised and the matter was submitted to the Attorney General for opinion. During the month of July this opinion was rendered, advising this office that the rates then charged by industrial loan companies, based upon a hypothetical case submitted to the Attorney General, constituted usury and were in violation of the usury law of the state.

The opinion, briefly, held that the referendum measure of the people in the form of the usury law superseded the legislative statute permitting the organization of Industrial loan companies, as far as usurious rates were concerned, and that the former statute would govern in such matters. An immediate investigation was instituted in connection with certain industrial loan companies, and their rates were found to be usurious, running anywhere from 14 per cent to 20 per cent, depending on the nature of the loan, its maturity, duration and similar other features. Although a new opinion was almost immediately requested concerning many intricate problems arising out of the former opinion of the Attorney General, no answer has been received, other than informally, from the chief deputy to the effect that the policies that we were enforcing were substantially correct. The office has just recently been advised that the Attorney General's department is still working upon this opinion.

Several comprehensive hearings were held at which time the district attorney's office was jointly associated with this office and the matter gone into thoroughly. Industrial loan companies consisting of The Morris Plan System, the Peoples Finance and Thrift System and Industrial Loan System were present by their officials and their attorneys. The hearings were continued from time to time and ultimately resulted in said companies being advised that this office was of the opinion that investment certificates, thrift certificates and other evidences of participating interests in industrial loan companies were under the jurisdiction of the corporation department and were void if issued without a permit.

A great deal of opposition was encountered on the part of the industrial loan companies, but the department commenced an active campaign of education, appearing before their gatherings in person and by letter. A questionnaire was compiled and presented to each industrial loan company so operating in this state, and the data secured from them analyzed and the nature of the business conducted by that industrial loan company in question thoroughly investigated. The results, of course, indicated that most of the companies were violating the usury statute, although apparently operating in conformity with the Industrial Loan Act, and that most of the companies were violating the Corporate Securities Act in that they were issuing investment certificates without a permit.

In each individual case the company was advised of our conclusions and the department secured the cooperation of most of the organizations, with the result that, without any serious harm or injury to any organizations, applications were made where necessary to issue certificates in cancellation of indebtedness, where they had theretofore been sold without a permit, and authorized to be sold in order to take care of the issuance of any further installment and investment certificates.

The interest rates and discount rates were cut from 6 per cent to 5½ per cent and 5 per cent, depending upon whether or not the loan to the working man was for twelve or ten months, and the companies continued to do business and to operate successfully.

The department was also instrumental in securing the abolition of penalties of 1 per cent, or a greater amount, per month for failure to pay up installments when immediately due. Under this guise some of the loan companies were receiving as high as 252 per cent per year.

Credit Unions.

A new statute was enacted by the state legislature in 1927 entitled the "Credit Union Act," California Statutes of 1927, chapter 36. This act is even more detailed and regulatory than the Industrial Loan Companies Act. It places the corporations organized thereunder in the jurisdiction of the Corporation Commission.

The purpose of this act apparently is to enable groups of persons to operate a corporation of which they are members for the purpose of making small loans to its membership only. Briefly, it provides for cooperative loan companies. It was apparently felt that the industrial loan company did not entirely solve the loan problem. Of course, the industrial loan company was fundamentally operated for the purpose of charging the maximum legal rates of interest so that dividends could be earned for its stockholders and this profit was paid by the public who dealt with the industrial loan company. In the credit union, on the other hand, the fundamental theory is that said organization is confined in its activities to lending money to its own membership only and that "maximum profits" was not the object, but "operation at cost" was the object. Therefore, interest rates would be even less than that charged by the industrial loan companies.

In pursuance of the advantages given by the Credit Union Act, there have been organized in northern California six credit unions and in southern California seven credit unions, under said act, and permits have been granted by this department authorizing the sale and issuance

of memberships therein and issuance of receipts for money of its members placed in the working assets of the credit union. These organizations have been among the employees of the Post Office Department, large commercial organizations and public utility corporations. This department has given special attention to these organizations to cooperate with the incorporators and attorneys and thereby arrive at a common understanding of this new detailed statute and effect a satisfactory permit in each case. It is the aim of this department to assist these new corporations in carrying out the apparent beneficent purposes of such organizations.

Agricultural Cooperative Corporations.

Agricultural cooperative corporations have been accorded the fullest attention of this department in the past year. The purpose of these organizations is usually to enable the farmers to join their efforts, money and services in a cooperative united effort to produce, manufacture and market their products at less cost and with greater efficiency and scientific management than would be possible without such organization.

The unfortunate experience of a number of cooperative agricultural organizations which failed through mismanagement, lack of information and knowledge of its members and lack of proper plan of operation, has led the department to carefully analyze the plan of operation of these applicants, the personnel and business experience, ability and reputation of its contemplated managers, and the rights, interests and obligations of its members. Also, it has been determined that a recital in the permit setting forth the corporate structure, the plan of operation of the cooperative organization, the rights, interests and liabilities of its members, would be beneficial to inform the members of these organizations more fully in regard to the organization of which they were members and, therefore, produce more intelligent participation in the affairs of such organization and serve to protect and advise prospective members, and members after they become such, of their rights, interests, duties and liabilities.

The fuller examination and study of the plan and personnel of these cooperative organizations should eliminate more of those foredoomed to failure through improper or incomplete plans of operation or improper and untrustworthy management, while at the same time not hindering legitimate cooperative agricultural organizations and, in fact actually assisting them to more efficiently and intelligently cooperate with their members. There have been twelve of said companies organized and which obtained permits to issue memberships during the first six months of 1928, ranging from dairy and poultry producers to fruit and grape associations.

Earthquake Insurance.

The department in the past invariably adhered to the policy of requiring on construction and bond issues full coverage earthquake insurance, irrespective as to the class, character and nature of the building. Recently, earthquake insurance companies have advanced their rates to such unprecedented level that it made this kind of insurance almost prohibitive, and the question was presented to the department as to whether or not the department is going to continue to require full coverage earthquake insurance.

An exhaustive survey has been made upon the subject, and the department has decided, as a necessary deduction from the said survey, that only a minimum amount of insurance will be required, depending, however, upon the class, character and nature of the building. The reason for our conclusion is contained in a letter to the California Development Association, of September 19, 1928, which is here appended and made a part of this report.

Conclusion.

In this biennial report, the seventh since the State Corporation Department was created, I have tried to portray as clearly as possible the things that have been accomplished during the period of my incumbency, the problems which have been encountered and our hopes for the future.

I believe the report contains much food for thought, particularly at a time when to all appearances enemies of blue sky legislation again are actively at work seeking to impair the effectiveness of such legislation by substitution or amendment.

Based upon trying experience that has been earned from personal application over a period of about two years, during which time I have given the matter my closest study and observation, my belief is that the Corporate Securities Act needs strengthening. The new teeth, which, in my opinion, should be added, are set forth clearly and explicitly in this report, and I am convinced that with these changes the act would afford the highest attainable degree of protection to California investors, place business generally in California upon a higher plane and direct millions of invested dollars into legitimate channels exclusively.

In closing I want to acknowledge a debt of gratitude and express my sincere appreciation to Governor C. C. Young for his interest and the sympathetic understanding he has shown the department in many of the problems that were submitted to him. Equally are we indebted for the generous help and assistance extended to us by Alexander R. Heron, director of finance.

We make no claim for completeness for the matters here discussed, but we believe that we have here laid the foundation upon which the work of the department could be analyzed in the future, with greater thoroughness and precision. This report was compiled without embarrassing, to any large extent, the regular routine work of the office.

I might point out that while the department has undergone many changes and reorganization, it has not undergone any radical or revolutionary changes. The changes were attempted to be brought about upon the basis of producing a maximum of efficiency with the minimum loss of time and energy. In making these changes we were extremely mindful of not seriously disturbing the general office equilibrium, or in any way inconvenience those who, of necessity, have had to resort to it.

In preparing this report no assistance or guidance could be obtained from prior reports. By this, no conclusion should be formed that former reports of the department are valueless or that they should be, in any respect, underestimated. It seems, however, that the previous reports did not deal with the problems of the department in any

specific manner. We have undertaken to deal with concrete and specific problems rather than merely to draw conclusions, treat generalities, or to discuss platitudes.

The little we have accomplished during the past biennium would have been utterly impossible if it were not for the loyal, staunch support and cooperation that was given me by the members of the department. It was their unswerving devotion to their task that brought about the results that I have here indicated in my report, and to them I owe the greatest debt of appreciation and gratitude to be able to close this biennium with any credit to the department.

Respectfully submitted.

J. M. Friedlander,
Commissioner of Corporations.

Schedule 1.

SUMMARY OF OPERATIONS OF THE STATE CORPORATION DEPARTMENT FOR THE TWO YEARS ENDING AUGUST 31, 1928.

RULES AND REGULATIONS GOVERNING INVESTMENT TRUSTS

Introduction.

Widespread interest attaches to the constructive series of rules and regulations designed to govern the conduct of investment trusts, both domestic and foreign, operating in the State of California, which were initiated and placed into effect on April 16, 1928, by the Hon. J. M. Friedlander, State Corporation Commissioner.

Recognizing the importance thereof, these rules and regulations are presented herewith in full.

Through this action by the State Corporation Department, California becomes one of the first states to attempt to deal with the rapidly increasing problem of investment trusts, by promulgating a complete and comprehensive set of regulations for their operations.

Especial attention is directed to Commissioner Friedlander's foreword and also his letter to the North American Investment Trust, reproduced herein, both of which constitute informative and valuable commentaries on this subject. The latter justifies in a detailed manner the rules and regulations propounded by his department, particularly with respect to the requirement for semiannual publication of lists of securities owned by investment trusts.

THE CORPORATION TRUST COMPANY.

April, 1928.

FOREWORD

The time and energy devoted to the compiling of the rules on investment trusts was with the single thought of making them, as far as possible, of a composite character, meeting as many varying situations as possible.

There is no business at the present writing that has grown with such rapidity and to such magnitude in this country as the investment trust business. It is, therefore, as readily noticeable that there is no type of business that could be as quickly abused as the investment trust.

As a general proposition, the investment trust business is financed with public money. To that extent, the public is a party in interest. The public, therefore, has the inherent right to preserve it against dissipation and destruction. It is, by the same token, a proper subject matter for public regulation. These rules manifest an effort on the part of the State Corporation Department to protect the public in its investments in that particular type of enterprise.

The history of investment trusts in America is recent. There are, notwithstanding, a greater number of companies organized of this type than the virgin field of this type of endeavor can comfortably and successfully nourish. Greater still is the number, by many multiples, of the investors who participate in this type of investment. Thus, in order to assist those who might be interested in this class of investment, to become more conversant with the situation and to more effectively guard against possible disastrous consequences, it is felt that the rules promulgated by this department should be disseminated and distributed as widely as possible, and would be of assistance not only to investors, but also to those who contemplate organizing investment trust companies.

This is the first attempt to apply constructive regulation to this type of business. Notwithstanding the various attempts at various times and in various quarters to promulgate a set of rules establishing a policy that would make for safety and betterment, California occupies the center of the stage, in so far as real accomplishment is concerned. In view of the possible far-reaching effect that these rules might have upon the type of business sought to be regulated herein, the dissemination and distribution to the public, to the legal profession and to investment trust companies, by and large, are not only acceptable but advisable and timely.

It is with these thoughts in mind that the State Corporation Department embraces the opportunity afforded by the Corporation Trust Company to distribute and disseminate the matters herein contained. It is felt in so doing that investment trusts will be recognized with the same degree of dignity and respect in this country, as are now enjoyed by the English and Scottish contemporaries on the continent.

J. M. Friedlander,
Commissioner of Corporations.

April 16, 1928.

Schedule 37.

RULES AND REGULATIONS OF THE STATE CORPORATION DEPARTMENT GOVERNING INVESTMENT TRUSTS IN CALIFORNIA

1. Qualification as to Character.

A reasonable showing consisting of satisfactory evidence that the men proposing to engage in the investment trust business, or in any way connected therewith in a discretionary capacity, shall be made to the effect that they are persons of integrity, of good character and reputation, and of sound financial responsibility.

In the event of any change in the directorate, official and managerial or discretionary personnel, a similar showing shall be made to the department concerning their successors in office.

2. Qualification as to Competency.

A detailed history of the antecedents, education, training and experience of the promoters, officers, directors, managers and those others who have direction, charge, control and supervision of the trust and/or business, which would reasonably warrant the findings of a careful and prudent person that the individuals contemplating engaging in the investment trust business, or those connected with the management thereof in any discretionary capacity, are sufficiently competent and qualified to engage therein.

Should any change, substitution, addition or elimination of the officers, directors, managers or other persons herein contemplated be made, all successors in office and in interest shall qualify in the same manner and to the same extent as their predecessors in the first instance.

3. Description of Method of Operation.

A full, complete and detailed statement of the plan, scheme or method proposed to be resorted to in connection with the operation of the investment trust business shall be submitted to the department. This statement shall describe the manner and basis upon which the management will determine to buy and/or sell, or to invest and/or reinvest its capital.

If the management relies upon a financial agency or research bureau other than that maintained, directed and supervised by its own organization for the purpose of furnishing it with such data and information upon which to base an opinion to buy and/or sell and invest and/or reinvest, then it shall provide the Corporation Department with sufficient evidence to show that such agency furnishing such data and information is properly qualified and equipped so to do, both from the standpoint of integrity and competency.

Should such agency be changed at any time, its successors shall qualify with the State Corporation Department in the same manner as its predecessor.

4. Scope of Business.

The scope of business of an investment trust shall be unlimited and unrestricted to as large a diversification as possible, and spread over

the greatest number of securities of sound, stable and standard marketability.

An investment trust shall by express provision be precluded from engaging in promoting any enterprise or engaging in any brokerage business, but shall confine itself to the primary object of the business.

5. Kind of Securities To Be Dealt In.

The funds of an investment trust shall be confined exclusively to the investing and/or reinvesting in such sound and seasoned securities that are at all times marketable or of such marketability so that they will continue to be liquid at all times during the period of the business of the investment trust.

6. Prohibition of Officers Dealing With Trust.

The officers, directors, trustees and/or managers of an investment trust shall not deal with themselves or companies in which they are principals, in the investment of its funds, nor shall they profit, directly or indirectly, by virtue of dealing with the trust.

7. Amount Paid-up Capital Necessary.

A good and sufficient showing shall be made that those who are initiating the business of an investment trust shall have subscribed and paid in an aggregate amount equal to not less than twenty per cent (20%) of the initial paid-in capital. Further, it shall appear that the trust is in an amount of sufficient magnitude, all things being equal, that would warrant a reasonable finding that it will not operate at a loss.

8. No Promotion.

No stock or other securities shall be issued or allowed, or money paid as compensation for promotion or for property of intangible or uncertain or doubtful or speculative character or value.

9. Salaries.

Any and all salaries paid to officers, directors or managers shall be reasonable in amount and commensurate with their duties and responsibilities in connection with the investment trust business.

10. Limitation of Commission.

No commission or discount for the sale of stock of an investment trust or for the sale of certificates evidencing the beneficial interests in an investment trust shall be in excess of ten per cent (10%).

Any expense, commission or discount incurred in the sale of such securities shall be written off the books out of the profits over such reasonable period of time as is consistent with sound accounting practice and as recommended by a certified public accountant of approved standing.

11. Five Per Cent Diversification.

None of the funds of an investment trust in excess of five per cent (5%) thereof shall be invested in the securities of any one corporation or in a single business enterprise.

12. Securities Dealt in Must Have Earning Record.

The funds of an investment trust should not be invested in the securities of any corporation unless the business carried on by the corporation has been in successful operation for at least three years, save and except however, where and when good cause exists that the application of this provision will prove injurious to the operation of the investment trust, then only to the extent of not more than twenty per cent (20%) of its resources the investment trust may invest in securities of more recently organized companies.

13. Limit on Unsecured Indebtedness.

An investment trust shall not create any temporary indebtedness in excess of fifty per cent (50%) of its current assets, inclusive of the free and unpledged securities carried at their fair market value, nor shall any such indebtedness, inclusive of any extension, be made for a longer period than is consistent with good business.

14. Financial Statement.

A company engaged in business as an investment trust shall submit to this department semiannually, certified financial reports showing the assets and liabilities, including therein all contingent liabilities, and a detailed profit and loss statement for the period.

Such financial report shall be compiled by an independent certified public accountant in public practice and a copy sent to the share or certificate holders of the trust. The said financial statement shall also show whether the securities owned are carried at cost or market price.

15. Dissemination of List.

Every trust or company engaged in the business of an investment trust shall semiannually transmit and submit to its stockholders or holders of certificates of beneficial interest, a list of all the securities owned and dealt in by it during that period, a copy thereof to be filed with this department.

16. Literature.

Literature of all kinds and descriptions circulated and disseminated by those engaged in the investment trust business shall clearly and accurately describe the character and nature of the business and the securities offered.

17. Market Manipulation.

Those engaged in an investment trust business shall not buy on margin or sell short or participate in any manner in blind pools and unfair market manipulations.

18. Surplus—Reserve.

The trust, or those engaged in the business of an investment trust, shall be required to maintain an accumulated surplus or reserve before declaring any dividends. The trust, or those engaged in the business, shall set aside, before declaring a dividend, ten per cent (10%) of the profits of the period covered by the dividend, or a reserve for contingencies until such reserve shall amount to twenty-five per cent (25%) of the paid up capital stock or in the case of common-law trusts, twenty-

five per cent (25%) of the trust, unless the accumulation of such surplus, by the express provision of law, would cause to invoke a penalty.

19. Limitation on the Use of the Word "Trust."

No corporation, company or association shall use the word "Trust" as a portion of its corporate, firm or trade name or title, or of the name under which it does business; nor shall it advertise or represent in any way, or display or publish any sign, symbol or advertisement reasonably calculated to convey the impression that it is a bank or trust company.

20. Limitation on the Use of the Words "Federal," "United States," "Reserve."

No corporation, company or association shall use the word "Federal," or the words "United States," or the word "Reserve," or any combination of such words as a portion of its corporate, firm or trade name or title, or of the name under which it does business; nor shall such corporation, company or association advertise or represent in any way that it is a member of a Federal Reserve System, or publish or display a sign, symbol, or advertisement reasonably calculated to convey the impression that it is a member of such system.

March 15, 1928.

Attention, Mr. Coleman

My dear Mr. Coleman:

Permit me to reply to your communication regarding investment trusts and let me thank you most kindly for your very interesting discussion on that subject, which was attached to your letter.

The contemplated rules and regulations of this department upon the subject of investment trusts evidently have aroused no small amount of interest in various quarters. We have given the matter some appreciable thought and study, and we, therefore, were compelled to delay speaking upon the subject for a considerable length of time. We might also point out that a great deal of time was consumed in hearing and considering objections and protests from a number of investment trusts from different parts of the country, which are already engaged in this business and who seriously disagreed with our point of view in the premises.

Let us say that we are still continuing in the study of this subject, not entirely because of its vastness but rather for the reason that the nature and the character of investment trusts is such that it could be easily diverted from its original objective. It seems that it is so sensitive and so susceptible that it can be easily distorted and perverted to the extent that it would result to the great detriment of a class of investors who, no doubt, were, are and might be influenced to purchase the securities of investment trusts for no other reason than that the name means what it implies—"INVESTMENT," not a "SPECULATION."

If we are reasonably convinced after a fair trial that the rules and regulations promulgated by the department prove to be impracticable and that they do not feasibly meet with the ends of legitimate business in California, you can rest assured that the department will, accordingly, immediately revise and modify them. If, however, such be not the case, these rules and regulations on the other hand might find a much needed place in the life and progress of this business.

The department was prompted by the thought that it was entirely pertinent and timely to provide some rules of conduct, no matter how fragile, for this business, because of the past history of its activities in this country, which, although short and recent, is spectacular and arresting. It is hoped that by so doing it will measurably eliminate, if not entirely avoid, for California, the disastrous results in this field of investment that was experienced in the east.

The Issue—Publicity of List of Securities.

All criticism apparently is focused upon the provision requiring investment trusts to submit and transmit to its stockholders or certificate holders of beneficial interest, as the case may be, a report every six months listing all securities owned and dealt in by it for the period covered by the said report.

Because of the wide circulation that a report of this kind might receive and considering that this department will have a copy of this report for its files, and that the files of this department in the main constitute public records, quite a number of investment trusts, both in and out of the State of California, were somewhat apprehensive and felt no small amount of anxiety and concern about it.

The obvious publicity that a list of securities owned and dealt in by an investment trust would get by reason of such regulation, it is argued, would operate as an almost irreparable injury to those engaged in this industry.

Position of Department in Favor of Publication.

We, on the other hand, are keenly mindful that publicity is a valuable safeguard and counteracts and overcomes and in a large measure offsets the inevitable danger that follows from undue concealment and secrecy, particularly to those who have a right to know. Query: "Who has a better right to know than those who have contributed to the capital that constitutes a trust?"

The Analogy That the Author of the "List" Stands in the Same Position as the Author of a Book Has No Valid Application.

It is contended that a list of the securities of an investment trust is a valuable asset and if it is published the value of the asset is destroyed. The list is compared to the "brain child" of an author who composes a book and, therefore, it is urged that both the author of the list and the author of a book should be protected in the same manner. Since the author of a book has the exclusive monopoly of the product of his brain, by way of a copyright, so it is insisted that an investment trust is equally entitled to a monopoly of the "list" of securities comprising its portfolio, or else both are helplessly exposed to vandal piracy.

The rule that has provoked this discussion requires that the list be submitted by the corporation only to the stockholders and interest-holders who compose it. The word "published" is used, therefore, in a restricted sense. It means, as employed here, to advise and inform those who are by reason of vested interest embraced within the organization. The corporation, the author of the "list," by the act of disseminating copies of the list among its stockholders does not inform or advise the contents thereof to anybody but its own members, and since the stockholders and interest-holders form an integral part of a corporation, it follows that by so doing it does not advise or inform anybody but itself. It equally follows that it does not publish the "list" to anybody but to itself and the investment trust alone, therefore, has the exclusive use of it. It can not be said on that ground that the position of an investment trust is similar to that of the author of a book. Consequently the analogy does not apply.

"List" Is Not a Literary Product Entitled to Monopoly.

It is extremely doubtful whether, for instance, one could obtain the right of monopoly in the mere compiling and assembling of quotations of standard authors. The source of such material is available to everybody and the act of extracting it and appropriating it for private uses and purposes does not, in itself, produce any new or original literary property upon which the right of monopoly could be predicated. By the same process of reasoning it would follow that it is equally doubtful whether the right of monopoly exists or could be claimed for the mere assembling and compiling, for private and personal use and benefit, of reports, data and statements which are virtually available to everybody. The material, easily accessible without restriction, upon which the lists are based, is used and appropriated without adding thereto anything of literary value, save and except inferences and deductions which are self-evident. These inferences and deductions merely express the individual opinion of the author but does not create any product of literary attainment. Such opinion, however, is not infallible because many human elements of uncertainty are involved over which the author has no control.

On What a Monopoly Can Possibly Be Expected.

Should, however, a market specialist or expert conceive of some accurate scientific device which would determine the movements, the forces and the strain of the stock market, unquestionably the author or the inventor or discoverer would be entitled to the protection of a monopoly. The perfection of such scheme or device would entirely remove the necessity of government interference by regulation.

The Character of the "List."

The "list," as we understand it, is made up by marshalling considerable data and information from various sources pertaining to securities offered upon the open market. In that form it is presented to the investment trust, who uses it for the purposes of basing an opinion as to which securities to buy, hold or dispose of. The sources of the information are available to all, but it is difficult to marshal it quickly because it is widely scattered.

Eliminating for the present the advantage of expeditiously gathering the information, the fact remains that since the information is accessible to everybody, the vital element is the intelligence with which the opinion is formed, or the intelligence with which the inference and deductions are made from all available information. Intelligence, though rare, has its own reward and it can not be protected by a monopoly. If all good examples, the result of experience and intelligence, can not be followed, the question arises as to what redress a British trust would have against their American contemporaries for adopting a scheme so similar to theirs.

After all, the protection, if any, that is sought by the investment trust is not for the actual and precise words or figures or the order in which they appear on the list, but rather for the ideas and information underlying such words and information. The investment trust business seems to pretty well concede that the thing they wish to protect is the use by other persons of facts which may be deduced or inferred from the list of their holdings. Admitting, for the purpose of this instance, that the mechanical order of the "list" could be protected by copyright, the fact remains that the underlying ideas, the information or the inferences and deductions that others might make of the list of holdings can not be copyrighted.

Protection of Monopoly Unnecessary Because There Is Adequate Protection at Law.

Besides, assuming without conceding that the "list" would improperly and irregularly fall into the possession of others than members of the corporation, who might wilfully take advantage of it to the detriment of the investment trust, even then the list would not merit a monopoly. In this respect the investment trust is virtually in the same position as anyone else similarly situated who suffers a wrong. The law supplies ample remedy for recovery and relief. The fact that the investment trust might be exposed to a problematical hazard, that in itself is not sufficient reason to qualify it to special protection of a monopoly. It is a common risk assumed generally by all.

Lack of Proof That Publicity Will Result in Detriment.

We are seeking to accomplish something constructive and we, therefore, can not presume the existence of improprieties and irregularities, nor is the situation so palpably apparent that we can assume them without satisfactory proof. Since the presumption does not exist and there is lack of proof thereof, we find support in the legal axiom, "That which does not appear to exist does not exist." "That one has not used his own right to infringe upon the rights of others." (Secs. 3514 and 3530, C. C.) This is further sustained by the legal presumption that

dealings between men "are fair and regular." (Sec. 1963, C. C. P., Subd. 19.) Since the proposed rule contemplates to benefit all the stockholders and interest-holders of the investment trust and since submitting it to a probative test there is no convincing or evidentiary proof that this rule will result in an injury to the investment trust, there is sufficient warrant for the creation and maintenance of this rule upon the theory that it is intended to subserve the greatest benefit to the greatest number.

Publication of List of Securities Does Not Disclose Market Position of Investment Trust.

It seems that the greatest benefit derived from the collection of the data and information upon which this service is built, is the speed with which it is transmitted to those who could utilize it. This service is received by those who resort to it from agencies that furnish it by telegraph. Speed is the most attractive and effective feature of this service because in that way alone is it possible to cope with rapid market fluctuations. The value of the service is almost wholly in the fact that the knowledge thus communicated is earlier in point of time than knowledge communicated through other means or to persons other than those having like service.

On the other hand, under the rule in question, the investment trusts are required to disclose their holdings only semiannually, not immediately. It follows then that the publication of a list can not be relied or depended upon as an index to the portfolio of any given investment trust at the time of its publication. The list perhaps relates to transactions that have taken place months before it has been published, but does not in any way entirely expose the immediate market position of the investment trust which is the only thing of importance that might be taken advantage of. It follows that since the "list" does not disclose the true position of the investment trust, that it would be of no use whatever in the hands of competitors. The "list," as published, is not a valuable asset. The publicity, therefore, does not destroy its value.

Speculative Element Greatest Necessity for Regulation.

If income and profit of investment trusts were strictly confined to earnings and dividends of the stock in the portfolio, perhaps no great anxiety would exist for supervision. The fact remains, however, that it depends for its success or failure upon the rise or fall of markets and their reflected market values. Assuming that to be a correct premise, it follows that there is injected in the investment trust business an element of uncertainty and speculation. The temperament of the stock market is fickle. The forces that make it buoyant or recedent operate with great speed and uncertainty and they are brought into motion by causes and effects which respond rapidly and easily to maneuvers and manipulations. Is it reasonable, therefore, to conclude that under these circumstances regulation is necessary?

The fact that an investment trust will be required to disclose a list of its holdings will, on the other hand, tend to confine the holdings to conservative and sound securities which will make the greatest appeal to its stockholders. The inference is permissible that such a list will then form a substantial basis upon which a selling argument could be predicated for the disposition of the stock in the investment trust.

The Investor Not Indifferent to Importance of the List.

We are confronted with the contention that the investor, in purchasing the securities of the investment trust, entirely relies upon its management. The vital consideration that moves between the investor and the trust, it is emphasized, is the confidence that the investor has in the integrity and ability of the management of the trust. Though essentially important, it must be admitted that fact standing alone hardly is sufficient tangible security for a sound investment. It is practically impossible for every investor to be initimately familiar over a long period of time with those who constitute the management. Quite on the contrary it is customary for investors to purchase securities of investment trusts that are located at great distance and with the management of which the investor never contacts. To the enlightened investor there must be something more convincing and persuasive than the mere reputation of the trust. It would be going to great length to presume that the investor could go into a situation and remain therein on blind faith. If such be the case, it is dangerous and unthinkable, and on that ground it must be rejected. Quite on the contrary, the tendency seems to be that a sensible investor would not buy securities unless the corporation issues frequent information at regular intervals. The investor today is considerably familiar with the more important principles of investment and, therefore, demands a considerable amount of information concerning the company whose securities he purchases.

It, therefore, can not be consistently accepted that the stockholder in final analysis is indifferent to the manner in which a corporation is conducted or what securities the corporation deals in. If the investor is so credulous and gullible that he becomes passive, we feel that, nevertheless, his mental mechanism should be aroused instead of lulling him into a deeper lethargy of carelessness and inactivity.

This Rule Necessary Because Investors Have No Voice or Vote in the Management of the Trust.

It is rather significant that in almost eighty per cent of the investment trusts that have applied to this department for a permit to sell their securities, the stockholders or certificate holders or holders of beneficial interests have no vote or voice in the management of the business. With those who have contributed to the capital of the investment trust entirely precluded from exercising a vote or voice in the conduct of its business, they are entitled, we imagine, at least to a periodic accounting of the standing of the trust. This periodic accounting to be intelligent should contain lists of the securities that comprise the portfolio. These reports might act as a barometer registering with some degree of certainty not only the status of the securities held by the trust but equally as well the status of the management and personnel operating the company. No doubt the management can be fairly judged by what securities it deals in. In addition it might also serve the purpose of indicating to the stockholder whether the management of the investment trust functions in a manner that would justify him either to hold the stock, purchase some more or entirely dispose of it.

The argument that the entire control of the corporation rests fundamentally with the stockholder does not apply where it is shown that about eighty per cent of the investment trusts disenfranchise those

who contribute its capital. The voting rights in the majority of the investment trusts are either concentrated in the management or in a few who control the management. Since but few investment trusts give their stockholders an equal voting right, it is difficult to create a class for them alone and discriminate against them on that account. A rule should apply without discrimination. It is the consistent enforcement that makes a rule effective.

The Law Leans Toward Publicity.

Considering many statutory provisions of the California law, it is obvious that the policy of the law as expressed therein leans strongly in the direction of publicity. Were it otherwise, the law would not compel, by penal provision, the officers of a corporation to permit the stockholders the right to examine corporate books nor would the Corporate Securities Act compel corporations to submit to the jurisdiction of the Corporation Department. It might also be pointed out in this connection, that by reason of this provision and other similar provisions in law upon the same point, the conclusion is no doubt warranted that books, papers and files of a corporation can not constitute trade secrets to be withheld from the stockholders of a corporation or the Corporation Department. The rule in question attempts to cover no more than the law specifically provides. Consequently rules and regulations which are conducive to publicity help to carry out more effectively the aims and purposes of the law.

The Publication of the "List" Is Only Valuable to Competitors to the Extent That It Will Reflect Greater Benefit Upon the Publishers.

We are confronted with the contention that if investment trusts are compelled to publish their lists of securities contained in their portfolio, their competitors, rivals and general investors outside of the trust will make use of it in a way that will be detrimental to the trust. This is a conclusion for which we have no proof and is very likely based upon the human and pessimistic assumption that outsiders are competitors and rivals and that competitors and rivals in commerce, industry and finance constantly are bent upon some insidious and invidious process to cause each other mischief.

Upon analysis we are unable to find what injury it will be to the publisher of the "list" should it fall in the hands of competitors and rivals. If any advantage can be realized by competitors from a disclosure of the "list," it would be either by buying or selling securities dealt in by the investment trust. Since it has been previously pointed out that the publication does not expose the present current market position of the investment trust, the whole contention on the face of it is clearly untenable. It is reasonable, therefore, to suppose, upon the theory that it is impracticable to underestimate the ability of an adversary, that competitors are well aware that the "list" as published is virtually worthless.

Again, it must be borne in mind that the essential principle upon which investment trust business is based is diversification. Surely then the individual investor can not take advantage of the "list" as published by the investment trust because at best the investment trust has not dealt in any one item to a greater extent than 5 per cent of its

capital. This, however, being but a small proportion of the entire capital, it is, therefore, too meager to operate as a precedent which can be reliably followed without reservation. Conceding also that one security, measured by the amount an investment trust can invest in any one item, being as good as another, one would be at a total loss to know which of the securities dealt in by the trust to choose, for it would be absolutely impossible for a private individual investor to deal in all the securities contained in the "list."

Besides, there is hardly one investor who would have sufficient available capital to take advantage of every one of the securities dealt in by an investment trust on account of the wide spread. It is almost conclusive then that it would be rank fallacy for a single investor to try to accomplish single handed what the investment trust can do through the aggregation of capital. It is quite apparent, too, that the individual seeking diversification can get it at a smaller risk and greater safety by buying the stock of an investment trust than to try to cope with the entire market himself.

What is said about the individual investor also applies with equal force to rival and competing investment trusts. The principle of one investment trust being the same as that of another, particularly with respect to diversification, it follows that one investment trust will not concentrate upon any one item in excess of 5 per cent of its capital. Therefore, should the publication of the "list" expose the vulnerable side of a trust to an attack it will affect the status of the securities dealt in by the publisher of the "list" very little, if any. The principle of diversification has the effect of a restriction and limitation upon the investment trust. This restriction and limitation operates to prevent investment trusts from doing the very things the opponents of publication seem to claim.

At the same time the obvious fact must not be overlooked that if general investors, competitors and rivals will follow the lead of the publisher of the "list" it will create a greater market for that type of securities and will inevitably result in measurably enhancing the value of its holdings. Surely, the investment trust publishing the "list" can not under these circumstances be heard to complain because its securities will be worth more on account of its publication.

The Investment Trust Must Be Bigger Than Its Personnel.

Undoubtedly, a single publication of the "list" can serve but a small purpose. It is the publication of the "list" at frequent and regular intervals over a long period of time that will determine the nature, character, temperament and policy of the investment trust.

The investment trust, by disclosing its "list" in this manner, will offer the opportunity to its stockholders to determine as to whether it adheres with any degree of consistency and constancy to the dealing in good, sound, stable and liquid securities. It is only by the process of comparing, analyzing and reconciling these "lists" from time to time that it can establish a sound foundation upon which it may build a reputation for integrity and efficiency which will be bigger and better than that of all the individuals comprising it.

Though it is indispensable that the management of an investment trust must be of sterling quality, yet, possibly, too much stress has been laid upon the reputation, character and personnel of the investment

trust to the exclusion of the same qualities of the investment trust as an entity separate and apart from its personnel. An investment trust, to prove its worth and merit, must be bigger than its management. The success of an investment trust, as we view it, depends upon its background, history and tradition accumulated, without a blemish, over a satisfactory period of time rather than the mere arriving upon a high crest of an economic or financil wave over which no one person or management has any control, or upon any sporadic stroke of brilliancy of its management or any of its individuals. The efforts and energy of an individual depend upon too many elements of uncertainty. There are innumerable forces, influences and agencies ceaselessly at work that might, with surprising speed, eliminate the individual or they might be such that individual resistance would be as helpless as a broken reed in a storm.

While the individual can be easily removed or remove himself, the trust, on the other hand, which possesses the investments of countless investors, must remain and continue to carry on and out the functions originally undertaken by it. Too many have placed their dependence in the trust rather than upon the slender endeavors of the individual. It, therefore, is incumbent upon the trust to build policies and standards which are more enduring and lasting than the individual.

The history of the trust in this connection should, over a reasonable period of time, bear out substantially the fact that a trust has faithfully adhered to its policies. It seems that the only convincing evidence to this effect would be to reveal and keep those who have contributed to its capital fully advised of its activities. To publish the "list" in the sense the word "published" is here employed, would no doubt constitute such evidence.

The publication of the "list" will have a tendency to test the efficiency of the policy of the trust because in this respect the stockholder will be able to compare each "list" with the preceding one in order to ascertain whether the securities dealt in by the investment trust fall into that classification that would warrant him to conclude that the trust continues to observe its original policies which induced him to buy its securities.

At the same time the effect of such publication will be to subject the management to the scrutiny of its stockholders and interest holders with the result that the management will exert every effort to maintain high levels of competence in every direction. Such practice, equally as well, will have the effect to constrain the management to conform to tried, established and sound policies and will cause it to refrain from deviating from the standards which have distinguished it in the public eye.

The Publication of the List Does Not Result in Rendering a Gratuitous Service to Outsiders to the Damage of the Trust.

To properly compile their portfolios, some of the investment trusts subscribe to a source of research to supply them with information, and the list of the securities purchased by the investment trust is the product of this system. It is complained that others than the investment trust, by following the published "list," will profit by it gratuitously. Possibly that is true, but not very likely.

The most valuable asset of the service that these various systems render to the investment trust, as already pointed out, is the speed with which the information is communicated to the subscriber. In that lies not only the greatest benefit but also the greatest protection to the investment trust. By the time the "list" is published, the investment trust has exhausted its usefulness to its fullest advantage, and after that the "list" has no inherent utility and its value is entirely spent. Time, in this instance, is of the greatest essence, and since a considerable length of time has elapsed from the time it was received by the trust to the time it is actually published, its value is extremely doubtful. The primary reason therefor is that the "list" published at intervals of considerable length relates to past transactions and rests upon materially different conditions and circumstances than prevailed at the time of the publication.

Besides, should the "list" be potential, in that it contain beneficial suggestions, and on that account be followed by others, even though in the light of the foregoing construction the contention is indefensible, it proves the superiority of the trust on that ground. It is followers that make leaders, and in that there is additional benefit reflected upon the trust. It can not complain, therefore, on that account. If the "list" can do anybody any good and will result in no harm to the trust, it at least can be generous with the leavings.

Investment Trust Business Is Different From Any Other Business.

The investment trust business is fundamentally different from any other venture or enterprise. It is more closely akin and related to banking and trust companies than it is to any other corporate form of business offering its securities to the public.

It has already been pointed out that the word "investment," forming part of the name of the business, means safety and security, and it does not involve hazard and speculation; and "trust," forming the other integral part of the name, implies that the relation that exists between it and its investors is analogous to a capacity of a fiduciary character. From it, on that account, ensue special obligations owing by the trust to the investor. The fact is that such fiduciary relationship, or in effect some such similar relation, has been frankly and commonly conceded in the business world by managers, stockholders and the public generally.

It follows that in the light of this construction it would be highly improper for managements to operate an investment trust and keep the stockholders and interest holders in ignorance of the nature and extent of their operations. It is no more than fair, just and equitable that the trustee shall fully and truly account at certain definite intervals of his stewardship to the beneficiaries of the trust. By accounting is meant not only advising the stockholders and interest holders of the financial condition of the investment trust, but also informing them of the list of securities they are holding. In this connection it must be pointed out that the list of securities is part of the financial statement of the company because as a part of its inventory its purpose is to support the financial statement.

It must be remembered that the investment in securities is unlike purchasing commodities in a limited and special market where one buyer may have means of supply not known to others, and for that

reason conceals the source of its means of acquisition. Quite on the contrary, however, the investment trust deals in securities where the market is open to all. The field within which the investment trust can safely operate is limited to those securities of outstanding reputation and value and having a reputation for yielding profitable dividends and promises to appreciate in value.

In any event, if the investment trust gained some special knowledge of some unusual profitable investment, it would be unable to realize the full advantage from such discovery because of the usual limitation upon it requiring that not more than 5 per cent of its funds shall be invested in any one corporation or enterprise.

Investment Trusts Are Proper Subjects for Regulation and the Regulations Should Be Applied Consistently and Without Discrimination.

Investment trusts are subject to the exercise of police power of the state. The police power may, and should be, invoked to prevent frauds upon the public.

To allow investment trusts to refrain from publishing lists of their holdings would offer unlimited possibilities for fraud. There are devious ways conceived by ingenius frauds that concentrate with untiring efforts to loot the treasury. The history of the investment trust is rich with material from which can be drawn many instances of abuse. Requiring a periodic publication of the holdings of the investment trust would have no effect upon the present or the future market position of the trust, but will, on the other hand, create a public record of the dealings upon the part of the management which will check duplicity.

In order to prevent fraud it is necessary to regulate all investment trusts. It is, of course, elementary that the regulation must be uniform and apply equally to all. We, however, are mindful and recognize that the great institutions organized in America to function as investment trusts are headed by some of the largest financial houses and most reputable men in the United States, but that in itself is not sufficient to except them from the general application of the rule. The fact that such regulation will be invoked will no doubt operate as a protection to those that are now engaged in this business. These rules, therefore, are calculated to eliminate an undesirable element without casting any undue burdens or reflections upon legitimate enterprises. It is also aimed to accomplish by this, the diversion of legitimate capital from illegitimate projects to legitimate fields.

A Word of Comparison Between American and British Trusts.

While the investment trusts in England and Scotland have considerable history back of them, their transplantation to America is comparatively of recent origin. In this respect, we in America, in a measure are imitators. While no doubt investment trusts have many attractive features and in many of their phases appear sound in a few ways the American trust has deviated from the British plan and in a great many other ways the American trust has added to it and improved upon it. Assuming that the imitators are as adept as the originators, the fact remains that it takes a reasonable amount of time to prove the innovation. If time is evidence of the success of the British trust, it

would follow that it takes the same amount of time to prove conclusively the success of the American trust. Upon the same basis of reasoning would it be bold to presume that all the evidence is not in which would be pertinent to the case of the American trust claiming to stand upon the same footing with that of the British trust. In this the future is the only decisive factor.

In the meantime, there is justification and reason for the establishment of rules and regulations that can consistently be applied to all without discrimination. Though these rules perhaps might be imperfect, nevertheless, they will serve to guard against disaster and pitfalls with which the business is fraught. The theory of "the survival of the fittest" in which time will eliminate those that are inherently bad, offers no solution to the problem, and less consolation to the investing public because the trust is almost anywhere from 80 per cent to 100 per cent financed by the public. If it becomes top-heavy and is upset, the only victim that is crushed under its weight is the public. This department, maintained by the public, should at least make some diligent effort to protect it by means of some preventive measure. The only available preventive measure is regulation by and through which it hopes to keep the investment trust properly balanced.

What is the proper and appropriate balance? Well, one way of perhaps determining it is to prevent the repetition of the past and to profit by its experiences. Secrecy and concealment, the costly experience of the past, teaches us that it is not conducive to wholesale public financing. It follows then that everything that will tend to remove these elements will produce greater safety and bring about the proper balance. This regulation is the objective aimed at by the department.

It must be observed that in Great Britain the investment trusts have existed for more than half a century and behind them are the experiences, precedents and traditions inhering from every vicissitude of financial life. American proponents of investment trusts develop and emphasize the advantages of this financial organization and have pointed out that British investment trusts have virtually withstood the strain of war and even greater perhaps, the strain of the post-war condition. From this fact it is inferred that necessarily there must be great native or inherent strength in investment trusts.

Hardly is the comparison fair. The American trust since its inception has enjoyed unusual prosperity because that has been the order of the day for the entire nation. American trusts have been nurtured and reared almost entirely in a "bull" market, while the British trust has arrived at its adult strength through many varying experiences. It has been subjected to all kinds of conditions, meeting the test in each case, and it has become sufficiently tempered to overcome the effects.

Another difference that must not be overlooked is that the requirements and needs of an investment trust in Great Britain and America are entirely dissimilar because economic, sociological and political conditions of both countries are different and no doubt on that account the aspect and attitude of the investment public is different in relation to investment trusts; and the regard of the investment trust for the investing public, by the same reason, is different.

To introduce and use, therefore, the evidence of the experience and standing of the British investment trust, in the light of its accomplishments only, in the case of the American trust would be unjust. Each

must be tried upon its own record and stand upon its own merits. Otherwise, it would constitute a spurious substitution which would almost amount to improper representation.

One of the things that has distinguished the British trusts and has perpetuated their existence, no doubt is the fact that the British trusts have for many years past and do now publish a list of their holdings and there is no apparent claim on that account that that has in any way detracted from their success. It is, therefore, little wonder that after more than half a century they have become so entrenched and so stabilized that the British investing public is thoroughly familiar with the character and reputation of the institution. It is reported that a few of the British trusts attempted to discontinue the publication of their lists, but they met with a great storm of protest from both the British press and the public generally which resulted, to the credit of the press and the public, in abandoning the idea of discontinuing the publication of the holdings of the trusts.

"Window Dressing."

It is contended with much vigor that should investment trusts be compelled to publish their list they will be driven almost in desperate self-defense, much against their wish to say the least, to "window dress" their holdings. To "window dress" as the term implies is the street parlance for the practice of dressing the list for parade so that the list will show, among innumerable other items a few outstanding popular stocks. To that end the investment trust will buy a negligible amount of such securities for the purpose of appearances only and when the necessity no longer exists, dispose of them. The list published under these circumstances will display perhaps among a great number of questionable securities, a few good ones. It is self-evident that this method is calculated to mislead the stockholder or beneficial interest holder of the investment trust. In truth and in fact, in such case, the underlying stocks and bonds might be of a dubious nature and the reason of injecting a few items of high type which are temporarily held, is to make a surface appearance. It can not be said that such practice is very laudable and perhaps in that there is reason to warrant the regulation of investment trusts.

The fact is that there are a good many legitimate investment trusts of irreproachable character that would not resort to such practice but should there be others who can not resist the temptation of coloring their list it will become imperative to more closely scrutinize the contents of their portfolio.

"Window dressing," which consists of just a few good stocks among an unusual number of doubtful ones would be out of all proportion and unbalanced. It would appear so inartistic that we can not underestimate the intelligence of investors from discerning it. The surface display is rather thin and would be apparent to the naked eye. An attractive display is an invitation for examination. An examination will soon enough disclose that the merchandise is not per sample. Under those circumstances the purchaser will be put on notice. In this therefore, the publication of the list might operate as a protection to the investor. Can it be said in the premises that publication of the list, however published, is idle and meaningless?

We have heretofore advanced the thought that the list is properly a part of the financial statement. Should the list therefore be colored and misleading it will have a tendency not to reflect the true financial condition of the company. It would logically follow that the financial statement is colored and misleading. Under those circumstances the investment trust will expose itself to a most serious situation. Besides, if such financial report would constitute part of the literature and advertising of the investment trust, upon the same reasoning it would follow that the literature and advertising would be colorful and misleading with the same consequences.

In the final analysis "window dressing," under those circumstances, will be far more misleading to its perpetrators than it would be to the one contemplated to mislead.

Misuse of List by Rival Trust Constituting Unfair Competition.

The point has been developed that in the selling of the securities of two trusts of a general management type, one specializing in domestic securities while the other in foreign securities, a cunning and crafty salesman might misuse the lists of competitors in order to sell the securities he represents. To be more specific, a salesman selling securities in an investment trust specializing in domestic securities would depreciate the list of his competitors because it confines itself wholly or in part to foreign markets.

He might, under those circumstances, appeal to the passion and prejudice of prospective purchasers in order to close a sale. He might therefore resort to misrepresentation in placing his rival's security in a false light, while in truth and in fact it might be that the rival trust selling foreign securities had discovered better markets buying securities at less and selling for more to the great profit of its investors. Speculation of this kind, as to the possibilities of what a salesman would resort to, can be prolonged endlessly.

In the first place this is primarily an internal problem of very little interest to the public. Competition naturally creates a number of problems and every industry must find its own solution, but it has no relevant bearing upon the main issue of publishing the list inasmuch as the public is concerned. It is a resultant hazard that goes with the business. If the publication of the list intensifies competition, which we are unwilling to concede, it might ultimately rebound to the benefit of the purchaser of securities. If the securities are sold under false representation the law protects the purchaser by providing him with an ample remedy for redress.

In Conclusion.

We desire to point out that we are not undertaking to define, classify or differentiate investment trusts. We believe that is not within our province. Investment trusts, it must be admitted, are rather difficult to define with any degree of accuracy or precision; yet it seems, nevertheless, that a very clear conception of what constitutes and what is meant by the term "investment trust" is pretty well fixed in the minds of the investing public. Suffice it to say, for the present at any rate, that if it appears from the general structure and set-up of a proposed project that the funds derived from a public offering will be used in buying, selling and generally dealing in securities in the open market we feel

that under those circumstances, irrespective of its designation or appellation, it would fall within the compass of the contemplated rules applying to investment trusts.

To publish a list of securities is not an experimental innovation in America. Insurance companies are compelled to publish the lists of securities they are holding and it has evidently met with no disastrous result to the insurance companies or the insured. Insurance companies alone do not fall in this classification. Big business in some of the essential industries resort to the same practice. In the matter of publicity they even go further than the mere publication of assets and liabilities, they publish candidly and comprehensively a statement which reflects the many varying phases affecting their business without fear of competitors or rivals. A number of investment trusts here in America found it indeed profitable to publish a list of their holdings, notably among which is the Banc-italy. It isn't courage alone that motivated these corporations to publish a list of their holdings, but rather, we venture to say, the realization of the inherent justice to the purchasers of their securities to keep them fully advised at all times of the status of the trust. Too much stress can not be given to the underlying necessity that impels it.

Again it will bear reiterating that while investment trusts are capable of a great deal of good, they are also potent of an inestimable amount of harm because the element of speculation is one of the moving influences that predominates them.

Since then, investment trusts under the management of persons of dubious reputation and the unscrupulous readily respond to speculation it devolves, in a measure, upon the department to warn the investing public in this regard. It is incumbent upon investors to use utmost care in the selection of their investment trusts. Undoubtedly there are investment trusts in this country that are outstanding for their integrity and conservativeness and deserve recognition from investors seeking that type of investment.

While California is a fertile field for development, it stands out eminently, as can be verified by investment houses all over the country, as one of the most important investment centers of America. These rules are therefore intended to encourage sound, legitimate investment trusts; to protect the investing public of California against fraudulent manipulations and to eliminate an undesirable species of enterprises and those that are promoting them.

Hoping the discussion herein contained will shed some light upon the position of the department in relation to the rules and regulations recently promulgated by it, I am

Very sincerely yours,

J. M. FRIEDLANDER,
Commissioner of Corporations.

JMF:CE

Schedule 39.

SUGGESTED CONDITIONS FOR FINANCE, MORTGAGE AND RELATED COMPANIES

Companies should be capitalized at not less than $100,000. This should be an irreducible minimum.

Promotion ratio should be not more than 10 per cent of the proposed capital.

Commissions on stock sales should also be limited to 10 per cent, thus insuring at least an 80 per cent dollar for the company.

The promoter to invest not less than $25,000 personally, of which 40 per cent might be in cash, the balance in notes payable within six months.

That the company be required to accumulate $25,000 in cash before beginning business.

That the company be required to make quarterly financial reports to the department.

That the company be required to have a complete audit made annually of its affairs by a certified public accountant in public practice, approved by the department.

That the company be required to file a copy of said complete audit with the department, immediately upon its completion.

That the company be required to send a copy of its certified balance sheet and profit and loss statement for the preceding year to all stockholders at least two weeks before the annual meeting of the company.

If the company is authorized to issue investment certificates or savings certificates of any kind, that it be required thereafter to create a special permanent reserve by setting aside 10 per cent of the annual profits before payment of dividends, if any, until the reserve equals 25 per cent of the paid-in capital.

That the certificates be further safeguarded, in case of issue, by the creation of a trust fund consisting of sound securities equal in amount to 110 per cent of the withdrawal value of said certificates.

That the registrar and transfer agent conditions be imposed on all companies.

Schedule 40.

STATE CORPORATION DEPARTMENT OF THE STATE OF CALIFORNIA

IN THE MATTER OF THE APPLICATION OF CORONADO DEVELOPMENT COMPANY FOR A CERTIFICATE AUTHORIZING IT TO SELL AND ISSUE ITS SECURITIES.

FINDINGS OF FACT AND CONCLUSIONS OF LAW

The Commissioner of Corporations, having examined the application of Coronado Development Company and all of the papers filed in connection therewith, and having conducted such further investigation in the premises appearing to be required, now makes the following findings of fact:

Findings of Fact

I

That the applicant, Coronado Development Company, is a corporation duly organized under the laws of the state of Nevada, with an authorized capital stock of $3,000,000, divided into 100,000 shares of 8 per cent cumulative nonparticipating preferred, and 200,000 shares of common stock, each share having a par value of $10.

II

That the location of the principal place of business of the applicant corporation is 1146 North Center street, in the city of Reno, county of Washoe, state of Nevada; that the said principal place of business is maintained for the purpose of technically conforming with the laws of Nevada.

That all of the present organizers, promoters, officers, directors and stockholders, with the exception of the statutory secretary, reside in the city of Los Angeles, State of California.

That all of the business, assets and property now belonging to the applicant, the American corporation, and all of the property to be acquired, upon which all of the proposed improvements are to be erected as alleged in the application, are located in the municipality of Tia Juana, in the district of Lower California, in the Republic of Mexico.

III

That the applicant has acquired 99½ per cent of the capital stock of Cali-Juana Club del Coronado, a corporation organized and existing under the laws of the Republic of Mexico and frequently referred to by the applicant as "The Club," and that "The Club" holds certain concessions granted to it by the Republic of Mexico.

That the applicant, the American corporation, points out that the reason it acquired only 99½ per cent of the capital stock of "The Club," and not the entire 100 per cent, is because it is necessary that the balance of the stock, in technical conformity with Mexican jurisprudence, be held by Mexican citizens.

IV

The purported purpose of the "Club" is to provide entertainments and diversions for its members. It appears from the articles of incorporation of the Nevada corporation that the corporation can engage in almost every phase of commercial enterprise and can hold stock or memberships in any corporation of the state of Nevada, or of any territory or foreign country, but they are entirely silent in describing the field of endeavor that the "Club" is to engage in. The only other reference we have been able to find to the activities of the "Club" is in the "concession" granted to it by the Mexican government, in which the activities are described in paragraph five thereof as follows:

> "In the same Center, the following entertainments and amusements are hereby permitted: Chess, Billiards, Bowling Alleys, Bolos, Checkers, Dominoes, Brisca, Conquian, Ecarter, Malilla, Panguingui, Paco, Common Poker, Tute and Trecillo. These games shall be played according to the peculiar rulings of each of them

and combinations or modifications altering their ordinary nature are forbidden."

Summarizing it, the "Club" is to engage both in indoor and outdoor sports.

V

On investigation of this department it was disclosed that Lower California is not endowed with any more natural gifts and wealth than Upper California, better known as the State of California, within the United States. That the State of California lends itself just as readily to indoor and outdoor sports of science and skill all the year as aptly as the municipality of Tia Juana, in the district of Lower California. In this connection it might be competent to note that the "greens" of the golf courses in the State of California are just as colorful, just as thick, and just as long as those that are found in the municipality of Tia Juana, now owned or that will hereinafter be acquired by the "Club." Simultaneously, it might be also pointed out, which no doubt is of common knowledge, that the State of California has perhaps a greater abundance of modern and scientific facilities and equipment adaptable to every phase of life and luxury than those which may be found in the municipality of Tia Juana, and which so often are indispensable to the ease and comfort of the habitant, or even the casual visitor of a club.

VI

It has, therefore, under these circumstances, become a matter of inquiry and concern for this department, a public agency charged with protecting the investing public, as to the causes and purposes that actuated and inspired American citizens to conduct and operate an American club for American patronage in a foreign land immediately adjoining the international boundary line, particularly in view of the fact that the applicant, an American corporation, asks the American public to participate in the financing of its undertaking in Tia Juana.

It might be pointed out at this time that it is not ordinarily unusual to have American clubs in far and distant foreign lands for the use and benefit of Americans residing therein. Such clubs are evidently organized and maintained for the purpose of supplying social life that is characteristically American, of fostering and preserving American thought, tradition and patriotism, and for such other similar purposes as may be of common interest to Americans who are deprived temporarily, by reason of sojourning in foreign countries, of the advantages of contact with native institutions and with their fellow countrymen.

However, this situation does not hold true, nor does it exist in the instant case. The municipality of Tia Juana, in the District of Lower California, can hardly be regarded by the most fanciful imagination as a remote foreign land. Besides, it appears from the face of the application that the present members of the "Club" and those who hold 99½ per cent of all the right, title and interest in the Mexican corporation, are American citizens residing in the city of Los Angeles, in the State of California. It could hardly be conceived that they are subjected to the disadvantages of those living far from home, unless they are exiles. But since this country does not discriminate against race, color or creed, and guarantees political and religious freedom, as well

as freedom of speech and the press, the theory of exile must fall and be entirely discarded, unless those affected are fugitives from justice.

The reason and cause that prevail for an American club in a foreign country does not obtain for a similar organization in a neighboring town, although located in a foreign nation. The question why Tia Juana is the especially favored retreat and rendezvous for Americans still persists. The analogy of American clubs in foreign countries is neither convincing nor persuasive. It does not seem to either satisfactorily or adequately meet the test it is put to or solve the problem with which it is confronted. We are therefore constrained to seek further into the inquiry.

VII

Further light is shed upon the subject in an effort to ascertain the meaning of the word "club." The word "club" is placed in quotation marks because no precise or accurate description or definition is given of or to it in the application or in any of the other papers, files or records in the instant matter. The word "club," as here employed, appears rather equivocal and ambiguous as applied to the operation of this proposed project.

A club, in its accepted use, has certain fundamental and constituent elements by which it can be recognized. For instance, its general organization plan and its organic structure is contradistinguished from rules and regulations and by-laws which are mere details. The members are entitled to voice their opinion in the conduct of the organization; minutes are kept of the proceedings of the organization; members must qualify their admission into the organization by a well regulated and contemplated method, and a well regulated and contemplated method is resorted to in the expulsion of members. Members have a certain voice and vote in the dissolution and liquidation of the organization. They have certain property rights upon liquidation or dissolution, and should there be any property remaining after liquidation or dissolution, it is distributed share and share alike. Members have a right to elect the directors or trustees and the trustees elect officers, through and by whom the club functions. This orderly and systematic method of club function and organization expression is conspicuously and totally absent in the present case.

Quite on the contrary, it has been pointed out to the department by the applicant that:

> "A membership alone does not carry with it any right in the property."

and that—

> "It is merely a license upon the premises of the Mexican company."

Who then, if a member is only entitled to a license to enter upon the premises, has the right to conduct and operate the business that is being conducted upon the said premises? This is answered by the applicant in a communication to the department, dated November 22, 1927, which reads as follows:

> "There is also assigned by the Mexican corporation under resolution of its board of directors, to the Coronado Development Company, the exclusive right to issue and sell on such terms as the Coronado Development Company may determine and to persons

selected by it, rights of access to the premises of and privileges afforded by the Mexican Company, such rights to be known as club memberships under the designation of "Club Del Coronado," and to have and receive all moneys realized from the sale of such memberships. A membership alone does not carry with it any right in the property of the Mexican Company or of the Coronado Development Company. It is merely a license upon the premises of the Mexican Company. In order that holders of such memberships may participate in the profits realized from the operations of the Mexican Company and in the ownership of the stock of that company, it is proposed to sell with each membership that is sold as a participating membership ten (10) shares of the common stock of the Coronado Development Company at the price of $101 for each such unit and nondues-paying life membership privileges or license on the premises of the Mexican Company."

VIII

It is obvious that the applicant, the American corporation, is for all intents and purposes operating and controlling the management and policies of the "club." That it has the absolute right to acquire and dispose of all property, collect all the receipts and disburse all the expenses in connection with the business conducted upon the premises. If the corporate mantle of the Mexican "club" is stripped, there would be revealed an American enterprise conducted and operated by Americans for Americans at Tia Juana for the personal and private benefit and profit of the owners of the concession and that the so-called members have no voice or vote or say in any way in anything in connection with the club.

IX

Concluding as we have that the "club" is privately owned and privately operated for private gain, it becomes important to determine the nature and character of the concession. An examination of what is referred to by the applicant as the "concession" granted to it by the Mexican government, in the light of the foregoing, discloses the following situation:

Under the terms of the "concession" this American club is permitted to dispense, sell, dispose of, and traffic in any quantity of alcoholic liquors. We say "in any quantity" advisedly because nowhere in this "concession" could there be found any restriction or limitation upon the quantity. It further develops that the "concession" provides that, upon the premises of the "club," under the terms of the "concession," it is permitted to conduct games of chance and gambling in many of its alluring and fascinating phases for its members. This "concession" also extends the privilege and permits the "club" to conduct horse racing, with the attending gambling features. These are the apparent outstanding advantages which we are able to discover that members of an American club, composed of Americans residing in America, particularly in California, can indulge in and enjoy with ease and comfort and without molestation, by crossing the imaginary international boundary line into a neighboring city, which they can not indulge in as citizens and residents of America.

X

It is also made to appear from the application, files and papers in this matter that, should the license holder desire to participate in the tangible or intangible property and profits of the business, he must buy shares of capital stock in the corporation. The future profits to be derived by the organizers and promoters of this project can not, obviously, finance the project. To completely finance the said project the organizers and promoters look to the American public to initiate and support the undertaking.

The so-called "membership" is in the nature of an inducement, and the inference is perhaps permissible that the "membership" is an integral and an inseparable part of the stock and financial structure of this business.

Very likely there are fabulous profits to be made in gambling and in trafficking in alcoholic liquor if it can be conducted unmolested. It might present itself, and, no doubt, readily lends itself to representation, that the business of the applicant is a veritable El Dorado. Taking cognizance of human propensities and proclivities that are easily aroused and more susceptible to such temptation, it is evidently true that untold fortunes can be made in commercialized vice; provided, however, that the business is not subject to any contingencies and precarious conditions over which the management has no control and which potentially would threaten to destroy the money-making element.

XI

An examination of the so-called "concession" discloses the fact that this concession is subject to the will of the government of Mexico, that the government of Mexico could rescind, abrogate and revoke the concession at any time, and it is hardly believable that the American applicant or the American subscribers, stockholders or "members" would have any redress or could recover any damages under these circumstances against the government of Mexico. The prerogative of sovereignty is absolute in every country whether a republic or monarchy. The uncertainties, therefore, make this business especially hazardous to the stockholder or "member."

XII

It becomes apparent, therefore, that in truth and in fact the so-called "club" "membership," as we are able to extricate its meaning from the application, is nothing but fiction, a smoke screen and camouflage. And what is virtually bought and acquired, through the medium of the concession, artificially stimulated by fabulous profits of gambling, traffic in liquor and horse racing, is in reality a license from the owner of the premises to enter thereon upon such terms designated by him to which he refers as the "rules." The "membership" or license entitles the owner thereof only to the privilege to participate in the gambling, drinking and playing the horse races and, of course, should there be other amusements, to participate therein upon the same conditions. In other words, this enterprise, of which the most attractive feature is the "gambling, drinking and betting on horse races," is a privately owned, privately operated and privately maintained business and the only right which is acquired by one desirous of becoming a "member" is the

privilege to come on the premises and indulge in those amusements which have been legislated out of the United States, but which are licensed in Tia Juana.

XIII

The conclusion is inescapable and inevitable from the foregoing premises that the applicant seeks to finance a hazardous business which is outlawed in the United States and in all the states thereof, and has chosen to conduct and operate such business in Tia Juana because of the close proximity to and easy access across the boundary line from California. It also appears that the applicant desires to obtain American capital through and by and with the official sanction of this department by offering its securties to the American public to do something in a foreign country which by virtue of the laws of the United States, is prohibited in every state and territory of this country. This, we believe, is against public policy.

XIV

American opinion, as reflected in the American law and as construed by American courts, has strictly adhered to the construction that there is not and never has been an inherent guaranty or warrant in the organic law of the land condoning gambling and the traffic in alcoholic liquor. Legal, economic and social authorities are unanimous in supporting the opinion that liquor traffic and gambling at all times and at its best and long prior to the adoption of prohibition laws of any kind were conducted only at the tolerance and sufference of the government and the people that comprise it. The reason therefor was that these vices were at all times considered as a nuisance. Time and experience convinced the American public that it was more effective to treat this nuisance by penal regulation rather than by license.

XV

We are bound to presume that primarily the legal, social and economic structure of Mexico is based upon the same fundamentals and is just as sound as that of the United States except that it is smaller, younger and less experienced of self government than this country. It is therefore logical to assume that the laws of Mexico contemplate the traffic in alcoholic liquor and gambling as a nuisance, because in essence their conception and standard of right and wrong is the same as ours and that, therefore, socially and economically the traffic in liquor is treated as a vice the same as in this country. Only the Mexican government has not yet decided to treat such vice and such nuisance penally, particularly in border towns, the only places in Mexico that they are tolerated, but instead, perhaps by sheer necessity, continues to regulate this vice and nuisance by way of license on account of their possible revenue.

XVI

It is a gross impropriety to commit such objectionable acts in the home of our neighbor which we would not contenance in our own and for this reason it perhaps would be unpardonable, let alone discourteous, to commit a nuisance in Mexico, our neighbor nation, which is inhibited in this country both by constitutional and statutory pro-

vision. For the American public to finance a nuisance and perpetrate a vice in Mexico, approved by a governmental agency such as the State Corporation Department and which would not be countenanced in this state or country would not only violate every sense of propriety, every sense of well founded and sound convention, show common disrespect for our neighbor nation and do violence to the principles of courtesy between nations, but would undoubtedly lend itself to unpleasantness, friction and conflict. It is felt that the State Corporation Department by approving such issue would lend color to a contention that American capital intentionally is directed to do mischief in Mexico by engaging in an offensive project.

XVII

Besides, the operation and maintenance of such business in Mexico would result in an increasing police hazard to that country. Unquestionably Mexico regards the business of gambling and trafficking in alcoholic liquor as a police hazard. An examination of the "concession" shows conclusively that the business is treated by the government of Mexico as a police hazard. The impost of the government of Mexico upon the applicant is so high as to entirely discourage this sort of an enterprise. This is made to appear by paragraph 11 of the "concession." The government, by the terms of the "concession" levies a tax of 25 per cent of the net revenue. Undoubtedly the reason for such high governmental exaction is because it is rather an onerous police hazard than a benefit to the government of Mexico. It is obvious, in order to cope with the problem and the attending results that ensue from the business of the applicant, that a great deal of time, energy and money is required, which is no small charge upon the comparatively meager and slender means of the Mexican government, and this, therefore, plainly and clearly explains that, what would ordinarily be considered excessive taxation, is in reality only a reasonable charge of protection. We are also in no small measure mindful that Mexico regards this as a police hazard by reason of provision 10 in the said "concession," which by its terms prohibits more than 10 per cent of the total volume of bets as a house rake-off. We are further influenced by provision 10 of the said "concession" to believe that Mexico looks upon this undertaking as a police hazard in that it provides against side bets. That Mexico looks upon the problem as the United States does can be gathered from the eighth provision of the "concession" in prohibiting minors upon the premises. Further, the "concession" prohibits bolted and barricaded doors. The "concession" provides as well that the Mexican police officers have easy ingress to and egress from the premises and subjects the property to constant vigilance by providing that the premises shall always be open to the police as designated by them. The "concession" also stipulates the hours for opening and closing of the "club."

The Republic of Mexico has its own police problems as any other nation very likely has and it is eminently unjust, unfair and inequitable for American capital to increase and add to its police burdens. If gambling and traffic in alcoholic liquor and betting on horse racing are viewed in America as an impediment to social and economic progress, it seems unfair for American capital under the sanction of the Cor-

poration Department, all things being equal and assuming one country being as wholesome morally as another, to and by the same process obstruct and impede the progress in Mexico. Such impediments are universal and know no international boundary lines. It must be conceded that American capital might find many other and more lucrative and fertile fields of legitimate development in Mexico without intentionally promoting nuisances and vice and placing itself in the shadow of being misunderstood. If American capital can not be creative and productive it can at least refrain from being destructive and if it is bent upon being destructive, it needs not the sanction or approval or permit of the State Corporation Department of California.

XVIII

By reason of the fact that frequently border towns across the international line are infested with vice, it is therefore apparent that this increases in no small measure the burdens and problems of state, federal and municipal policing of those cities and states and similar troubles and perplexities of the federal government on the American side of the border. Observation, study and close contact with the problem shows convincingly that a city, state or country adjoining a border town in which vice is regulated by license, attracts a great criminal element, either to congregate there and become firmly entrenched, or else as transient vultures, constantly coming and going across the line.

Equally as well there should be taken into consideration a condition, which is a matter of common knowledge, that results from people crossing the border line under the influence of alcohol, and others who have lost their money in gambling houses and return ruined or desperate. The inference that these things reflect great harm and injury by reason thereof to the communities located adjacent to the international line is so forcible that there is no way of escaping it.

Under these circumstances the police systems of these communities must extend themselves and be enlarged to meet the increasing crime problems, which ultimately devolves as a charge upon the community, which must pay in life, limb and property by constantly being exposed to the dangers of visitors who are abandoned and reckless.

It is therefore against public policy to permit American capital in any way, directly or indirectly, to add to the police problems of any municipality, of the entire State of California, or of the federal government.

XIX

It is also a matter of common knowledge, which must be borne in mind, that when Americans can go to Tia Juana, which is located immediately across the boundary line, and indulge in those vices which are prohibited by statute in this country, it will no doubt have a tendency to undermine and defeat the laws that are attempted to be enforced in this state and country. It is quite apparent that if one could cross an imaginary line and do something one can not do in one's own country, that in itself would be conducive to a great deal of disrespect for the laws of that country, and the institution of law very likely would be regarded by the residents and citizens of the country as of no consequence. It will be, therefore, highly inconsistent for this

office, as a law enforcement agency of the State of California, to sanction an American enterprise, financed by American capital, which will have a tendency to undermine the very institution that created it.

XX

In the investigation conducted by this department we have endeavored to ascertain the attitude of financial, civic and commercial institutions toward a flotation of this kind from the standpoint as to whether it would constitute a just, fair and equitable security to be sold to the American investing public. The investigation disclosed that it was the unanimous opinion among financial, economic, commercial and civic groups that approval of such a project would create a vicious precedent comprising many elements which are pernicious to legitimate flotations and these groups are unalterably opposed to trading and dealing in such securities.

XXI

The department understands the principle of public policy to mean that constituted society has acquired, through the process of time and experience, certain basic conceptions of justice, fairness and equity which have evolved, grown up and developed to the extent and to the degree that it has become an innate balance of civilized life. It is a human conception of justice, fairness and equity which is far and beyond the susceptibility of definition and therefore does not take the form of either affirmative expression or definite and absolute inhibition in the entire body of law. It finds its source or warrant, however, not in the written precepts of society, but rather in a human sensibility of right that persists when all legal remedies are exhausted, when the entire legal field fails to render any redress and law precludes all opportunity of relief. Its function and operation have proved conducive to progress. It is so well recognized that it has become an integral part of human conduct without any specific enunciation in the statute books. It is in the nature of a self-consciousness, a sense which reflects the relative values of morals and ethics and which is generally accepted in the period in which it prevails as fundamental and having the tendency to conserve institution and ideals. It is a deep-rooted discernment of social justice recognized in law in the absence of positive statutory declaration. It is the weapon and instrumentality within the available reach of society to protect itself against anything that is inherently inimical to its welfare. It is a rule of necessity and expedience to prevent the obstruction of justice, the undermining of law and order, the contravention of established common interests of society. It is generally resorted to for the purpose of protecting society and those that constitute it when they are threatened by elements that are detrimental to public good. When public health, public morals, public welfare, confidence, the administration of law and the sense of security in government itself are endangered, when any project or enterprise becomes a charge upon the good conscience of society, or when it is a menace or injury or proves pernicious to the individual it is then construed to be against public policy.

XXII

The department is mindful that the principle must be rationally applied; that it is capable of a great deal of abuse; that it should only be resorted to with a great deal of discretion; that an inappropriate application might prove arbitrary, harsh and oppressive. It might be said at this time that the department only resorts to the use of this principle when it is constrained by sheer necessity and, in extreme cases, when it becomes obvious the public good is subserved thereby.

XXIII

In the instant case it is made to appear that the applicant is about to engage in a business:

1. That constitutes under the laws of this country a nuisance and vice;
2. That has been expressly made by constitutional and statutory provision a penal offense;
3. That is hazardous;
4. That contravenes a national sense of propriety;
5. That creates a police hazard in a neighboring nation;
6. That creates a police hazard for the State of California, as well as for the cities that comprise it;
7. That would have a tendency to undermine and defeat the provisions of the Constitution of the United States, statutes of the State of California, and the city ordinances of the various cities in the State of California.

The department is therefore constrained in the premises to find in the light of the foregoing discussion that this business, proposed to be financed by American capital through a permit of the State Corporation Department of the State of California, is against public policy.

These findings of fact are made and based upon the entire file and all documents, facts and representations made to the State Corporation Department of the State of California and the same are hereby incorporated herein by reference with the same force and effect as if herein set out and repeated at length.

Conclusions of Law

From the foregoing facts and discussion the Commissioner concludes that the application of the Cononado Development Company for a permit and certificate authorizing it to sell and issue its securities should be denied and refused upon the ground that the business proposed to be engaged in by applicant is unfair, unjust and inequitable and against public policy.

That a copy of these findings of fact and conclusions of law be forwarded to the applicant and it be notified of such decision in writing.

J. M. Friedlander,
Commissioner of Corporations.

Schedule 41.

COPY

Los Angeles, California,
September 19, 1928.

California Development Association,
c/o Leob, Walker & Loeb,
Pacific Mutual Building,
Los Angeles, California.

Attention, Mr. Edwin J. Loeb

Gentlemen:

I have had under consideration for several months your letter in which, on behalf of California Development Association, you requested an expression from this department upon its future attitude regarding earthquake insurance. The reason the reply was retarded, I assure you, was not due to the fact that it did not merit an early reply; quite on the contrary, I consider the question one of the most important that has been submitted to the department since my incumbency began. I feel, however, that the matter should be treated carefully and studiously from many of the angles that we felt were involved. I am persuaded to think that you will agree with me that in order to do justice to a very comprehensive survey of the subject upon which an intelligent opinion can be founded, it takes a measurable amount of time. This, together with the customary rush and pressure of business of an office as active as the Corporation Department of the State of California, was responsible for the unusual delay.

Attitude of the Department on Earthquake Insurance in the Past.

The matter of earthquake insurance, particularly as has been required in the past by this department in building bond issues, is creating no small amount of concern among builders and underwriters at the present time. Heretofore disaster insurance presented no difficult problem because the premiums thereon were reasonably rational. Recently, however, the insurance companies writing such insurance, apparently without basis or good cause or reason, increased the premium rates of such insurance, thereby creating a difficult and serious situation, not only directly affecting the matter of construction issues, but seemingly having a tendency to make far-reaching inroads in the progress and welfare of the state.

Reason for Increase in Premiums on Earthquake Insurance.

The proximate cause of exorbitant rates of earthquake insurance is perhaps traceable to predictions by certain scientists that Southern California will experience, sometime within the next ten years, an appreciable earthquake disturbance. These observations are especially attributed to Professor Bailey Willis of Stanford University, a well known authority on geology. These prophecies were evidently accepted by the insurance companies as facts, and given by them an alarming and morbid interpretation, immediately resulting in an increase of earthquake insurance rates from 200 to more than 1000 per cent of the prevailing current rates. The result of such action on the part of the insurance companies has precipitated burdens and fears that are self-evident and unfounded and which I need not dwell upon.

Matters to be Considered by Department to Determine Policy Applying to Requirements on Earthquake Insurance.

In the past it has been the policy of this department to require ample earthquake insurance on all bond issues. I am reliably advised that the department sometimes required as much as 90 per cent of earthquake coverage. My predecessors left no data as to what actuated them in formulating such requirements and the whole question of earthquake insurance rates, in the light of recent events, presents itself, therefore, in a most forceful way. At the same time I am constrained to say that I am keenly sensible of the results that will follow or what might confront the state if the department continues to enforce a policy of requiring 90 per cent coverage against earthquake loss.

Consequently, the subject of earthquake insurance, I feel, must not only be regarded from the standpoint as to what would be conducive to the greatest welfare of California, but at the same time an endeavor must be made to construe it so as, in this instance, to give full force and effect to the Corporate Securities Act in so far as it would be consonant and in harmony with the progress of the State of California.

Further, we are mindful and to no small degree influenced by the fact that if insurance companies unnecessarily and unreasonably increase the charge on earthquake insurance and the department continues to require large coverage, this department created and maintained to render a constructive service to the people of the State of California would be diverted in this respect from its original objective and lend itself very actively to a pernicious process of aiding and abetting the insurance companies in making structural bond issues floated in California almost prohibitive. To compel, by hard and fast regulation of this department, an unreasonable maximum earthquake coverage would obviously result in such oppressive charge upon contemplated projects that reasonable and legitimate returns would not and could not justify it and bear up under it.

I believe if the department resorted to such practice in connection with earthquake insurance it would affect practically every community in the state because a community, in final analysis can not and must not remain stationary. It must grow and continue to grow; and in order to grow and continue to grow it must build and continue to build; otherwise it would become immobile and retrogress. When a community remains inactive and its inactivity is permitted and tolerated, it inevitably stagnates. This is a self-evident truth. History and experience convincingly persuades us to accept this theorem as proven to a demonstration. A community must, therefore, depend for life and sustenance upon progressive enterprises. Progressive enterprises to be effective and to reach their objective indispensably need momentum in order to keep in stride with progress. The power and force that generates this momentum comes from sympathy, encouragement and cooperation. The very spirit of the law compels that sort of construction and it is, therefore, with that frame of mind that we construe the Corporate Securities Act in relation to the subject under discussion.

The question you submitted to us, therefore, as to whether or not the department is going to continue to require the amount of earthquake insurance as it did in the past, is a very timely and highly pertinent

one. To adhere to former policies or to evolve new ones largely depends upon the evidence before us.

Process of Reasoning Resorted to in the Consideration of This Question.

The proximate cause of the increase of earthquake insurance rates is due to a prediction. Irrespective as to who made the prediction, the fact remains that the prediction must stand upon its own merits and the insurance companies who were quick to take advantage of it must stand in its reflected light.

It is attempted to justify these predictions and prophecies upon scientific grounds. We endeavored to investigate and analyze all the scientific data available for the purpose of ascertaining whether the evidence is sufficient to be depended upon with any considerable amount of weight and credence.

It is perhaps well to stress at this time that we view the subject from a lay rather than a technical standpoint. We make no claim for any exhaustive study of seismology or geology, but we have earnestly applied ourselves in an effort to reconcile the information that was submitted to us upon a reasonable and logical basis from which deduction and inference could be drawn consistent with human understanding.

In the examination of the evidence before us we have endeavored to resort to a method and process of reasoning which confines itself to the determination of pertinent and competent evidentiary material. Upon this basis we were constrained to reject fanciful, doubtful and speculative evidence. We tried to detach prejudice and isolated personal interest, if any, from reason. We have marshalled and utilized only such evidence which meets substantially the ordinary probative test.

Question of Expectancy of Severe Earthquakes Is Mooted Because of the Divergence of Opinion Among Scientists.

That there are earthquakes in California is not disputed. As a matter of fact, history is replete with satisfactory evidence that there is no spot on the face of the earth that is entirely free from earthquakes. It should not be overlooked that California is not the only area in the United States, or elsewhere, that is visited by earthquakes. We have authentic evidence almost daily that earthquakes of more or less severity are being recorded in all parts of the nation, and the world. Only recently there have been earthquakes reported in various places upon the Eastern Seaboard, Middle West and Pacific Northwest, as well as in southern California. It is, however, seriously disputed that an earthquake of great intensity and of large magnitude may affect Los Angeles any time within what might be comparatively termed "the near future."

The divergence of opinion upon the probability of a serious earthquake in southern California is so obvious and so decided among the authorities that they almost are diametrically opposed to each other to the extent that it throws the entire subject in the shadow of doubt. In such event doubt must be dissolved, as between normal and abnormal, in favor of the normal.

When eminent geologists and seismologists disagree upon theory and proof of earthquake expectancy in southern California, the preponderance of evidence must therefore predominate in favor of the contention

that California will continue in her uninterrupted physical normalcy. The premise for such reasoning consists of the fact that within the memory of living man there is direct and personal knowledge that southern California has not suffered from any disturbance which would give anyone much serious concern. Besides, it is supported, in the absence of substantial evidence to the contrary, by the presumption "that a thing once proved to exist continues as long as is usual with things of that nature." The validity of this presumption has been tried by time and experience and found to meet the test.

Historical and Traditional Data Pertaining to Earthquakes in Southern California.

The proponents of the theory that a severe earthquake is expected in southern California, urge that while there is no immediate evidence, nevertheless there are reports that have come down from past generations to the effect that such earthquake did occur. While it is conceded that earthquakes of comparatively minor importance did occur in southern California, the opinion among scientists seems to be at great variance as to the nature and character of the intensity and magnitude of such earthquakes. There seems to be a great deal of conflict among the scientists in interpreting and construing the reports and data concerning earthquakes in southern California.

Since there is an appreciable discrepancy between scientists who have studied and considered the evidence on the matter of earthquakes in southern California, it would be reasonable to infer, therefore, that the evidence that exists beyond the testimony of living man must assume the character of speculation and must be considered of a doubtful value.

It is comparatively in recent years that the seismic "habits" of California have been under close scientific observation. Whether the geological formation of California is "addicted" to violent seismicity can not be established with any degree of positiveness based upon the available evidence thus far produced by scientists.

Hardly can we determine temper or disposition by a single manifestation or a single recurrence of the same manifestation. A series of successive repetitions over a long and uninterrupted period of time is the only determining factor. To say that because two or even three earthquakes occurred in a given territory in the past 150 years, such fact in itself and standing alone would give a particular territory an irrevocable reputation for having acquired an intense earthquake habit is rather inconsistent. It is particularly inconsistent in view of acknowledged thought that the time element, according to computations of scientific men, in relation to the evolution of the earth, is so vast and extensive that its growth and development is hardly perceptible to the naked eye. It seems, therefore, probable in the light of the history that has been compiled in the past, that there is a noticeable lack of sufficient evidence that California has acquired any seismic "habit" of a violent nature.

Prior to 1867 the evidence upon the subject is concededly meager and fragmentary. There are some accounts that have come down to us from the early Spaniards who settled in this country. Our progenitors in this part of the country were proud and their language possessed a great wealth of profusion of which they generously availed themselves. Besides, the ordinary conception of earthquakes in that period was that

it was an act of God, intended to visit divine punishment upon the wicked. The narratives of our predecessors, therefore, can hardly be regarded as the best evidence upon which to determine this serious issue.

In a very illuminating and interesting report, A. E. Sedgwick, professor of geology of the University of Southern California, in discussing the authenticity of early records, says:

> "A close study of the history of the earthquakes since 1769 gives reason to doubt that more than one disastrous earthquake ever visited the city of Los Angeles during this period and that probably not more than three occurred in San Diego and Santa Barbara. The scant history of the early days tells of the terror among the Indians and the members of the Portola Expedition, encamped in the vicinity of Santa Ana, caused by a great earthquake in 1769. The members of the Portola Expedition experienced a number of after shocks during the following week as they marched northward to the Santa Monica Hills. Those reports are evidence of a very heavy shock but they are not proof that the shock was of sufficient intensity to cause great disaster to a large city like Los Angeles if it had existed upon its present site.
>
> "In the fall of 1812 the mission at Purissima was destroyed, together with the missions of Santa Inez, Santa Barbara and San Juan Capistrano. The missions at Santa Buenaventura, San Fernando and San Gabriel were seriously damaged.
>
> "The city of Los Angeles lies upon a line between Purissima and San Juan Capistrano and not far distant from the missions of San Fernando and San Gabriel. It is quite evident that Los Angeles suffered a severe shock at that time, but again there is no definite proof that the shock was of sufficient intensity to cause great disaster in the city if it had existed upon its present location."

Again Professor Sedgwick emphasizes the lack of conclusive proof of disastrous earthquakes in Los Angeles when he says:

> "Two of the shocks (1769 and 1812) reported as having disastrous intensities in the Los Angeles Basin may not have attained such severity. The records are not conclusive."

Besides, there is no evidence that the early history of the earthquakes of California was in any way suppressed to the extent that it was not available to the insurance companies before they raised their rates on earthquake insurance. It is reasonable to believe that the insurance companies were fully conversant with all the historical records but apparently placed no importance upon them. Very likely, the reason therefor being that the proof of serious earthquakes in California were so meager that it would not justify a raise in rates.

It must also be pointed out that the earthquakes subsequent to 1857 that occurred in southern California were also known to the insurance companies long before the recent change in rates, and they undoubtedly felt, like most people who live in this area, that it was not a disturbing factor. The extraordinary growth of California since 1857 might have a tendency to establish the fact that there are no great destructive dangers lurking in the under strata of some of the most progressive and prosperous communities in the world.

Value of Geology in Relation to the Determination of Earthquakes.

The development of geology has not by far reached that point of perfection that it can be relied upon with any great amount of accurateness. Geology still deals with phenomena, not with formulas. While formulas can be depended upon because all the elements are known and the results are precise, phenomena, on the other hand, are incomprehensible and beyond conception. In late years geology, the study of the history of the earth, has made remarkable progress but has not yet succeeded in reducing the phenomena of earthquakes to the exact causes that constitute them. Therefore, there is no scientific warrant to forecast the intensity, frequency and magnitude of an earthquake. Scientifically, geology renders very little service on this point on account of its inadequacy to determine the earthquake characteristics of California, and much less can we depend upon it for any evidence upon which a basic conclusion can be formulated.

Value of Seismology in Relation to the Determination of Earthquakes.

Seismology, the science which deals with earthquakes, is of more recent origin and is yet in an embryonic stage, though it promises to reveal great vistas of knowledge. There are some very intelligent experiments now being conducted which are constantly producing new inventions, and those who are conducting the various experiments are men of the greatest learning, highest competency and conscientiously devoted to its study. It might be possible that in the future certain devices will be conceived which will, no doubt, shed a great light upon various movements of the earth, the inertia of earth stresses, the velocity of its various forces and the general process of its developments, all of which will enable us to determine certain weights and measurements of strata and the material they contain, which has heretofore been unknown. That, however, is for the future. We must confine ourselves to the tangible evidence before us, and in this neither geology nor seismology could be utilized with any degree of certainty to determine whether California is a district addicted to any disastrous seismic habits.

That being assumed, it will follow that much less can they be depended upon to determine at what intervals an earthquake will occur, or when these intervals will eventuate, or at what particular point the earthquake will focus. Not having such evidence before us it is reasonable to conclude that the earthquakes that have occurred in California were rather sporadic, and in that respect we are as equally exposed to such revolutionary eruptions here as anywhere else and there is no more reason to anticipate an earthquake here under those circumstances than anywhere else.

The earth, being a living body, is constantly undergoing development. In its development it manifests constant changes and growth. The topography of the coastal region of California indicates earth movements which show that all along the coast there is a continual process of adjustment.

Professor Sedgwick, referring to the coastal region of California, says:

> "The coastal region of California is traversed by many recent faults with undeniable evidence of recent displacement.

"The youthful topography, drowned valleys, raised shore lines and the geologically recent fault blocks, some raised (horsts) and some depressed (grabens), together with many other indications lead at once to the conclusion that the coastal area is continually undergoing adjustment and that the more prominent fault lines have been and will be the loci of the greatest amount of movement."

These movements have been studied by the U. S. Coast and Geodetic Survey.

Scientific Evidence Before Us.

In 1924 the triangulation points along the San Andreas Fault were under observation by the U. S. Coast and Geodetic Survey, particularly those located at and about Gaviote Peak and a report of the survey stated that Gaviote Peak had moved 24 feet north in thirty years. Immediately this attracted considerable attention and the report was made the basis for predictions. It has been argued that earth movements of this magnitude have accumulated a strain sufficient to indicate that relief is imminent and that the release would produce an earthquake of major importance, while as a matter of fact the U. S. Coast and Geodetic Survey in 1926, in a readjustment of the triangulation points along the San Andreas Fault determined that the peak did not move north but south and did not move 24 feet but only 5 feet. This serious discrepancy is conclusive of the fact that there is not sufficient strain produced by earth movements to result in a breaking point and on that account all the evidence upon which an earthquake prediction is based must be entirely rejected.

The Apparent Reasons for Changes in Earthquake Insurance.

A very enlightening analysis as to the whys and wherefores for the changes in earthquake insurance is made by Professor Sedgwick in the report I have previously referred to. It is so very plausibly set out, that for fear a resume of his exposition might cause some ambiguities, I am herewith setting it out in full.

"Schedules for earthquake insurance are the business of expert insurance men and not of geologists and seismologists. Seismologists can be of great service, however, where the relative seismicity of districts is reflected in the insurance rates. Table VI gives the comparative rates for various classes of buildings in California up to the present.

"An inspection of the schedule shows that it has been changed from time to time without real understanding of the risk involved. From July, 1925, to May, 1928, the rates on Class I were raised from 35 cents to 80 cents per hundred, an increase of approximately 308 per cent; the rates on Class II for the same period were increased 400 per cent; the rates on Class III for the same period were increased 600 per cent; the rates on frame buildings over 400 square feet in Class IV were raised approximately 1347 per cent; while the rates on tile, concrete block and adobe buildings were raised the same amount.

"From May 3, 1928, to May 24, 1928, the rates on small buildings of Class I were reduced 400 per cent; the rates on Class II were reduced 100 per cent; the rates on Class III were reduced 375

per cent; the rates on frame structures over 400 square feet in Class IV were reduced 700 per cent, while the rate on tile, concrete and adobe buildings remained the same.

"It is very apparent from Table V that there is a great difference in the relative seismicity of different districts in the state, still the rates for the San Francisco Bay region are the same as the rates for Los Angeles and San Diego. This, obviously, is unfair.

"Some policies carry a deductible clause as high as 10 per cent. This means that a building insured for $1,000,000 under the 10 per cent deductible clause must be damaged to the extent of $100,000 before the insurance company incurs any liability, the damage up to $100,000 being entirely to the account of the owner. Recently the mandatory percentage deductions applying to certain classes have been reduced from 10 per cent to 5 per cent.

"On account of an unfortunate state of mind corporations and individuals able to loan money for building purposes insist on heavy earthquake insurance. Therefore, the owner of the building is obliged to take out insurance or not build. With the 10 per cent deductible clause in force the owner is actually required to pay a premium to the insurance company without receiving protection, because the possibilities of the occurrence of an earthquake with sufficient intensity to destroy a well constructed concrete or steel building, designed to resist earthquake stresses, are almost nil in the light of the history of California and particularly in Los Angeles. It is very doubtful if an earthquake with the intensity of the one which occurred in 1857 would cause anything like $100,000 damage to a well-constructed million-dollar steel building.

"The deductible clause in a policy has a definite purpose. It makes the owner more careful of minor details in the construction of his building and relieves the insurance company of the annoyance arising from minor losses, such as fallen plaster or broken windows which may be due to shocks of moderate intensity.

"A 3 per cent maximum deductible clause graduated in proportion to the amount of the policy would answer this purpose, but a 10 per cent deductible clause on large steel or concrete buildings is unreasonable.

"The records of the San Francisco Bay region show that fifteen earthquakes with intensities of 9 to 10 have occurred during the last 159 years, or, approximately, one for every decade. In spite of the record there has been but one disaster during the last 75 years, and by far the greater proportion of damage at that time was due to fire and not to the earthquake. Consequently, the records are not an accurate measure of the risk involved, but indicate only that there is a risk.

"An attempt has been made to differentiate the rates over the state by dividing the state into zones. Factors other than seismicity must enter into the method of zoning, because the seismicity of the counties included in any zone varies greatly. (See Plate V.)

"The following extract from the tariff rules of the Board of Fire Underwriters of the Pacific, corrected to May 10, 1928, gives the districts included in the different zones.

ZONE 1

The counties of Alameda, Contra Costa, Del Norte, Humboldt, Inyo, Kern, Lake, Lassen, Los Angeles, Marin, Mendocino, Modoc, Mono, Monterey, Napa, Orange, Plumas, San Benito, San Diego, San Francisco, San Luis Obispo, San Mateo, Santa Barbara, Santa Clara, Santa Cruz, Solano, Sonoma, Trinity, Ventura; the state of Montana and the territory of Alaska.

ZONE 2

The state of Nevada and the counties of Alpine, Amador, Butte, Calaveras, Colusa, El Dorado, Fresno, Glenn, Kings, Madera, Mariposa, Merced, Nevada, Placer, Sacramento, San Joaquin, Shasta, Siskiyou, Stanislaus, Sutter, Tehama, Tulare, Tuolumne, Yolo and Yuba in California.

ZONE 3

Imperial County.

ZONE 4

The counties of Riverside and San Bernardino.

The schedule given in Table V applies to Zone 1.

"No record is available showing any considerable loss to insurance companies arising from damage due to earthquakes in the city of Los Angeles proper. At the same time enormous sums have been spent in premiums for earthquake insurance with deductible clauses, which, in effect, do not insure under the conditions.

"The premium should be made more nearly commensurate with the premium for other types of insurance.

"The Pacific Insurance Chart shows that $2,855,795 were paid in premiums for earthquake insurance in California in 1927. The total losses paid during the same period were $320,429.

"The figures shown in the Pacific Insurance Chart vary a little from the records in the Insurance Commissioner's office. These records indicate that the total premiums paid in California during 1927 for earthquake insurance were $2,903,279.83 and that the losses paid during this time were $362,306.71, but that the losses incurred during this period were $339,786.70, the discrepancy between the losses paid and the losses incurred being explained by adjustments carried over from the previous year (private correspondence).

"No information is available showing the amount of earthquake insurance carried in California in 1927, and opinions vary greatly as to how an estimate of the total liability may be obtained. The average price paid during 1927 was about 50 cents per $100. This would place the total earthquake insurance carried in California for 1927 at approximately $580,000,000. This estimate is not exact; it may be a little high or a little low, nevertheless it shows that the people of California are involved in a business pertinent to the development of the state with a capital risk of over half a billion dollars and with no voice in the schedule of rates. A business of this magnitude and importance certainly justifies thoughtful and competent consideration.

"The premiums paid for earthquake protection are not commensurate with the losses incurred by the insurance companies, particularly when compared with the premiums paid and the losses incurred by the same companies in other lines of insurance.

"The premiums for fire insurance for 1927 amount to $9,553,643; the losses paid were $3,998,853. The losses amount to 41.8 per cent of the premiums paid for fire insurance, while the losses for earthquake insurance are but 11.7 per cent of the premiums paid.

"The following table shows the premiums paid and the losses incurred for several lines of insurance and compares the percentage of the losses incurred with the premiums paid:

Comparative Table of the Ratio of Losses Incurred to Premiums Paid for Various Lines of Insurance in California During 1927.

Type of insurance	*Premiums paid*	*Losses incurred*	*Ratio of losses incurred to premiums paid*
Earthquake	$2,903,279 83	$339,786 70	11.7%
Fire	9,553,643 00	3,998,853 00	41.8%
Automobile	41,481,578 00	20,168,952 00	48.6%
Marine	7,261,423 00	3,952,808 00	54.4%
Tornado	21,565 00	21,910 00	101.6%

"The table shows that the ratio of the premiums paid to the losses incurred is from 400 to 500 per cent greater for earthquake insurance than for other types of insurance and indicates that some adjustment of rates is due the people of California for earthquake insurance.

"In spite of this discrepancy the burden is increased by the application of the 10 per cent deductible clause in many cases. Certainly there is justification for an investigation of the rates.

"The best estimates indicate that about 95 per cent of the earthquake insurance carried in the United States is written in California. The amount of policies is about equally divided between the bay region and the Los Angeles basin.

"It is quite possible that the insurance companies do not like to have this enormous risk, representing 95 per cent of their business for this class of insurance, placed in one state, and that the increased rates not only are the result of an unjustified fear of earthquakes but arise from a desire to spread the risk more evenly over the rest of the United States."

The deduction from this analysis seems to be obvious. The large amount of insurance, the great demand for it, is the reason for the high rate. It seems hard to reconcile the fact that on the one hand California is being penalized by earthquake insurance companies by inflicting upon the insured exorbitant rates on account of the large amount of earthquake insurance carried in California by building owners, while on the other hand eastern insurance companies and other financial houses are continually sending millions of dollars to California to make loans on California improved real estate, scarcely insisting upon earthquake insurance.

The Attitude of Finance Toward Earthquake Insurance.

I have gone to a great length in obtaining opinions from finance underwriters and mortgagees upon the question of earthquake insurance. A great many bond houses, bond underwriters and banks, as well as engineers and architects, have been consulted upon the question. There seems to be an emphasized unanimity of opinion among all those who have been consulted that scarcely any earthquake insurance is at all necessary, particularly in the instance where a building is properly constructed and engineering safeguards have been taken so that it might resist and withstand heavy earthquake shocks.

There seems to exist no alarming amount of anxiety, investigation of the office disclosures, among financiers, building contractors, engineers and architects concerning a disastrous earthquake in California. Quite on the contrary, they seem to entirely discount all prophecies and predictions concerning such disasters. It is claimed by those who have the right to speak with authority on the subject, that these prophecies and predictions are unfounded exaggerations, particularly inasmuch as it concerns or affects or in any way applies to Class A construction. I must stress, at this point, that I am confining my entire discussion of the subject to this class, kind and character of building, because almost all bond issues of any magnitude are floated on Class A construction buildings.

An Undisputed Solution of the Problem.

The solution of the problem of earthquake risk that might result from a serious earthquake disturbance lies wholly in the matter of construction. Because your organization exercises a great influence upon the development of the State of California, I am glad to have this opportunity to emphasize at this time that all the authorities agree that a more conscientious regard be given to the construction of buildings.

In this connection it might be significant to point out that Professor Bailey Willis, in an interview concerning earthquake possibilities, says that Los Angeles and Santa Barbara are not in extreme danger of an anticipated shock, but is rather more concerned with the matter of construction.

Quoting Professor Willis:

> "If that earthquake should repeat itself the probability is that the great centers of population would receive only a moderate shock as compared with the intense violence, and if Los Angeles were properly built I wouldn't feel much anxiety. The historic fact is that in 1852 Santa Barbara had a severe shock like that of 1925 which destroyed the mission and did a great deal of damage. In 1857 came the great general shock which did not do as much damage in Santa Barbara as the one in 1852. The 1852 shock was a local shock; the big shock was some forty miles away in the center and didn't do so much damage. So that Santa Barbara and Los Angeles are not in extreme danger of this anticipated shock, but in view of construction that prevails they are in some danger."

Let me further cite from the same interview the following portion:

> "Mr. Friedlander: Is it absolutely possible to build so that an earthquake could be resisted?

"Dr. Willis: The Tokyo earthquake was as severe a shock as we need to fear, and I saw six buildings in Tokyo designed and put up by a Japanese architect who had been trained in America, which had not suffered from the earthquake because he took account of lateral stresses and provided for them."

Therefore, the inescapable conclusion follows that in considering bond applications on Class A buildings where the land is held in fee, this department will not require earthquake insurance as a provision in the bond permit. The fee, under those circumstances, would constitute ample security for the protection of bondholders in the event of any damage.

We are not justified in anticipating as a plausible inference from this premise, a disaster that would destroy a building of this kind, to the extent that it would make the realty upon which the building is constructed valueless.

As to other classes of risk in this field of insurance, the department will be guided accordingly along the same lines here discussed. If earthquake insurance is absolutely necessary in any matter submitted for our consideration, in that event the department will not require more than the minimum of said insurance for the purpose of insuring a reasonable margin of safety against loss and damage that would probably result from an earthquake. That will further depend, however, upon the facts and circumstances of each separate case, taking into consideration the many pertinent elements that generally present themselves under such circumstances.

I am forwarding herewith a copy of Professor Sedgwick's report for your examination. I believe you will find it one of the most interesting and able documents upon the subject. Professor Sedgwick has taken a great deal of time and energy and expended a great deal of money in the compilation of this report. The tables and plates attached to this report are the result of a great deal of indefatigable effort and it has been brought down to date. I hardly think you will find anything like it, either in this form or as recent. The department is greatly indebted to Professor Sedgwick and in no small amount to Mr. Walter Gordon Clark, whom we have frequently consulted upon the subject.

I would ask you to return the report to me because I desire to send it to the Governor in the event there is any legislation contemplated upon the subject.

I sincerely hope that the discussion herein contained will be some benefit to the organization and that, in a manner, it answers the question you propounded to the department.

With kindest regards, I am

Sincerely yours,

J. M. Friedlander,
Commissioner of Corporations.

LETTER OF TRANSMITTAL.

STATE OF CALIFORNIA,
OFFICE OF THE BUILDING AND LOAN COMMISSIONER,
SAN FRANCISCO.

To His Excellency, C. C. YOUNG,
Governor of California,
Sacramento, California.

SIR: In compliance with section 5 of the Building and Loan Commission Act, I have the honor to submit for your consideration the thirty-fourth annual report of this department, setting forth the operations and condition of the building and loan associations of California under my supervision, as reported by the associations during the seventy-eighth fiscal year of the state, ending June 30, 1927.

Respectfully submitted.

GEO. S. WALKER,
Building and Loan Commissioner.

REPORT

OF THE

BUREAU OF BUILDING AND LOAN SUPERVISION

Office of the Building and Loan Commissioner.
San Francisco, September 21, 1927.

To His Excellency, C. C. YOUNG,
Governor of California.

SIR: Pursuant to the requirements of section 5 of the Building and Loan Commission Act, I have the honor to submit the thirty-fourth annual report of this department, relating to the condition of the associations under its supervision for the fiscal year ended June 30, 1927.

The indications now are that building and loan associations are rapidly becoming better understood by the public in general and henceforth will be quite universally accorded the respect and confidence to which, by their past and present record, they are so justly entitled.

The increase in the volume of business, with its attendant increase in assets during the past year has been unprecedented in the history of the state and this, coupled with the recognized stability of the associations in question, has finally brought about a feeling of confidence in the public mind heretofore enjoyed by but few financial institutions.

The number of associations on the active list has been increased from 176 to 202 while the assets have increased from $190,106,988 to $241,796,747 or an increase of $51,689,759 over the assets as of June 30, 1926. This tabulation does not take into consideration 11 new associations, in operation less than six months, with combined assets in excess of $1,000,000.

During the past year a number of changes have been made in the building and loan laws, all of which will be found in this report. These changes have all been in line with the requirements of the times and will, no doubt, be of great benefit to the investing public as well as to the associations.

For the first time in the history of the state a few branch licenses have been issued; in every case, however, the license has been issued because of the purchase of the assets of an association by another. In this regard it may be well to state that this department will not encourage the establishment of branch associations, but will, permit the same whenever a weak association will be benefited by a consolidation with a stronger one.

The great increase of the assets of our associations has introduced new problems, one of which is the danger of large withdrawals. Unfortunately, many associations in the past have advertised that money might be withdrawn at will by the investor, and the public has come to expect it.

The impossibility of a large association paying over the counter on demand and at the same time keeping enough of its funds loaned out

to earn the customary 6 per cent on all its capital is apparent to all thinking people. Either our associations must keep a large amount of idle surplus capital on hand supplemented by investments in liquid bonds, or demand of the investor the filing by him of a 30-day notice of his intention to withdraw. This feature of the business was thought so important that the following order and recommendation was sent to each association in the state:

> "It has come to the attention of this department that a large percentage of the associations have, in the past, been ignoring the specific provisions of section 642 of the Civil Code, which reads, in part, as follows:
>
> 'A stockholder or investor, desiring to withdraw from any such corporation or to surrender a part or all of his stock or investment certificate, may do so by giving thirty days' notice, in writing, of his intention or desire so to do,' * * *
>
> "Not only has the above provision of section 642 of the Civil Code been entirely ignored by many associations, but a few insist on advertising that 'money may be withdrawn at any time.'
>
> "Now, therefore, for the better protection of the associations and of their shareholders, members and investors, it is the order of this Department that all associations shall immediately cease advertising either through newspapers, periodicals, circulars or otherwise that invested funds may be 'withdrawn on demand,' or 'at any time,' or such other expressions indicating the withdrawal of funds at will. A second offense will be deemed sufficient for the revocation of the license of an offending corporation.
>
> "This Department also strongly recommends that all new investors be informed that money can not be withdrawn at will, but that 30 days' written notice of intention to withdraw will be expected."

Consequent upon our nation's great prosperity, large sums of eastern capital have lately come into the state seeking investment. Considerable of this capital has been loaned for home construction purposes with a result that some of our associations have found it rather difficult to loan their funds as readily as heretofore. It is quite probable that this will result in a lowering of interest rates and a consequent reduction in dividends and interest paid on investment certificates. This change has already taken place in our eastern states, as well as in the state of Washington, and now dividends of 5 and 5½ per cent are being paid, and loaning rates average 7 per cent or less. Associations in California must, sooner or later, follow this same course.

Considerable criticism has, from time to time, been made of associations hiring agents to sell stock and certificates; that such agents do not properly explain the withdrawal fee to the investors; these criticisms, increasing in number, was the reason for the issuance of the following order:

> "It is therefore ordered and directed that on and after August 1, 1927, all entrance fees, or initial payments made to agents on installment investment certificates, installment certificates of stock, or installment membership shares, must be sent to the home office, and an office record made of the same. Immediately upon receipt of such funds, the secretary of the association shall communicate

with the subscriber for such installment shares, or certificates, not only acknowledging receipt of same, but must inform the investor of the nature of his contract, and specifically call his attention to the fact that the membership fee is not returnable; or, if it is, under what terms. If within a reasonable time thereafter, the subscriber sets forth that he was not properly informed by the selling agent as regards the membership fee and the withdrawal value of his shares or certificates, the association must cancel his contract and return the fee or initial payment. If, on the other hand, the investor acknowledges by his answer that he understands the terms of his contract, or gives tacit assent thereto by his silence, the company may accept the subscription and pay the agent his stipulated fee."

In conclusion, I desire to state that at no time in the history of the commission have the associations been in better condition, or in better hands than at present, and we may therefore with the utmost confidence look to the new year as one to witness even greater and more rapid strides than the one just past.

Respectfully submitted.

GEO. S. WALKER,
Building and Loan Commissioner.

ASSOCIATIONS REPORTING.

Associations reporting in 1926	176	
Associations not reporting in 1926	11	
Total active		187
New California licenses issued to June 30, 1927		20
Total licensed		207
Less retired		5

Gibraltar, Los Angeles—in liquidation.
Petaluma Mutual, Petaluma—absorbed by Home Guaranty, Oakland.
Superior California, Roseville—absorbed by Northern California.
Peoples Mutual, Ontario—absorbed by Peoples Guarantee.
Community, San Diego—absorbed by Bay City, San Diego.

Total active June 30, 1927		202
Total reporting for tabulation	191	
Total not reporting for tabulation	11	
		202

In addition to the associations enumerated above, there are two foreign associations entitled to operate in California—the Western Loan & Building Company, of Salt Lake City, Utah, licensed August 26, 1913, and the Intermountain Building and Loan Association, of Salt Lake City, Utah, licensed April 23, 1927.

SHAREHOLDERS AND INVESTORS.

The number of shareholders and investors increased from 223,440 to 261,232, the increase for 1927 being 37,792, or 16.91 per cent. These shareholders and investors are composed of 149,427 male and 111,805 female, and have an average investment of $761.13.

The number of shares in force, 1,638,837, increased 192,259 or 13.29 per cent over 1926. The number of investment certificates in force is 1,369,239, an increase of 434,060.

NEW ASSOCIATIONS LICENSED.

There were twenty new associations licensed by the commissioner during the past year. The following table gives the date of incorporation, name of the association and location:

New Associations Licensed During Fiscal Year.

Date Incorporated	*Name*	*Location*
July 1, 1926	Chula Vista Building-Loan Association	Chula Vista
July 21, 1926	Central California Building and Loan Assn.	Auburn
July 26, 1926	Keystone Building-Loan Association	Los Angeles
Aug. 16, 1926	Sunset Building and Loan Association	San Diego
Sept. 7, 1926	Sherman Building-Loan Association	Sherman
Oct. 27, 1926	Railway Mutual Building and Loan Assn.	Los Angeles
Dec. 13, 1926	Marine Building and Loan Association	San Pedro
Dec. 17, 1926	La Mesa Building and Loan Association	La Mesa
Jan. 3, 1927	Imperial Valley Building and Loan Assn.	El Centro
Jan. 17, 1927	Universal Building and Loan Association	Ventura
Jan. 19, 1927	Quaker City Building and Loan Association	Whittier
Mar. 23, 1927	Coast Mutual Building-Loan Association	Los Angeles
Mar. 25, 1927	Century Building and Loan Association	Santa Monica
April 1, 1927	Compton Security Building and Loan Assn.	Compton
April 11, 1927	Montebello Building and Loan Association	Montebello
April 23, 1927	International Building and Loan Association	Los Angeles
April 25, 1927	Ramona Building-Loan Association	Fillmore
April 25, 1927	Greater Arcadia Building-Loan Association	Arcadia
May 26, 1927	United States Building and Loan Association	Los Angeles
June 9, 1927	Ventura Guarantee Building and Loan Assn.	Ventura

---

ELEVEN ASSOCIATIONS ORGANIZED LESS THAN SIX MONTHS.

Eleven of the associations licensed during the fiscal year ended June 30, 1927, were in operation less than six months and as their expenses were out of proportion to their income, they were not included in the regular tabulations, as so doing would have materially affected the percentage calculations.

The total assets of these associations were, $1,078,554.32.

The location and the names of these associations follow:

Arcadia, Greater Arcadia Building-Loan Association.

Compton, Compton Security Building and Loan Association.

Fillmore, Ramona Building-Loan Association.

Los Angeles, Coast Mutual Building-Loan Association.

Los Angeles, International Building and Loan Association.
Los Angeles, United States Building and Loan Association.
Montebello, Montebello Building and Loan Association.
Santa Monica, Century Building and Loan Association.
Ventura, Universal Building and Loan Association.
Ventura, Ventura Guarantee Building and Loan Association.
Whittier, Quaker City Building and Loan Association.

Net Profits.

	1926	*1927*
Net profits reported for year	$10,287,355 54	$13,036,320 46
Percentage to average loans in force	7.036%	6.881%
Average for past ten years	7.037%	7.011%
Percentage of profit to average investment	7.364%	7.058%
Average for past ten years	7.517%	7.334%

Dividends and Interest.

The dividends or interest reported as paid or apportioned to installment shares and certificates represent 21 different rates with the lowest at 5 per cent and the highest at 16 per cent. The mean average of all being	6.496%
Apportioned to installment shares	$2,457,407 59
Apportioned to full paid shares	1,434,437 34
Apportioned to investment certificates	7,217,391 45
Apportioned to guarantee capital	965,376 90
Total dividends and interest	$12,074,613 28
Added to surplus, reserve and undivided profits	961,707 18
Total net profits	$13,036,320 46

Salaries, Taxes and Other Expenses.

The amounts reported as disbursed on account of the above, and the percentages to average loans in force are:

For salaries	$1,275,651 57	or	0.673%
For taxes	489,249 62	or	0.257%
For other expenses	2,190,218 59	or	1.156%
Making gross expense of	$3,955,119 78	or	2.086%
The percentage for 1926 was			2.141%

Operating Expenses to Average Loans.

Of the above, the percentages directly applicable to operating expenses, aside from taxes, were:

	Percentage for 1926	*Percentage for 1927*
For salaries	0.773%	0.673%
For other operating expenses	1.109%	1.156%
Total operating expenses	1.882%	1.829%

Operating Expenses to Dues Capital.

	Percentage for 1926	*Percentage for 1927*
Percentage cost for salaries	0.809%	0.691%
Percentage cost for other expenses	1.160%	1.186%
Totals	1.969%	1.877%

Gross Income and Percentage of Expenses to Income.

	Percentage for 1926	*Percentage for 1927*
Percentage of net profits to average loans	7.036%	6.881%
Percentage of taxes to average loans	0.259%	0.257%
Percentage of operating expenses	1.882%	1.829%
Percentage of apparent gross income	9.177%	8.967%
Ratio of operating expenses to income	20.508%	20.397%

Rates of Interest on Loans.

The rates of interest charged upon loans range from 7 to 12 per cent per annum. The factors governing the interest rate usually depend upon the locality, security offered and local money conditions. The following table gives the various rates charged upon installment loans and the number of associations using each rate:

7 associations charge	7.00 per cent	18 associations charge	9.00 per cent
2 associations charge	7.20 per cent	4 associations charge	9.60 per cent
5 associations charge	7.50 per cent	4 associations charge	9.75 per cent
11 associations charge	7.80 per cent	6 associations charge	10.00 per cent
49 associations charge	8.00 per cent	1 association charges	10.20 per cent
81 associations charge	8.40 per cent	1 association charges	10.60 per cent
1 association charges	8.50 per cent	1 association charges	12.00 per cent

Rates of Dividends Paid.

The associations paid or credited twenty-one different rates of dividends upon investments in installment shares and certificates, the mean average rate of all being 6.496 per cent.

The groups of associations and the mean rate of dividend or interest paid or credited for each group appear as follows:

2 associations	5.00 per cent	1 association	7.70 per cent
8 associations	5.50 per cent	10 associations	8.00 per cent
1 association	5.75 per cent	1 association	8.20 per cent
109 associations	6.00 per cent	1 association	8.40 per cent
1 association	6.25 per cent	1 association	8.50 per cent
17 associations	6.50 per cent	1 association	8.75 per cent
3 associations	6.60 per cent	2 associations	9.00 per cent
1 association	6.65 per cent	2 associations	10.00 per cent
3 associations	6.75 per cent	1 association	13.00 per cent
21 associations	7.00 per cent	1 association	16.00 per cent
3 associations	7.20 per cent		

REAL ESTATE AND OFFICE BUILDINGS OWNED.

The book value of all real estate owned by California associations is $5,681,048.62, an increase of 107.53 per cent. The above amount comprises $3,039,443.26 invested by 39 associations in property acquired for office buildings, and $2,641,805.36 representing the values of 432 parcels of real estate acquired, principally as a result of foreclosures of delinquent loans. These amounts show increases of 134.40 per cent and 83.36 per cent, respectively, during the year.

The value of real estate owned is 2.35 per cent, of the gross assets of all associations.

The value of furniture and fixtures owned is $551,938.41, an increase of 32.08 per cent over 1926.

The commissioner has ruled that a mutual association must not invest in office buildings an amount in excess of its accumulated reserve, and a guarantee capital association an amount in excess of its paid-in guarantee capital and surplus reserve.

All associations, before making such investments, must receive permission to do so from the Commissioner.

CIVIL CODE.

TITLE XVI.

BUILDING AND LOAN ASSOCIATIONS.

Section 633. Formation, powers, and organization.
634. Capital stock.
635. Retiring free shares.
636. Maturity of stock.
637. Loans—Prohibitions—Penalties.
638. Interest—Securities—Repayment of loans.
639. Arrears in payments—Default—Forfeitures.
640. Purchase of real estate.
641. Profits and losses.
642. Withdrawals.
642*a*. Delayed withdrawals and maturities.
643. Membership.
644. State supervision and control.
645. Annual report.
646. Foreign corporations—Deposit by.
647. Investment in and loans upon bonds.
647*a*. Consolidation of associations.
648. Definition of building and loan association.
648*a*. Formation with or without capital stock.

Powers—Purposes for which formed.

633. Building and loan associations as hereinafter in this title defined, shall have power to receive money and accumulate funds to be loaned, and to loan the same to their shareholders, investors and others; to permit shareholders and investors to withdraw part or all of their payments, investments or stock deposits, and to prescribe the terms and conditions of such withdrawal; to cancel shares of stock, the payments on which have been withdrawn; to receive money and to execute certificates therefor, which must specify the date, amount, rate of interest, and when the principal and interest are payable, and also the withdrawal value thereof at the end of each year; to borrow money for the purpose of making loans and of paying withdrawals and maturities; and shall have such further powers as may be specifically set forth under this title; *provided, however,* that no such association shall, at any time, have or carry upon its books, for any member or investor, any demand, commercial or checking account or any credit to be withdrawn upon the presentation of any negotiable check or draft.

Every such corporation hereafter formed, setting forth the purposes for which it is formed, shall state, in its articles of incorporation, that it is formed to encourage industry, frugality, home building, and savings among its shareholders and members; the accumulation of savings; the loaning to its shareholders and members of the moneys or funds so accumulated, with the profits and earnings thereon, and the repayment to each of his savings and profits, whenever they have accumulated to the full par value of the shares, or at any time when he shall desire the same or when the corporation shall desire to repay the same, as it may be provided in the by-laws; and shall also state that it is formed for all the purposes specified in this title, and nothing in the statutes of this state, to the contrary notwithstanding, shall preclude any such association in any of its advertising from setting forth any of the foregoing purposes. (Effective July 29, 1927.)

Capital—How accumulated; classes of shares.

634. The capital of every such corporation shall be divided into shares of the matured or par value of one hundred or two hundred dollars each, as provided by the articles of incorporation, and shall be paid in by the subscribers in the manner provided by the by-laws. All such payments shall be called dues. Certificates shall be issued to each shareholder on the first payment of dues by him. Shares pledged as security for the payment of a loan shall be called pledged shares, and all others, free shares. All shares matured and surrendered or canceled, shall become the property of the corporation and may be reissued. The capital shall consist of the accumulated dues, together with the apportioned profits of the corporation, and shall be accumulated by the issuance of shares in any one or more of the following forms, viz: "installment shares," "full paid shares," "pass book shares" and "guarantee stock."

Installment shares.

(*a*) Installment shares shall be either "serial" or "permanent" in form. When issued in "serial" form the periodical dues on shares in each series shall commence with the date of the issue of such series and the holder must pay such dues and such amounts per share and at such times as the by-laws may provide, and such payments must continue on each share until, with the profits allotted thereto, it reaches its matured value or is withdrawn or canceled. On all such issues the dividends shall be apportioned or credited equally to each share in each series. No share of a prior series shall be issued after the issue of shares in a new series, except by way of transfer. Shares issued in "permanent" form may be issued at any time and the dividends thereon may be credited in the pass books of the members. Shares of either form may be issued in "classes" with a different periodical payment for each class designation, to be specified in the by-laws, and shall be issued with full participation in the profits subject to apportionment as dividends.

Full paid shares.

(*b*) Full paid shares shall be shares upon which a single payment of dues amounting to one hundred or two hundred dollars per share shall be paid at the time of subscription and upon which the holder shall be entitled to either a full participation in the net profits or to an agreed

rate of dividends not exceeding six per cent per annum, payable semi-annually in cash, to be specified in the body of the certificate issued. All such shares may be issued in separate classes as to participation, under regulations to be provided in the by-laws and which must be fully set forth in or upon each certificate issued.

Pass book shares.

(*c*) Pass book shares are shares which shall participate in the apportionment of net profits and be credited therewith at a rate not less than seventy-five nor more than ninety per centum of the rate apportioned to installment shares, as the by-laws shall determine, and upon which the dues may be paid in at such times and in such amounts as the holder thereof may elect until said shares reach their matured value or are withdrawn. Such shares shall be withdrawable under rules to be provided in the by-laws and fully set forth in the pass books issued. The matured value of this class of shares shall not exceed in volume twenty-five per centum of the matured value of all other shares in force. No membership fee, fine or forfeiture shall be chargeable against such shares.

Guarantee stock.

(*d*) Guarantee stock shall be stock, provided by the by-laws, to be set apart and sold as a fixed, permanent or guarantee capital, and shall be issued with full participation in the profits subject to apportionment as dividends. When any such stock has been once so set apart, sold and issued it shall thereafter remain as a fixed, permanent and guarantee capital, and shall be subjected to all the conditions and liabilities attaching to the paid-in capital stock of other classes of corporations. Such guarantee stock shall protect and guarantee all other stockholders and creditors against any loss, and when once paid it must be kept unimpaired.

May issue investment certificates to minors.

(*e*) Every corporation specified in this title, in addition to being entitled to issue investment certificates to adults, shall also have power to issue one or more investment certificates to a minor of any age and receive payments thereon by or for such minor. If such minor be fourteen years of age or over, he shall be entitled to withdraw, transfer or pledge any such certificate owned by him and to receive from such corporation any and all interest or other moneys at any time becoming due thereon and his receipt or acquittance therefor shall constitute a valid release and discharge to the corporation for the payment of such money.

Investment certificate—Reserve required.

(*f*) Every corporation specified in this title issuing installment or full paid investment certificates, or both, shall at all times have issued and fully paid for, either an amount of guarantee capital stock, or permanent nonwithdrawable capital stock, or both such guarantee capital stock and permanent nonwithdrawable capital stock, or a reserve fund, equal to ten per cent of the aggregate amount of its liability on its said installment investment certificates and full paid investment certificates; *provided, however,* that the aggregate of

guarantee capital stock, or permanent nonwithdawable capital stock, or both such guarantee capital stock and permanent nonwithdrawble capital stock, or a reserve fund, of every building and loan association issuing installment or full paid investment certificates, or both, must equal the following percentages of its investment certificate liabilities:

1. Ten per centum of any amount up to and including one million dollars.

2. Seven and one-half per centum of any amount in excess of one million dollars, up to and including two million dollars.

3. Five per centum of any amount in excess of two million dollars, up to and including five million dollars.

4. Three per centum of any amount in excess of five million dollars.

Guarantee stock may have majority of directors.

(*g*) Corporations specified in this title, issuing guarantee stock, may provide in their by-laws that a majority of the board of directors shall be selected from the holders of such stock.

Entrance and transfer fees.

(*h*) Every corporation specified in this title shall also have power, by its by-laws, to charge and collect an entrance fee, for each share of stock, or membership share, or investment certificate, it may issue, not exceeding one dollar on each share or investment certificate having a matured or face value of one hundred dollars, and also to charge and collect a transfer fee, not exceeding ten cents on each share, or investment certificate, all of which fees shall be accounted for by the corporation like other funds of the association. No other fee, charge or deduction shall ever be made or permitted to be made against any shareholder, or certificate holder, or against any of his shares or certificates, hereafter issued, or the dues paid in thereon for the purpose of creating a fund to be used in the payment of current or running expenses. (Effective July 29, 1927.)

Retiring free shares.

635. The directors may in their discretion, under the regulations prescribed by the by-laws, retire any free shares of stock, other than those of the guarantee stock, by enforcing the withdrawal thereof, but whenever the withdrawal of any shares is to be enforced, the holders thereof must be paid the amount actually paid in, and the full amount of earnings at the date of retirement; *provided*, that shares of installment stock shall not be forced out until after they shall have become four years old.

Maturity of shares, and payment.

636. When any stock shall have reached its matured value, payment of dues thereon shall cease. Borrowing stockholders whose loans are fully paid shall have their securities released and returned to them. Holders of free shares of stock shall be paid the matured value thereof out of the funds of the corporation with interest at such rate as the by-laws shall provide, from the time the board of directors shall declare such shares to have been matured, until paid; but at no time shall more than one-half of the receipts of the corporation be applicable to the

payment of matured shares without the consent of said board. The order of the payment of matured shares, if not otherwise determined by the by-laws, shall be in the numerical order of issuance.

Loans—Officers and directors may not borrow; no loans on guarantee stock or mining stock.

637. Loans may be made upon the "mutual plan" or upon the "definite contract plan." Loans made upon the mutual plan shall be accompanied by a pledge of shares having a matured or par value equal to the face of the loan. Definite contract loans shall be repayable in a definite number of equal periodical installments, to be named in the note or obligation, each in an amount sufficient for the aggregate of all to repay the principal of the loan together with interest on the unpaid periodical balances, within the time and at the rate agreed upon. It shall be unlawful for any director or officer of any corporation governed by this title, directly or indirectly, for himself, or as a partner or agent for others, to borrow any of the funds of such corporation, and any officer or director violating the provisions of this section shall be guilty of a felony. Any officer or director of any such corporation who consents on behalf of such corporation to make a loan to any officer or director of such corporation shall be guilty of a felony, and shall also be personally liable to the corporation for the full amount thereof. Any officer, director, or employee of such corporation who asks or receives or consents or agrees to receive any commission, emolument, gratuity or reward, or any money, property or thing of value, for his own personal benefit or of personal advantage, for procuring or endeavoring to procure for any person, firm or corporation any loan from such corporation, is guilty of a felony. It shall be unlawful for any building and loan association, corporation or society operating under the provisions of this title to loan any of its funds upon any of its own guarantee stock or upon its permanent nonwithdrawal capital stock as security. Any officer or director of an association who shall make any such loan for and on behalf of any association shall be personally liable to the corporation for the full amount thereof, and shall also be deemed guilty of a felony. It shall be unlawful for any building and loan association, corporation or society, operating under the provisions of this title, to loan any of its funds upon the security of, or to invest any of its funds in mining shares or mining stocks, or in the stocks or bonds of any corporation, other than in this title provided; and any officer or director who, on behalf of any such corporation, shall make any such loan or investment, or who shall consent thereto, shall be personally liable to the corporation for the whole amount of any such loan or investment, and shall also be guilty of a felony. (Effective July 29, 1927.)

Security for loans—Interest, rate to appear.

638. For every loan made a note or obligation, expressing and setting forth the exact rate of interest, must be executed by the borrower, secured by a first mortgage or deed of trust upon unencumbered real estate having an appraised value of not less than twenty-five per cent in excess of the face of the loan, except such loans as may be made upon the security of bonds specified in section six hundred forty-seven;

or in lieu of a mortgage or deed of trust, loans to the extent of not exceeding ninety per cent of the then withdrawable value, may be made upon the pledge of free shares or certificates as security for their repayment. The board of directors may from time to time fix the rate of interest to be charged on loans. A borrower may at any time repay his loan together with interest or arrears due thereon and upon the surrender of the shares, or certificate pledged as security therefor. (In effect July 27, 1917.)

Arrears in payment; default; forfeitures.

639. Whenever any non-borrowing member shall be six months in arrears in the payment of his dues upon free shares, the secretary may give him notice thereof in writing, and a statement of his arrearages, by mailing the same to him at his last post-office address given by him to the association; and if he shall not pay all arrearages within two months thereafter, the board of directors may, at their option, declare his shares forfeited, and at the time of such forfeiture, the withdrawal value thereof shall be determined and stated, and the defaulting member shall be entitled to withdraw the same without interest, upon such notice as shall be required of a withdrawing shareholder. Whenever a borrower shall be three months in arrears in the payment of his dues or interest or loan installments, the whole loan shall become due at the option of the board of directors, and they may proceed to enforce collection upon the securities held by the association. The withdrawal value, at the time of exercising such option, of all shares pledged as collateral security, shall be applied to the payment of the loan, and said shares from that time shall be deemed surrendered to the association and canceled.

May purchase real estate on foreclosure sale.

640. Any such association may purchase at any sale, public or private, any real estate upon which it may have a mortgage, judgment, lien, or other incumbrance, or in which it may have an interest, and may sell, lease, or mortgage the same at pleasure to any person or persons.

Apportionment of profits; reserve—Guarantee stock participation and reserve.

641. Profits and losses shall be apportioned at least annually, and shall be apportioned to all shares in each class at the time of such apportionment, according to the actual or book value thereof. If the guarantee capital herein provided for if any there be, together with the reserve fund, or if the reserve fund, where there be no guarantee capital, shall not equal five per cent of the outstanding loans at the time of each apportionment of profits, the directors shall set aside, as a reserve fund, not less than five per cent of the net profits accruing since the last prior apportionment, and shall continue so to do until said fund shall amount to at least five per cent of the loans in force, at which figure said fund shall thereafter be maintained. Said reserve fund shall at all times be available to meet losses arising from any source not heretofore provided to be assumed by the guarantee capital. Every such corporation having a paid-in guarantee capital stock, may provide in its by-laws, that an amount not exceeding one per cent per annum on the average loans in force shall be set aside from and

out of the net profits, at each annual distribution thereof, or a proportionate amount at each semi-annual distribution, from which to declare additional dividends on and provide a reserve fund that shall be specially applicable thereto. At least one-tenth of the amount so set aside shall be carried to such reserve fund until the same shall amount to at least twenty-five per cent of the paid-in guarantee stock. (Effective July 29, 1927.)

Withdrawals; conditions and limitations.

642. A stockholder or investor, desiring to withdraw from any such corporation or to surrender a part or all of his stock, or investment certificate, may do so by giving thirty days' notice, in writing, of his intention or desire so to do. On the expiration of such notice, he is entitled to receive the full amount paid in upon the stock or investment certificate surrendered, exclusive of the entrance fee, together with such proportion of the earnings thereon as the by-laws may provide, or as may be fixed by the board of directors; but not more than one-half of the monthly receipts in any one month must be applied to withdrawals for that month, without the consent of the board of directors, and no stockholder must be permitted to withdraw whose stock is pledged to the corporation as security for a loan, until such loan is fully paid. All withdrawals must be paid in succession in the order that the notices of intention are given. Whenever the demands of withdrawing stockholders or investors exceed the money applicable to their payment, the notices of intention to withdraw must be registered in the order of filing and payments thereon must be made in succession, in the order that such notices were filed and registered. The board of directors may permit the withdrawal of a part of the accumulations to the credit of a stockholder or member, on shares of installment stock not issued in serial form, without thereby reducing the number of shares held by him. (In effect July 24, 1925.)

Demands unpaid for two years, business may be taken over.

642a. Whenever an application for withdrawal of free shares or certificates shall have been on file, or the payment of matured shares demanded, and either shall have remained unpaid for a period of one year, all the receipts of the association from dues, interest, premium, loans repaid, and the proceeds of all other investments, shall, after the payment of expenses and general indebtedness, be applied toward the payment of withdrawals and maturities; and the board of directors or the official vested by law with powers of state supervision and license may direct that such payments shall be made upon a ratable and proportionate basis. Whenever such applications or demands, whether heretofore or hereafter made, have been on file and remain unpaid in whole or in part for more than two years the official vested by law with powers of state supervision and license, may in his discretion forthwith take possession of the property and business of such association, and retain such possession until its affairs be finally liquidated in the manner provided by law for the liquidation of associations by him. (In effect August 8, 1915.)

Who may become members.

643. Any person of full age and sound mind may become a member of an association by taking one or more shares therein and subscribing

to the by-laws, and annexing to his signature his post-office address. A minor may hold shares in the name of a parent, guardian, or next friend, as trustee. The shares of stock in any such corporation held by any person, to the extent of one thousand dollars, shall be exempt from execution.

State supervision and control.

644. All building and loan associations, as in this title defined, doing business in this state, shall be under the supervision and control of such official or officials as are by law vested therewith; and except in the manner provided in this title, no corporation, firm, or association shall conduct or carry on the business of accumulating the savings of its shareholders, members, or investors, and loaning such accumulations to them, in the manner of building and loan associations.

Annual and other reports; penalties.

645. Every association organized under the provisions of this title, and every other association doing a similar business, shall annually make a full report, in writing, of the affairs and condition of such corporation, within thirty days after its annual meeting, to the official or officials vested with powers of state supervision and license. Such reports shall be verified by the oath of the officers making the same, and a copy of the same shall be delivered to every stockholder, from the office of the corporation, who may call for such report. Every association shall make any further reports which the said official or officials may require, and in such form and as to such matters relating to the conduct of the business of the association as such official or officials may designate. Any wilfully false statement in making and verifying said report shall be perjury. Any such association which shall fail to furnish the said official or officials any such report required, within thirty days after demand, shall forfeit the sum of ten dollars per day for every day such report shall be delayed or withheld, which may be recovered in an action brought by the attorney general in the name of the people of this state; and all moneys so recovered shall be paid to the treasurer of this state, who shall pay the same into such fund as may be provided by law, for the purposes of the official or officials vested with power of supervision and license.

Foreign association; deposit required.

646. Every building and loan association, and every other corporation, association or society organized under and by virtue of the laws of any other state or territory or of any foreign country, for the purpose of conducting and carrying on a business of a character similar to that authorized by this title, or whose by-laws, rules, prospectus, contracts or methods of business provide for the conducting or carrying on the business of accumulating the periodical payments or savings of its shareholders, members or investors in the manner of building and loan associations, or as authorized and provided in this title, desiring to enter the State of California for the transaction of business or for selling its bonds, debentures, certificates, shares of stock, shares of membership, contracts, or other similar securities, must first comply with the requirements of sections four hundred five and four hundred eight of the Civil Code and immediately thereafter deposit with the

official vested by law with state supervision and license not less than fifty thousand dollars in lawful money of the United States or in bonds of the United States or of the State of California, or of any county, municipality or school district of said state, or of any public utility corporation, or of any irrigation district in said state, the bonds issued by which district are legal investments for savings banks or any notes or bonds secured by mortgage or deed of trust payment of which is guaranteed by a policy of mortgage insurance, or mortgage participation certificates, issued by a mortgage insurance company in accordance with the provisions of chapter eight, title two, part four of division first of the Civil Code or in lieu thereof promissory notes secured by first mortgages or deeds of trust upon real estate located within this state, satisfactory to the official vested by law with state supervision and license of building and loan associations, all duly assigned or endorsed in blank, to be held by the said official as a guarantee fund for the protection and indemnity of residents of the State of California who shall invest in any of its bonds, debentures, shares, contracts, agreements or other securities, or with whom it shall do business.

It must also procure from the official vested by law with state supervision and license of building and loan associations, the license provided for building and loan and similar corporations and associations, paying the statutory fee therefor before entering upon the transaction of business, and annually renew the same; *provided, however,* that the official or officials, vested by law with state supervision and license of building and loan associations may, before issuing license to any building and loan association, or other corporation, organized under and by virtue of the laws of any other state or territory, or of any foreign country, doing a business which would properly place it under the supervision of the state building and loan commission, require such corporation, or corporations, to so modify or change their contracts, certificates of membership shares, or stock that they will conform in all respects to the requirements of associations organized within the State of California; and shall likewise conform in all other respects to the provisions of sections six hundred thirty-three to six hundred forty-eight *a* of the Civil Code of the State of California.

With the consent of the said official vested by law with state supervision and license any of the securities deposited as herein provided may be withdrawn at any time upon the substitution and deposit of others of form and character herein specified and of like or greater net value, so long as the aggregate net convertible value of all equals or exceeds the amount named herein. The fund thus created is not to be foreclosed or realized upon except for the liquidation of a final judgment in favor of residents of California who were investors in any of the above mentioned securities of such foreign company, corporation or association, and then only after certified proof thereof has been filed with the custodian.

Except as above provided, securities deposited as herein specified shall not be withdrawn until satisfactory proof of the liquidation of all liabilities to residents of California, approved by the official vested by law with state supervision and license, shall be filed with the custodian, when all may then be withdrawn.

Any person or persons who shall be found in the state, as principal, agent, solicitor, or in any other capacity, soliciting or conducting the

business of selling, disposing of, or taking or soliciting subscriptions for the sale of any of the forms of bonds, debentures, shares, contracts, agreements or other securities of any such foreign company, corporation or association which has not complied with all the requirements of this section shall be deemed guilty of a misdemeanor punishable, upon conviction, by a fine of not less than one hundred nor more than one thousand dollars or by imprisonment in the county jail for not less than one nor more than twelve months, or by both such fine and imprisonment. (In effect August 17, 1923.)

Investments permitted; approval required.

647. Any building and loan association may invest in or loan upon bonds of the United States, of the State of California, or of any county, municipality or school district of said state, or of any public utility corporation, or notes or bonds secured by mortgage or deed of trust, payment of which is guaranteed by a policy of mortgage insurance, or mortgage participation certificates, issued by a mortgage insurance company, in accordance with the provisions of chapter VIII of title II of part IV, division I of the Civil Code, and may also invest in bonds or securities certified by the superintendent of banks to be legal as investments for savings banks in accordance with the provisions of an act entitled "An act to define and regulate the business of banking," approved March 1, 1909, and acts amendatory thereof and supplemental thereto, and in full paid investment certificates issued by any building and loan association licensed by, and under the direct supervision of the building and loan commissioner of the State of California in accordance with the provisions of this title, the total of which investments shall not at any time exceed twenty-five per centum of the assets of such investing association; *provided, however,* that any such loan or investment, made by such association, must first be approved by the official, or officials, vested with the powers of supervision and license. (Effective July 29, 1927.)

Consolidation of associations.

647a. Any two or more building and loan associations may unite and become incorporated in one body, with or without any dissolution or division of the funds of either of them; or any such corporation, association or society may transfer its engagements, funds and property to any other like corporation, association or society upon such terms as may be agreed by an unanimous vote of their respective boards of directors, ratified by the written consent of the shareholders holding more than two-thirds of the shares in force in each of the respective contracting associations; *provided, however,* that any such consolidation or transfer must also be approved by the official or officials vested by law with powers of state supervision and license. (In effect July 22, 1919.)

Name; to include what.

648. The name "building and loan associations" as used in this title shall include:

Mutuals.

First—Corporations formed for the purpose of receiving money from, and loaning money to, their members only.

Corporations operating on similar lines.

Second—Corporations, associations, companies, copartnerships, and individuals transacting the business of issuing or selling bonds, debentures, certificates, shares of stock, or other papers, by whatever names said instruments may be designated, whether said instruments are issued for money paid in advance or for money to be paid in installments, but with an intent, either implied or expressed, that the proceeds or accumulated installments thereof and thereon are to be withdrawable or repayable, with accumulated profits, at some future fixed, or indefinite date of maturity; *provided always,* that this section does not include persons, copartnerships or corporations engaged in any kind of banking business. (In effect March 22, 1909.)

Formation with or without capital stock.

648a. Building and loan associations may be formed under this title with or without guarantee or other capital stock, with all the rights, powers and privileges and subject to all the restrictions and liabilities set forth in this title. If formed without any capital stock or with guarantee capital stock only, the working capital may be accumulated by the issue of membership shares, units or certificates having a paid-up or ultimate matured installment value of one hundred or two hundred dollars each, and entitled to all the rights, powers and privileges and subject to all the restrictions and liabilities provided in this title for shares of authorized capital stock of a similar class. Any building and loan association heretofore formed may reincorporate under the provisions of this section and may substitute membership shares, units or certificates of similar classes for its outstanding or authorized shares of capital stock, other than guarantee capital stock by amending its articles of incorporation in the manner prescribed by section three hundred sixty-two of this code, except that such amended articles of incorporation must be adopted by a unanimous vote of the board of directors. (In effect July 29, 1921.)

BUILDING AND LOAN COMMISSION ACT.

CHAPTER 354.

[Approved April 5, 1911. Stats. 1911, p. 607.]

(Amendments effective December 18, 1911, March 23, 1912, August 8, 1915, July 27, 1917, July 29, 1921, August 17, 1923, July 24, 1925, and July 29, 1927.)

The people of the State of California, represented in senate and assembly, do enact as follows:

SECTION 1. There is hereby created a bureau, to be known and designated as the "bureau of building and loan supervision," with powers of supervision, examination and license of all building and loan associations, mutual loan associations, cooperative home associations, and all other corporations, association and societies whenever, wherever and however formed, which are based, or are operating on plans or methods similar to building and loan associations as defined in section six hundred forty-eight of the Civil Code. Said bureau is charged with the enforcement of all laws designed for the formation, government or operation, in this state, of any such association, corporation or society, and is vested with power to determine what associations, corporations and societies, come within the purview of the laws. (In effect March 23, 1912.)

Administration; commissioner, deputies, etc.

SEC. 2. The administration of said bureau shall be vested in a commissioner, to be known and designated as the "building and loan commissioner," who shall be appointed by the governor and commissioned to hold office at the pleasure of the governor. He must be a citizen of the state; and he must not be in any way connected with any association or corporation or society coming under his supervision. He shall appoint a chief deputy building and loan commissioner with full power as such, who must be a practical, skilled accountant, fully conversant with the building and loan systems and accounts; he may appoint an appraiser and such other examiners, deputies, assistants, clerks and stenographers as shall be found necessary for the proper conduct of the business of his office and the making of examinations of associations.

Salaries and expenses.

SEC. 3. The commissioner shall receive a salary of six thousand dollars, per annum. He shall, subject to the approval of the board of control, have power to fix the salaries and compensation of an appraiser, examiners, deputies, assistants and employees. There shall also be allowed and paid the necessary traveling expenses of the commissioner and his deputies incurred while traveling in the line of their duties. The commissioner shall procure and have an office in the city of San Francisco. Said commissioner shall also provide for such stationery, printing, postage and all other necessary expenditures as may be

necessary for the proper conduct of his office. All said salaries and expenses shall be audited and paid in the same manner as the salaries and expenses of other state offices. Said salaries and expenses shall be paid from the "building and loan inspection fund." (Effective July 29, 1927.

Bonds and oath of office.

SEC. 4. Before entering upon their duties, the commissioner and his deputies shall each execute an official bond in the penal sum of five thousand dollars, each of which bonds must be guaranteed by a duly authorized surety or bonding company, the premium on which shall be paid from the allowance for office expenses. Any bond executed under this section must be approved by the governor and filed and reported in the office of the secretary of state, and such commissioner and deputies must take the oath of office as prescribed by the Political Code for the state officers in general. (In effect July 29, 1921.)

Commissioner to license and report to governor.

SEC. 5. It shall be the duty of the commissioner to furnish all associations, corporations or societies, which, in his judgment, legally come under his jurisdiction, and that have otherwise complied with the requirements of law, a license authorizing them to transact business for one year from the date of said license; to receive and place on file in his office the annual or other reports required by law to be made by building and loan associations, licensed by him; to supply each with blank forms for such statement; and to make, on or before the first day of October in each year, a tabulated report to the governor of this state, showing the condition of all such associations, corporations or societies reporting to him, with such recommendation as he may deem proper, accompanied by a detailed statement of all moneys received by him since his last report and the disposition thereof. (In effect July 29, 1921.)

Examinations of domestic and foreign associations.

SEC. 6. It shall be the duty of the commissioner, in person, or one of his deputies at least once in each year, without previous notice, to visit and examine into the affairs of every such association, corporation or society licensed by him, incorporated or doing business in this state; on such occasions he shall have free access to all the books, records, securities and papers of every such association, corporation or society, and shall first count the cash and check the bank balance of such corporation or association with the proper amount of funds as shown by the books to be on hand and at the date and hour of such examination, and shall then examine and verify the books, accounts, and securities, and, so far as possible and consistent, the values of all property owned or held as collateral security for moneys loaned, and otherwise use reasonable diligence to ascertain the financial condition and solvency thereof. He and his deputies shall have power to administer oaths in the line of duty, and to examine under oath the officers, employees and agents, or the custodian or receiver, relative to any or all the business thereof. Whenever the result of any such

examination shall develop a condition demanding an extended audit of the books and affairs, the commissioner may, for such purpose, appoint a competent auditor at the expense of the association, corporation or society examined. The expense of such audit shall be fixed by the commissioner and shall not exceed fifteen dollars per diem, plus traveling and hotel expenses, for each day actually engaged in the making of the audit and the preparation of the report.

The commissioner or his deputies shall examine, or cause to be examined, the books and affairs of any such association, corporation or society formed under the laws of any other state, territory or foreign country applying for a license to enter this state for the transaction of business, prior to the granting of such license and annually thereafter, and for every such examination made outside the state the actual traveling and hotel expenses incurred shall be paid by the association, corporation or society so examined; *provided*, that the result of any similar examination made and certified by the duly constituted authorities of any state having similar laws of supervision may be accepted by the commission. (In effect July 29, 1921.)

Books and accounts required; appraisement of real estate.

SEC. 7. To facilitate the examination specified in the foregoing section, he shall require every such association, corporation, or society to keep its books in such form as to accurately show its assets and liabilities in detail and to keep records written in ink, showing the appraised values of the real estate security held in connection with each loan, and signed in each case by the appraiser, officer or committee charged with making such estimated valuations. The commissioner may make a revaluation of the real estate owned, and of other securities of any such association, corporation or society licensed by him, on which the loan payments may be delinquent for six months or more, and may, for that purpose, appoint local appraisers, who shall be disinterested persons, at the expense of such association, corporation or society; the expense of such appraisement to be fixed by the commissioner, but not to exceed the sum of five dollars for property located outside of any incorporated limits and three dollars for property located inside of any incorporated limits for each property so examined and appraised. Each appraiser so appointed shall be required to make a sworn report to the commissioner of his estimated valuations of all property so examined and appraised.

Power to issue subpœnas.

SEC. 8. The commissioner shall have power to issue subpœnas and require attendance of any or all trustees, or agents of any such association, corporation or society, and such other witnesses as they may deem necessary, in relation to its affairs, transactions and condition, and any such person so served with such subpœna may upon application of the commissioner be required by order of the superior court of the county where the corporation, association or society has its principal place of business to appear and answer such pertinent questions as may be put to him by such commissioner and be required to produce such books, papers or documents in his possession as may be required by such commissioner.

Powers of commissioner in unsafe practices and conditions, and in liquidations.

SEC. 9. If the commissioner, as the result of any examination, or from any report made to him or to the shareholders, shall find that any association, corporation or society licensed by him, is violating the provisions of its charter or of the laws of this state provided for its government, or is conducting its business in an unsafe or unauthorized manner, he may, by an order addressed to the association, corporation or society so offending, direct a discontinuance of such violations or unsafe practices and a conformity with all the requirements of law; and if such association, corporation or society shall refuse or neglect to comply with such order within the time specified therein; or if it shall appear to the commissioner that any such association, corporation or society is in an unsafe condition, or is conducting its business in an unsafe manner, such as to render its further proceeding hazardous to the public, or to those having funds in its custody; or if he shall find that its assets are impaired to such an extent that, after providing for all liabilities other than to shareholders, members and investors, they do not exceed in volume the dues or principal payments paid in by the shareholders, members and investors and accredited to or on account of all classes of stock, shares, or certificates of investment, issued and outstanding, he shall, in order to prevent waste and diversion of assets, assume and take charge of the affairs and business of such association, corporation or society and possession and control of all its property and assets, and retain such possession pending action by the proper court. Upon taking such action, he may, under his hand and official seal, appoint a custodian, require from him a good and sufficient bond, and place him in charge as his representative. He shall immediately notify the attorney general of his action and of all the necessary facts in connection therewith; and thereupon it shall become the duty of the attorney general to at once apply to the superior court of the county in which such association, corporation or society has its principal place of business, for an order citing such association, corporation or society to show cause, if any it may have, within not exceeding ten days, why the action of the commissioner should not be approved and confirmed by the court, and made permanent. Such court may in such application, and after a full hearing, approve or disapprove of the action of the commissioner. If the court shall approve and confirm the action of the commissioner, such approval and confirmation shall operate as a permanent injunction against the further prosecution of business by such association, corporation or society, and the commissioner shall proceed immediately to liquidate the business and affairs thereof, and so continue until such liquidation has been completed. If the action of the commissioner shall be disapproved by the court, the commissioner shall cause all reasonable expenses incurred by him during his occupancy or possession, including not exceeding eight dollars per diem, for each business day, as the compensation of the custodian, to be paid from the funds of such association, corporation or society, and immediately restore the balance of the property and assets thereof to the possession of the proper officers.

The approval and confirmation of the action of the commissioner, by the court, shall operate to empower the commissioner to collect all moneys, debts and claims due to or belonging to such association or society and to give full receipt therefor; to release or reconvey all real

or personal property pledged as security for loans; to approve and pay all just and equitable claims; to prosecute all actions necessary to enforce liquidations; and, on the order of the court, to compound bad and doubtful debts and to sell and convey real and personal property.

As soon as practicable after the approval and confirmation of the action of the commissioner, by the court, he shall cause an inventory of all the assets of such association, corporation or society to be made in duplicate, the original to be filed with the proper court and the duplicate in the office of the commissioner. He shall cause due notice to be given by publication, weekly, for four successive weeks, in some newspaper published at or near the principal place of business of such association, corporation or society, requesting all persons having claims against it as creditors, shareholders, members or investors, to present same and make legal proof thereof, at a place and within a time to be designated in such publication; and he shall cause a copy of such notice to be mailed to all persons whose names appear of record upon its books as creditors, shareholders, members or investors; and upon the expiration of the time fixed for the presentation of claims the commissioner shall prepare or cause to be prepared, in duplicate, a full and complete schedule of all claims presented, specifying by classes those that have been approved and those that have been disapproved, and file the original with the proper court and the duplicate in the office of the commissioner. Due notice shall be mailed to all claimants whose claims may have been rejected. Action to enforce the payment of any rejected claim must be brought and service had within thirty days from and after the date of filing of the schedule of claims with the proper court, otherwise all such actions shall be forever barred. The commissioner may, under his hand and official seal, appoint one or more special deputies to assist in the duties of liquidation and distribution, under his direction, and may also employ such counsel and clerical assistance as may be needful and requisite, and fix the salaries and compensation to be allowed and paid to each. All such salaries, together with such other reasonable and necessary expenses as may be incurred in the liquidation, shall be paid by him from the funds of such association, corporation or society in his hands, and from the net realization of assets, in excess of such salaries and expenses, the commissioner shall first pay all approved claims other than to stockholders, shareholders and members; and thereafter he shall distribute and pay dividends, in liquidation to the stockholders, other than guarantee, and to the shareholders and members, as fast as funds to the amount of ten (10) per cent of such approved claims are available therefor, and so continue until all the assets have been realized upon and a final dividend in liquidation shall be declared and paid. Upon the payment of a final dividend in liquidation, the commissioner shall prepare and file with the proper court a full and final statement of the liquidation, including a summary of the receipts and disbursements, and a duplicate thereof shall be filed in the office of the commissioner, and after due hearing and approval by the court the liquidation shall be deemed to be closed. The approval and confirmation of the action of the commissioner, in the manner herein provided, shall operate to dissolve or stay any or all actions or attachments initiated or levied within thirty days next preceding the date of notification of the attorney general by the commissioner; and, pending the process of liquidation, as herein provided, no attachment or

execution shall be levied nor lien created upon any of the property of such association, corporation, or society.

In every case where any such association, corporation or society shall have a paid in guarantee capital, and the realization of assets shall be insufficient to meet the liabilities due to all other classes of stockholders, shareholders, members and investors, the commissioner shall enforce, by action or otherwise, the liability of each and every of the holders of the guarantee capital stock for his or their respective pro rata of any such deficiency. Whenever, in all cases where there shall be a paid in guarantee capital, the commissioner shall have fully liquidated all approved claims, and shall have made due provision for any and all known but unclaimed liabilities, guarantee capital excepted, and shall have paid all expenses of liquidation, any surplus that may then remain in his hands, together with all the records and effects, shall be delivered over to the holders of the guarantee capital stock at a meeting thereof to be called by the commissioner for that purpose. (In effect March 23, 1912.)

Penalty for noncompliance with orders, sheriff may enforce demands.

SEC. 9*a*. Whenever it shall become necessary for the commissioner to take action against any association because of unsafe practices and of conditions unsafe and hazardous to the public and to those having funds in its custody, as provided in section nine, the refusal of any officer or director to comply with his written demand for possession of the property and assets shall constitute a misdemeanor punishable by a fine of not more than five hundred dollars or by imprisonment in the county jail for not more than ninety days, or by both such fine and imprisonment; and if such demand be not complied with within twenty-four hours after service the commissioner may call to his assistance the sheriff of the county in which the principal place of business of such association is located, by written demand under his hand and official seal, whereupon it shall become the duty of such official to enforce the demands of the commissioner. (In effect August 8, 1915.)

Officers must furnish schedule of property.

SEC. 10. Upon the approval of the action of the commissioner, in the manner and for the cause set forth in section nine, the commissioner shall require the president and secretary of such association, corporation or society to, and such officers shall, make a schedule of all its property and make oath that such schedule sets forth all the property which such association, corporation or society owns or to which it is entitled, and deliver such schedule, and the possession of any and all such property as may not have been so previously delivered, to the commissioner, who may at any time examine under oath such president and secretary, or other officers, to determine whether or not all the property which such association, corporation or society owns, or to which it is entitled, has been transferred and delivered into his possession. (In effect March 23, 1912.)

Receivers, duties and powers.

SEC. 11. Receivers, heretofore appointed, must, at least annually, make due report of all their doings and accounts to the proper court, and immediately thereafter file a copy thereof with the commissioner;

and the commissioner shall, at least once in each year, and as much oftener as he may deem expedient, examine the accounts and doings of such receivers, and, for such purpose, shall have full and free access to all books, accounts and vouchers relating to such liquidation, and any defect, irregularity or misconduct on the part of such receivers as he may find to exist shall be, by the commissioner, reported to the proper court. (In effect March 23, 1912.)

Special examinations on request.

SEC. 12. Upon the certificate, under oath, of any ten or more officers, trustees, creditors, shareholders or depositors of any such association, corporation or society, setting forth their interest and the reason for the making of such examination, directed to the commissioner, and requesting him so to do, he shall forthwith make a full investigation of its affairs, in the manner provided.

Failure of commissioner to act.

SEC. 13. If the commissioner, having knowledge of the insolvent condition, or of any violation of law or unsafe practice of any such association, corporation or society under his supervision, such as renders, in his opinion, the conduct of its business hazardous to its shareholders, creditors or depositors, shall fail to take the proper action required by this act, or shall refuse or neglect to perform the official duties pertaining to his office, then upon conviction thereof the office of such commissioner shall be declared vacant by the governor, and a successor be appointed to fill the unexpired term.

Assessments for salaries and support.

SEC. 14. To meet the salaries and expenses provided for by this act, the commissioner shall require every association, corporation or society licensed by him or coming under his supervision to pay in advance, to him, and prior to the issuance of any license, its pro rata amount of all such salaries and expenses, and it is hereby made the duty of every such association, corporation or society to pay the same; such pro rata shall be fixed and determined by the proportion which its assets bear to the aggregate assets of all such associations, corporations, or societies, receiving licenses, as shown by the last reports of such corporations, associations, or societies to the commissioner. On or before the thirtieth day of December, in each year, the commissioner shall notify each of such associations, corporations or societies, through the United States mail, of the amount assessed and levied against it and that the same must be paid within twenty days thereafter; and should payment not be made to him within said twenty days, he shall then assess and collect a penalty, in addition thereto, of ten per cent per day for each day that such payment may be delayed or withheld; *provided, however,* that in the levy and collection of such assessment, no such association, corporation or society shall be assessed for, nor be permitted to pay less than ten dollars per annum, and any such association hereafter formed in this state, shall be required to pay not less than one dollar per month for the unexpired term ending December thirty-first, succeeding application; and in like manner any such association organized outside this state shall be required to pay not less than three dollars per month, for such unexpired term, for its first license.

Requirement for license and renewal; commissioner may revoke license.

SEC. 15. It shall be the duty of the commissioner to require every such association, corporation or society coming under his supervision, to procure from him, prior to the transaction of any business, a certificate of authority or license to transact business in this state; and it is hereby made the duty of every association, corporation or society to comply with such requirement. To procure such license, there must be filed with and approved by the commissioner, a certified copy of its articles of incorporation, constitution and by-laws and all subsequent amendments thereto, accompanied by the license fee herein provided for; and after the expiration of the term for which a license may have been granted to it, no such association, corporation or society shall be permitted to continue to transact business without first procuring a renewal of such license on the terms provided in this act, and any such association, corporation or society violating the provisions hereof shall be subject to a penalty of ten per cent per day of the amount of the license fee required to be paid under section fourteen of this act, in addition thereto, for each day during the continuance of such offense. The commissioner is authorized and empowered to revoke the license of any such association, corporation or society under his supervision, the solvency whereof may have become imperiled by losses or irregularities; and immediately upon the revoking of any such license he shall report the facts to the attorney general, who shall thereupon take such proceedings as are provided in section nine of this act.

Agents' licenses and renewals.

SEC. 15*a*. No person receiving compensation therefor, other than an officer, director or salaried employee, no part of whose compensation consists of commissions, or other than a local resident agent who has resided in the county in which he holds such local agency for a period of not less than one year prior to the time that he took such agency, of a building and loan association or other similar corporation or society which is duly licensed by the commissioner, shall act as solicitor or agent for the sale of the shares of stock, shares of membership, certificates or other securities or forms of investment issued by, or for the securing of loans from any such association, corporation or society until he has first procured from the commissioner a license therefor. To obtain such license there must be filed with the commissioner a duplicate of the authorization or appointment issued to him by, together with a request from, a licensed association, corporation or society that a license be issued to him to act as an agent or solicitor for it, and accompanied by a fee of one dollar. All such licenses shall expire by limitation on the thirtieth day of June succeeding their issue, but may be renewed from time to time, for an additional period of one year upon a request therefor from the association, corporation or society originally applying, and payment of a renewal fee of one dollar. Any such license may be revoked at any time on the application of the association, corporation or society for whom it was issued, or may be revoked by the commissioner for cause.

The commissioner shall keep an alphabetical list of the names of persons to whom such licenses are issued with the date of issue and renewal, and the name of the association, corporation or society for whom such licensee is authorized to act. All such licenses shall be

issued under rules and regulations to be prescribed by the commissioner. (In effect July 27, 1917.)

Bonds of officers to be filed with the commissioner.

SEC. 15*b*. The commissioner shall require all officers and employees of every association, corporation or society licensed by him or coming under his supervision, having access to moneys or negotiable securities of such association, corporation or society in the regular discharge of their duties, before entering upon their duties and throughout the entire term of office and employment, and any subsequent term of office or employment, of such officers or employees to give to the employing association, corporation or society a good and sufficient bond. Such bond shall guarantee the faithful performance of duty on the part of said officers and employees and the safekeeping and proper application of all moneys or property coming into their hands. The commissioner shall prescribe the amount and form of said bond and the term during which it shall run, and the sufficiency of the surety or sureties thereon shall at all times be subject to the approval of the commissioner. Each of such officers and employees shall renew his bond upon the expiration of its term. The commissioner may at any time require an additional bond or security when, in his opinion, any such bond then in force is insufficient. All such bonds shall be filed in the commissioner's office. (Effective July 29, 1927.)

Procedure and powers regarding new associations.

SEC. 15*c*. Before the articles of incorporation of any building and loan association, hereafter desiring to incorporate, under the laws of this state, shall be filed in the office of the secretary of state of the State of California, there must be attached thereto, the certificate of approval of the building and loan commissioner. Such proposed articles shall be submitted to the commissioner, and upon receipt of same, he shall immediately examine into all the facts connected with the formation of such intended corporation, including its location, and proposed incorporators. If it appears to him that such corporation, if formed, will be entitled to commence the business for which it is organized, and authorized under the law to conduct, the commissioner shall execute his certificate of approval; *provided, however,* that the commissioner may refuse to execute such certificate, if, upon his examination and investigation, he has reason to believe that the proposed corporation is to be formed for any business, other than legitimate building and loan business, or that the persons proposing to incorporate such corporation, lack the character and general fitness to engage in such business, or that the name of the proposed corporation is likely to mislead the public, as to its character or purpose, or that the name proposed for such corporation is the same as one already adopted or appropriated by any existing building and loan association in this state, or so similar thereto, as to be likely to mislead the public. (In effect July 24, 1925.)

Restrictions to use of name "building and loan."

SEC. 15*d*. No person, firm, company, association, copartnership, or corporation, either domestic or foreign, unless he or it is the lawful holder of a license, to transact business in this state, issued by the

building and loan commissioner, and then in force, and is actually engaged in carrying on a building and loan business in this state, shall hereafter transact business under any name or title which contains the term "building and loan," nor use any sign or circulate or use any letterhead, billhead, circular, or paper whatever, or advertise in any manner, which indicates that his or its business is the character or kind of business, carried on or transacted by a building and loan association, or which is calculated to lead the public to believe that his or its business is that of a building and loan association. Any violation of any of the provisions of this section shall constitute a misdemeanor, punishable by a fine of not exceeding five hundred dollars, or by imprisonment in the county jail for not exceeding ninety days, or by both such fine and imprisonment. Upon action brought by the commissioner, the court may also issue an injunction, restraining any person, firm, company, copartnership, or corporation from continuing to violate any provision of this section. (In effect July 24, 1925.)

Annual report required and penalty for failure to report.

SEC. 16. The commissioner shall require every association, corporation or society licensed by him, and including associations in liquidation, within thirty days after the close of its annual fiscal term to make a report to him in writing, verified by the oath of its president and secretary, showing accurately its financial condition at the close of such term; such report shall also include all the receipts and disbursements and income and expenses for the term, together with such statistical and other information as may be deemed essential; all and every of such reports shall be in such form as the commissioner may prescribe, and upon blanks to be by him furnished therefor. Every such association, corporation or society is hereby required to make and file all such reports within the time specified herein, and for failure or neglect so to do shall be subject to a penalty of ten dollars per day for each and every day the same shall be delayed or withheld.

Disposition of moneys—Revolving fund.

SEC. 17. The collection of all moneys assessed, as herein provided, for the payment of salaries and annual expenses, or forfeitable as fines for failure to make payment of assessments, procure licenses, or make and file reports as herein specified, and due from any such association, corporation or society coming within the provisions of this act, or imposed as a penalty for violation of any order or summons, may be enforced by the commissioner by action instituted in any court of competent jurisdiction; and all moneys collected or received by the commissioner under this act, shall be deposited with the state treasury, to be credited to a fund to be known and designated as the "building and loan inspection fund"; which said fund shall only be used in defraying the salaries and expenses provided for by this act; *provided, however,* that the commissioner shall, without at the time furnishing vouchers and itemized statements, withdraw from said fund, a sum not to exceed five hundred dollars. The sum so drawn shall be used as a revolving fund where cash advances are necessary and at any time upon the demand of the board of control, must be accounted for and substantiated by vouchers and itemized statements submitted to and audited by the board of control and the controller. (In effect July 24, 1925.)

Repealing act of 1905 and earlier acts.

SEC. 18. An act approved March 21, 1905, entitled "An act creating a bureau of building and loan supervision; providing for the appointment of administration officials therefor to be known as the building and loan commissioners; prescribing their duties, powers and compensation; providing for a secretary, his powers and compensation; providing for the rental of offices for the use of the bureau and for traveling and office expenses; providing a system for licensing building and loan and other associations, and for assessing and collecting the license fees necessary to meet the salaries and other expenses; providing a course of procedure where violations of law, or unsafe practices are found to exist, or are reported by the commissioners to the attorney general; providing for involuntary liquidation by trustees, and proceedings in connection therewith; providing for exemption of property of associations in liquidation from attachments, executions and liens, pending liquidation; providing for and requiring associations to procure licenses, pay assessments levied for pro rata of salaries and expenses, and to make and file reports; providing penalties for violations of law and orders of the commissioners; providing for succession in office, and repealing all acts and parts of acts in conflict herewith." Also an act approved March 23, 1907, entitled "An act to amend section sixteen (16) of an act entitled 'An act creating a bureau of building and loan supervision; providing for the appointment of administration officials therefor to be known as the building and loan commissioners; prescribing their duties, powers and compensation; providing for a secretary, his powers and compensation; providing for the rental of offices for the use of the bureau and for traveling and office expenses; providing a system for licensing building and loan and other associations, and for assessing and collecting license fees necessary to meet the salaries and other expenses; providing a course of procedure where violations of law, or unsafe practices are found to exist, or are reported by the commissioners to the attorney general; providing for involuntary liquidation by trustees, and proceedings in connection therewith; providing for exemption of property of associations in liquidation from attachments, executions, and liens pending liquidation; providing for and requiring associations to procure licenses, pay assessments levied for pro rata of salaries and expenses, and to make and file reports; providing penalties for violations of law and orders of the commissioners; providing for succession in office, and repealing all acts and parts of acts in conflict herewith,' " approved March 21, 1905, relating to and providing for reports to building and loan commissioners and the publication thereof. Also an act approved March 20, 1909, entitled "An act creating a bureau of building and loan supervision; providing for the appointment of administration officials therefor to be known as the building and loan commissioners; prescribing their duties, powers and compensation; providing for a secretary, his powers and compensation; providing for the rental of offices for the use of the bureau and for traveling and office expenses; providing a system for licensing building and loan and other associations, and for assessing and collecting license fees necessary to meet the salaries and other expenses; providing a course of procedure where violations of law, or unsafe practices are found to exist or are reported by the commissioners to the attorney general; providing for involuntary liquidation by trustees,

and proceedings in connection therewith; providing for exemption of property of associations in liquidation from attachments, executions and liens pending liquidation; providing for and requiring associations to procure licenses, pay assessments levied for pro rata of salaries and expenses, and to make and file reports; providing penalties for violations of law and orders of the commissioners; providing for succession in office, and repealing all acts and parts of acts in conflict herewith," approved March 21, 1905, relating to the powers and duties and salaries of the state building and loan commissioners, and all acts or parts of acts inconsistent with the provisions of this act are hereby repealed.

Transfer of powers from board of commissioners to commissioner.

SEC. 19. The building and loan commissioner provided for by this act shall be the successor in interest of, and shall succeed to all the rights, powers and privileges possessed by, the building and loan commissioners under and by virtue of that certain act entitled "An act approved March 21, 1905, as amended March 23, 1907, and as amended March 20, 1909, entitled 'An act creating a bureau of building and loan supervision; providing for the appointment of administration officials therefor to be known as the building and loan commissioners; prescribing their duties, powers and compensation; providing for a secretary, his powers and compensation; providing for the rental of offices for the use of the bureau and for traveling and office expenses; providing a system for licensing building and loan and other associations, and for assessing and collecting the license fees necessary to meet the salaries and other expenses; providing a course of procedure where violations of law or unsafe practices are found to exist, or are reported by the commissioners to the attorney general; providing for involuntary liquidation by trustees, and proceedings in connection therewith; providing for exemption of property of associations in liquidation from attachments, executions and liens, pending liquidation; providing for and requiring associations to procure licenses, pay assessments levied for pro rata of salaries and expenses and to make and file reports; providing penalties for violations of law and orders of the commissioners; providing for succession in office and repealing all acts and parts of acts in conflict herewith' "; and any and all actions or proceedings taken or commenced by the said building and loan commissioners, under the act aforesaid, shall continue in full force and effect and the said actions and proceedings shall not abate and the said building and loan commissioner provided for by this act shall be substituted for and continue in the place and stead of the said building and loan commissioners under the act aforesaid, and likewise all books, documents, records and property of every kind and description obtained or possessed by the building and loan commissioners or their secretary or clerks, examiners or employees under the provisions of the said act of March 21, 1905, shall immediately be turned over and delivered to the said building and loan commissioner herein provided for.

Title of act.

SEC. 20. This act shall be known as the building and loan commission act.

When in effect.

SEC. 21. This act shall take effect immediately.

ADDITIONAL LAWS.

(Not included in sections 633 to 648a, inclusive.)

An act making full paid investment certificates issued by any building and loan association licensed by, and under the direct supervision of the building and loan commissioner of the State of California in accordance with the provisions of title sixteen, part four, division first of the Civil Code, legal investments for certain purposes.

The people of the State of California do enact as follows:

SECTION 1. All full paid investment certificates issued by any building and loan association licensed by, and under the direct supervision of the building and loan commissioner of the State of California in accordance with the provisions of title XVI of part IV of division I of the Civil Code shall be legal investments for the funds of executors, administrators, guardians, receivers, and trustees of every kind and nature, and for the funds of all insurance companies.

SEC. 2. This act is intended to be, and shall be considered, the latest enactment upon the matters herein contained, and is supplemental to any and all other acts regulating, relating to and declaring what shall be, legal investments for the funds of executors, administrators, guardians, receivers or trustees or for the funds of insurance companies. (Effective July 29, 1927.)

An act to amend sections six hundred sixteen and six hundred seventeen of the Civil Code of the State of California, relating to cemetery corporations.

The people of the State of California do enact as follows:

SECTION 1. Section 616 of the Civil Code of the State of California, is hereby amended to read as follows:

616. Any corporation organized to establish and maintain, or to improve, a cemetery, may take and hold any property bequeathed, granted, or given to it in trust, to apply the proceeds or income thereof to any and all of the following purposes: To the improvement or embellishment of such cemetery or of any lot therein; or to the erection, renewal, repair or preservation of any monument, fence or other structure in such cemetery; or to the planting or cultivation of trees, shrubs, or plants in or around such cemetery, or any lot therein; or to the improving, ornamenting, or embellishing of such cemetery, or any lot therein, in any other mode or manner not inconsistent with the purposes for which such cemetery was established or is being maintained. Such property and the proceeds or income thereof shall be invested and reinvested in bonds of the United States, or of this state, or of any municipality of this state, or in first mortgages on real estate, or in centrally located income producing improved real estate in any city, or city and county in this state, or in investment certificates of any building and loan association organized and existing under the laws of this state, if such investment is not repugnant to the terms of the bequest, grant, or gift.

SEC. 2. Section 617 of the Civil Code of the State of California, is hereby amended to read as follows:

617. Any cemetery corporation or association under contract for the perpetual care of a certain lot or lots in the cemetery of said corporation or association, is hereby expressly forbidden to use the funds received for the perpetual care of any lot or lots under such contract or contracts, for any other purpose than to provide the perpetual care mentioned in said contract, and it shall be the duty of the board of directors, or board of trustees of a cemetery corporation or association receiving funds from perpetual care contracts, to invest or reinvest such funds in bonds of the United States or the State of California, or of any county, city and county, or city, of the State of California, or in first mortgages on real estate, or in centrally located income producing improved real estate in any city or city and county in this state, or in bonds legal for investment by savings banks in this state, or in investment certificates of any building and loan association organized and existing under the laws of this state. (Effective July 29, 1927.)

An act to add a new section to the Code of Civil Procedure to be numbered one thousand four hundred fifty-four a, relating to the collection of money by heirs.

[Approved by the Governor April 13, 1927.]

The people of the State of California do enact as follows:

SECTION 1. A new section is hereby added to the Code of Civil Procedure to be numbered 1454*a*, and to read as follows:

1454*a*. The surviving husband or wife, or the guardian of the estate of any insane or incompetent husband or wife, of any deceased person, or if no husband or wife is living, then the children, or the guardian of the estates of any minor or insane or incompetent children of said deceased, or, if no children are living, then the father or mother or guardian of the estate of any insane or incompetent father or mother of such decedent, and if neither the father nor mother is living, then the brothers and sisters or the guardian of the estates of any minor or insane or incompetent brothers and sisters of such decedent may, without procuring letters of administration, collect any and all moneys which such decedent, if living, would have been entitled to collect from any building and loan association in this state, including any moneys of such decedent invested in, or represented by, shares of stock, membership shares, investment certificates, promissory notes or other evidences of indebtedness, standing in his name, on the books or records of such association, at the time of his death; *provided*, that all of such moneys do not, in the aggregate, exceed the sum of one thousand dollars. Any building and loan association upon receiving an affidavit stating that said investor in, or creditor of, such association is dead, and that affiant is the surviving husband or wife or the guardian of the estate of an insane or incompetent surviving husband or wife, as the case may be, of said decedent, or stating that decedent left no husband or wife,

and that affiant is the child, or that affiants are the children, or the guardians of the estates of the minor, insane or incompetent children, as the case may be, of said decedent, or stating that decedent left neither husband, wife nor children, and that affiant is the father or mother, or the guardian of the estate of the insane or incompetent father or mother, as the case may be, of said decedent, or stating that the decedent left neither husband, wife, children, father nor mother, and that affiants are the brothers and sisters, or the guardians of the estates of the minor, insane or incompetent brothers and sisters, as the case may be, of said decedent, and that the entire amount of investments of said decedent in shares of stock, membership shares, investment certificates, promissory notes and other evidences of indebtedness, standing in his name on the books or records of any and all building and loan associations in this state, at the time of his death, including all moneys owing to said decedent, at the time of his death, from any such association in this state, does not exceed in the aggregate the sum of one thousand dollars, may pay to said affiant or affiants any and all such moneys, if the total amount thereof does not exceed the sum of one thousand dollars and the receipt of such affiant or affiants shall constitute sufficient acquittance therefor and shall fully discharge such association from any further liability with reference thereto. (Effective July 29, 1927.)

PENAL CODE, SECTION 563c.

Any person who wilfully and knowingly makes, circulates or transmits to another or others any statement or rumor, written, printed or by word of mouth, which is untrue in facts and is directly or by inference derogatory to the financial condition or affects the solvency or financial standing of any building and loan association, doing business in this state, or who knowingly counsels, aids, procures or induces another to start, transmit or circulate any such statement or rumor, is guilty of a misdemeanor punishable by a fine of not more than one thousand dollars or by imprisonment for not more than one year, or both. (Effective July 29, 1927.)

PENAL CODE, SECTION 564.

Every director, officer, or agent of any corporation or joint stock association, who knowingly concurs in making, publishing, or posting either generally or privately to the stockholders or other persons, any written report, exhibit, or statement of its affairs or pecuniary condition, or book or notice containing any material statement which is false, or any untrue or wilfully or fraudulently exaggerated report, prospectus, account, statement of operations, values, business, profits, expenditures, or prospects, or any other paper or document intended to produce or give, or having a tendency to produce or give, the shares of stock in such corporation a greater value or a less apparent or market value than they really possess, or refuses to make any book or post any notice required by law, in the manner required by law, is guilty of a felony.

INSTRUCTIONS FOR FORMING NEW ASSOCIATIONS.

Effective on and After July 1, 1926.

First—A "Guarantee Capital" association, irrespective of the authorized capital, has certain paid-in capital requirements.

To organize "Guarantee Capital" associations in the following cities, there must be a paid-in capital of $100,000 or more:

Los Angeles, Oakland, San Francisco.

To organize "Guarantee Capital" associations in the following cities, there must be a paid-in capital of $75,000 or more:

Berkeley,	Long Beach,	Sacramento,	San Jose,
Fresno,	Pasadena,	San Diego,	Stockton.

To organize "Guarantee Capital" associations in the following cities, there must be a paid-in capital of $50,000 or more:

Alameda,	Glendale,	Redlands,	Santa Cruz,
Alhambra,	Lodi,	Richmond,	Santa Monica,
Bakersfield,	Modesto,	Riverside,	Vallejo,
Burlingame,	Ontario,	San Bernardino,	Venice,
Chico,	Palo Alto,	Santa Ana,	Whittier.
Eureka,	Pomona,	Santa Barbara,	

To organize "Guarantee Capital" associations in the following cities, there must be a paid-in capital of $25,000 or more:

Anaheim,	Hanford,	Oroville,	Santa Clara,
Arcadia,	Hayward,	Oxnard,	Santa Maria,
Auburn,	Hemet,	Pacific Grove,	Santa Paula,
Belvedere,	Hollister,	Paso Robles,	Santa Rosa,
Beverly Hills,	Huntington Beach,	Petaluma,	Sausalito,
Brawley,	Huntington Park,	Pico,	Selma,
Burbank,	Inglewood,	Pittsburg,	Sherman,
Calexico,	La Mesa,	Pleasanton,	South Pasadena,
Chino,	Lankershim,	Porterville,	So. San Francisco,
Chula Vista,	Livermore,	Red Bluff,	Taft,
Colton,	Madera,	Redding,	Tiburon,
Compton,	Martinez,	Redondo,	Torrance,
Corona,	Marysville,	Redwood City,	Tulare,
Cucamonga,	Merced,	Rialto,	Turlock,
Culver City,	Mill Valley,	Roseville,	Upland,
El Centro,	Monrovia,	Salinas,	Van Nuys,
Elsinore,	Montebello,	San Fernando,	Ventura,
Encinitas,	Monterey,	San Gabriel,	Visalia,
Escondido,	Napa,	San Leandro,	Watsonville,
Fillmore,	Newcastle,	San Luis Obispo,	Wilmington,
Fortuna,	Ocean Park,	San Mateo,	Woodland.
Fullerton,	Oceanside,	San Pedro,	
Grass Valley,	Orange,	San Rafael,	

All shares of "Guarantee Capital" stock must be in denominations of $100 and when sold to provide for the necessary initial paid-in capital, must be fully paid up.

In organizing a "Guarantee Capital" association, an organization fund of not less than $10 per share on the shares actually subscribed must be provided.

Second—Select a name not now in use by any association in the state, embracing the words "Building and Loan Association," or "Building-Loan Association," and submit it to this office for approval, which, after approval, should then be submitted to the Secretary of State that he may advise if it is available for use. The words "Trust" or "Savings" must not be used as a part of the corporate name.

Third—Apply to this office for the loan of a "sample" form of articles of incorporation, which, after being prepared, but before being executed, must be submitted to this office that we may ascertain if it is in proper form, and, if found satisfactory, return for execution.

After being executed the original and a duplicate must be forwarded to this office that the certificate required by section 15c of the Building and Loan Commission Act may be attached before the original can be filed with the Secretary of State, or a certified copy with the county clerk of your county.

Fourth—Apply to this office for the loan of a "sample" form of the by-laws provided for in the articles of incorporation, then prepare your by-laws and submit them to this office for approval, after which they can be regularly adopted.

Fifth—As section 15c of the Building and Loan Commission Act provides that the commissioner shall examine into the general character and fitness of persons proposing to incorporate associations, it will be necessary to submit a brief history of the incorporators and directors; references should also be given to assist the commissioner in his investigation.

Sixth—After the by-laws have been adopted, forward a copy of the by-laws, a copy of the articles of incorporation, a list of the stockholders showing the number of shares of guarantee capital stock fully paid up and the total amount of money paid in, a certificate from your bank showing that there is on deposit to the credit of the association the above required $25,000, $50,000, $75,000 or $100,000 for a "Guarantee Capital" association, plus the above requirement for organization expenses, together with a check to the order of the "Building and Loan Commissioner," for the equivalent of $1 per month for the number of months unexpired of the calendar year, and a license will be issued to expire December 31st next.

Seventh—All moneys collected for the organization fund must be paid into the treasury to the credit of that fund to be used to defray the expenses of the association until it has been placed on a self-supporting basis.

Eighth—No window, door or office signs of any kind, advertising the proposed association, may be displayed until the organizers have been assured by this department that a license will be granted to the association, or until such license has actually been granted.

Ninth—Manuscripts or proofs of circulars or advertisements must be submitted to the commissioner for approval before being printed or circulated.

ARTICLES OF INCORPORATION OF A GUARANTEE CAPITAL ASSOCIATION.

KNOW ALL MEN BY THESE PRESENTS:

That we, the undersigned, citizens and residents of the State of California, have this day voluntarily associated ourselves together for the purpose of forming a corporation under the laws of the State of California.

AND WE HEREBY CERTIFY.

First—That the name of said corporation shall be_____

_____

Second—That the purposes for which said corporation is formed are to encourage industry, frugality, home-building, and savings among its shareholders, members and others; the accumulation of savings; the loaning to its shareholders, members and others of the moneys or funds so accumulated, with the profits and earnings thereon, and the repayment to each of his savings and profits, whenever they have accumulated to the full par value of the shares, or at any time when he shall desire the same or when the corporation shall desire to repay the same, as it may be provided in the by-laws; and generally to do any and all other acts and things authorized by law, and more particularly by and under Title XVI, Part IV, Division I of the Civil Code of the State of California, and for all the purposes and with all the rights, powers, privileges and immunities in said title set forth.

Third—That the place where the principal business of said corporation is to be conducted is in the city of _____, in the county of _____, State of California.

Fourth—That the term for which said corporation is to exist is fifty (50) years from and after the date of its incorporation.

Fifth—That the number of directors of said corporation shall be_____, a majority of whom shall at all times each be the owner and holder of not less than _____ shares of the guarantee capital stock, and that the names and residences of the directors who are appointed for the first year and to serve until the election and qualification of their successors are as follows, to wit:

NAMES	WHOSE RESIDENCE IS
_____	_____

Sixth—That the amount of the capital stock of this corporation is_____ dollars, and the number of shares into which it is divided is _____ of the par value of one hundred dollars ($100) each, all of which, when issued, shall be set apart as a fixed and permanent guarantee capital. Additional working capital may be accumulated by the issuance of membership shares, units and certificates, both installment and fully paid as provided for in section 648*a* of the Civil Code.

Seventh—That the amount of said capital stock which has been actually subscribed is _____ dollars and the following are the names of the persons by whom the same has been subscribed, to wit:

NAMES OF SUBSCRIBERS	NUMBER OF SHARES	AMOUNT
_____	_____	_____
_____	_____	_____

IN WITNESS WHEREOF, we have hereunto set our hands this_____ day of _____ A. D., 192____.

_____

_____

_____

State of California }
County of_____} ss.

On this _____ day of _____, A. D. 192____, before me _____, a notary public in and for said county, residing therein, duly commissioned and sworn, personally appeared _____

_____

known to me to be the persons whoe names are subscribed to the foregoing instrument, and they each duly acknowledged to me that they executed the same.

IN WITNESS WHEREOF, I have hereunto set my hand and affixed my official seal, at my office in said _____ county, the day and year in this certificate first above written.

_____

(SEAL) Notary Public in and for the County of

State of California.

BY-LAWS OF A GUARANTEE CAPITAL ASSOCIATION.

ARTICLE I.

NAME, LOCATION AND OBJECTS.

Section 1. This corporation shall be known as the _____ _____ of _____, California.

Sec. 2. The principal place of business of the corporation shall be in the city of _____, County of _____, State of California.

Sec. 3. The object and purpose of this corporation shall be to encourage industry, frugality and the accumulation of savings among its shareholders, members and others, and to make loans to its shareholders, members and others for the purpose of aiding them in acquiring and improving real estate.

ARTICLE II.

GUARANTEE CAPITAL STOCK.

Section 1. The capital stock of this corporation shall be _____ divided into _____ shares of a par value of one hundred dollars each, all of which shall be a guarantee capital, and shall be issued at such times and in such amount as the board of directors may determine. It shall be sold upon subscriptions, at not less than par, payable not less than _____ per cent at the time of subscription, and the balance as may be ordered by the board of directors. This stock is not withdrawable until final liquidation, and no loans shall ever be made upon the pledge of any of its shares, as security, to the corporation.

Sec. 2. A majority of the board of directors shall always be selected from the holders of shares of the guarantee capital holding in their names ten shares or more of guarantee stock, and the minority may be selected from the holders of membership shares.

Sec. 3. The guarantee capital stock shall participate in the net earnings of the association to the full extent permitted under the provisions of section 641 of the Civil Code. As provided in said section, an amount not exceeding one per cent per annum on the average loans in force, may be set aside from and out of the net profits, at each annual distribution thereof, or a proportionate amount at each semiannual distribution, from which to declare dividends on and provide a reserve fund that shall be specially applicable thereto. The reserve fund shall be created and maintained in amount as provided in said section.

ARTICLE III.

OFFICERS.

Section 1. The affairs of the corporation shall be managed by a board of _____ directors, who shall be elected annually from the shareholders and members, in the manner provided by law, to hold office for one year, and until their successors are duly elected and qualified.

Sec. 2. Immediately following the annual meeting of the shareholders and members, the directors shall organize by the election of a president, and one or more vice presidents from among their own members, a secretary and one or more assistant secretaries, who may or may not be directors but must be shareholders or members. They shall also select an attorney and a treasurer; provided that a banker or banking corporation may be selected as a treasurer or depository. They shall also select from their own number a security committee to consist of three members, and a finance committee to consist of two members.

ARTICLE IV.

POWERS AND DUTIES OF DIRECTORS.

Section 1. The board of directors shall have power:

First—To suspend or remove, for cause, any elected or appointed officer of the corporation.

Second—To require any officer to produce for inspection at any time, any or all books, papers or documents in his possession relating to the business of the corporation.

Third—To fill all vacancies that may occur in the board of directors or elected or appointed officers.

Fourth—To loan the funds of the corporation, or such portion thereof as may be advisable, upon such securities as are provided by law, and to prescribe the terms and conditions upon which loans may be made; *provided*, that whenever loans are made upon the definite contract plan the body of the note or obligation shall set forth the number of installments, and the amount of each installment required to repay the principal of the loan, together with the interest on the periodical unpaid balances, within the time agreed upon, the exact rate of interest to be specified in each note or obligation.

Fifth—To borrow money for the purpose of making loans or with which to pay withdrawals or maturities.

Sec. 2. A majority of the board shall constitute a quorum for the transaction of business; provided that no action relating to the final disposition of funds or other financial matters under consideration shall become effective except by an affirmative vote of a majority of the whole board.

Article V.

DUTIES OF OFFICERS.

PRESIDENT AND VICE PRESIDENT.

Section 1. It shall be the duty of the president, or in his absence, of one of the vice presidents:

First—To preside at all meetings of the shareholders and members of the board of directors; to sign all certificates of stock or membership, contracts, deeds, leases, releases, and orders on the treasurer for the payment of money, and to perform such other duties as may be ordered by the board of directors.

SECRETARY.

Section 1. It shall be the duty of the secretary, or in his absence, of the assistant secretary:

First—To attend all meetings of the corporation, and of the board of directors and to keep correct minutes thereof; to receive and receipt for all moneys paid to the corporation, to endorse all checks or drafts made payable to its order, and to deposit with the treasurer or depository all funds coming into his or her possession and take a proper receipt therefor.

Second—To keep proper and accurate accounts with the shareholders, members and investors; to draw and sign all orders on the treasury or depository; to countersign all documents requiring the signature of the president or vice president, and to affix the seal of the corporation whenever such is required to authenticate the acts of the corporation.

Third—To furnish the board of directors at each monthly meeting with a statement of financial and other transactions since the prior report and semiannually, immediately after the first day of _____ and _____, of each year, a statement of the condition of the corporation and of the business of the past semiannual term, and, after approval by the board, to cause the same to be printed for the information of the shareholders and members.

Fourth—To have the custody of, and properly care for, all notes, mortgages, deeds of trust, deeds, leases, insurance policies and other documents pertaining to the business of the association, subject only to the orders of the board of directors.

Fifth—To require that the interest of the corporation in any property or building it may own or on which it may have a loan is properly insured, in an acceptable insurance company, against loss or damage by fire.

Sixth—To protect the interest of the corporation in all tax sales or forfeitures, and for this purpose to draw on the treasurer for the proper funds, without further notice or orders of the board; *provided, however*, he or she shall report the facts at the first stated meeting of the board thereafter.

Seventh—To deliver to his or her successor all books, vouchers, securities, documents and property of every kind, of which he or she is the custodian for the corporation, whenever he or she may retire from office, or within three days thereafter.

Eighth—To do and perform such further acts as may be required by the board of directors.

TREASURER OR DEPOSITORY.

Section 1. It shall be the duty of the treasurer or depository to receive all moneys deposited by the secretary for account of the corporation, and to disburse same only on orders signed by the secretary and countersigned by the president or a vice president, and to render a proper account thereof at the close of each month.

ATTORNEY.

Section 1. It shall be the duty of the attorney to attend the meetings of the board of directors whenever requested to do so; to examine into the sufficiency of title of any property offered as security for loans that may be referred to him, and to perform such other duties and render such other services as may be requested by the board of directors.

COMMITTEES.

SECURITY COMMITTEE.

Section 1. It shall be the duty of the security committee to ascertain the market value of each and every piece of property offered as security for any proposed loan and to report thereon, in writing, at the next meeting of the board of directors.

Sec. 2. Every application for a loan shall be approved in writing by at least two members of said committee before the loan shall be made.

FINANCE COMMITTEE.

Section 1. It shall be the duty of the finance committee:

First—To examine and report upon all bills or claims against the corporation, prior to the same being ordered paid.

Second—To examine and report upon the books and accounts of the secretary and treasurer, at least semiannually, and for that purpose, they may employ an expert of accounts to assist them, at a compensation to be fixed by the board of directors.

ARTICLE VI.

BONDS AND SALARIES.

Section 1. The secretary and treasurer (except where the treasurer shall be a bank or bankers), and such other employees as the board of directors shall determine, shall give bond, as security for the faithful performance of their duties, in such amount as the board of directors shall from time to time require, with corporate surety, the expense to be borne by the association.

All subject to the approval of the State Building and Loan Commissioner.

Sec. 2. The president, vice presidents, secretary, treasurer, assistant secretary, assistant treasurer, attorney, and the members of the security and finance committees shall receive such compensation for their services as the board of directors shall determine.

Sec. 3. The compensation of the directors, as such directors, in excess of five dollars each, for each meeting attended, shall be fixed by the stockholders at the annual meeting.

ARTICLE VII.

MEETINGS.

Section 1. The annual fiscal term shall end_____ and the annual meeting of the stockholders and members shall be held at the office of the corporation, at _____, California, on the _____, in each year, notice of which must be given in the manner prescribed in section 301 of the Civil Code. Special meetings may be called by the board of directors, on their own initiative, and shall be called upon the written request of ten or more shareholders and members. Notice of special meetings shall be mailed to each shareholder and member, at his last known address, at least two weeks prior to the date of holding such meeting.

Sec. 2. The board of directors shall convene for the transaction of business on _____ in each month, and as much oftener as the necessities of business may demand. Notice of all meetings of the board of directors shall be given to each director in writing, by the secretary, at least twenty-four hours prior to the time of the holding of the meeting.

Sec. 3. All meetings of the board of directors shall be open to all shareholders and members.

Article VIII.

MEMBERSHIP SHARES.

Section 1. Membership shares having an ultimate matured or par value of _____ dollars each may be issued in either of the following forms, viz: "Installment" or "Full paid."

Sec. 2. Installment membership shares, Class "A," may be subscribed for and issued at any time. Each subscriber to those shares shall on or before the_____ pay dues in an amount not less than _____ upon each share held by him, until such payments, together with the profits apportioned thereto, shall amount to the sum of one hundred dollars for each of such shares, at which time the shares shall mature and payments thereon shall cease.

Sec. 3. Installment membership shares, Class "D.C.," whenever authorized by the board of directors, will be issued only to borrowers on mortgage or deed of trust security, and then only to those who borrow on the "Definite Contract" plan. The monthly payment of dues on this class will be five cents per share of one hundred dollars matured or par value, and must be paid with, and in addition to, the monthly payments required to be paid upon the loan. Such shares shall participate pro rata with other classes of installment shares in the net profits subject to distribution, and, upon the repayment of the loan with which they are pledged, the then book value will be paid to the borrower, or credited as part payment on the loan, and the shares surrendered and canceled.

Sec. 4. Full paid membership shares may be issued at such times as the board of directors may determine to any subscriber paying in the full face value of one hundred dollars ($100) each. Dividends at such rate per annum as may be fixed by the board of directors, not in excess of six per cent (6%) per annum, shall be paid on these shares, semiannually in _____ and _____, and in consideration of such payments the holders shall waive all right to further participation in profits of the corporation. These shares are withdrawable, with accrued interest to the date of the notice, at any time after thirty (30) days written notice of the intention to withdraw, but subject in other respects to the restrictions set forth in section 542 of the Civil Code. The corporation reserves the right to retire any or all these shares, in the order of issuance, at any time after two years from issue, upon sixty (60) days written notice to the holders by paying the face value plus accrued interest to date of expiration of notice.

Sec. 5. Full paid membership shares may also be issued at such times as the board of directors may determine to subscribers paying in the full face value of one hundred dollars ($100) per share. Dividends at such rate per annum as may be fixed by the board of directors, not exceeding a full participation in the net profits, shall be paid on these shares, semiannually in _____ and _____.

Sec. 6. Holders of either form of membership shares are members of the corporation, with all the rights, powers and privileges incident thereto, including the right to vote at all meetings of the shareholders and members—one vote for each share—and are subject to the same restrictions and liabilities.

Sec. 7. An entrance fee of not exceeding one dollar ($1) per share may be charged and collected upon all installment membership shares.

Article IX.

INVESTMENT CERTIFICATES.

Section 1. Investment certificates having an ultimate matured or par value of one hundred dollars ($100) each, may be issued in either of the following forms: "Installment investment certificates" and "Full paid investment certificates."

Sec. 2. Installment investment certificates may be subscribed for and issued at any time. Each subscriber to these certificates shall, on or before the _____ day of each month, pay dues in an amount of not less than _____ upon each certificate held by him, until such payments, together with the profits apportioned thereto, shall amount to the sum of one hundred dollars ($100) for each of such certificates, at which time the certificates will mature and payments may cease. An entrance fee of one dollar ($1) per certificate may be charged and collected upon this class of installment investment certificates.

Sec. 3. Installment investment certificates may also be issued, upon which payments may be made at such times and in such amounts as the holder thereof may elect until said certificates reach their matured value or are withdrawn. No

membership fee, fine or forfeiture shall be chargeable against the holder of these certificates.

Sec. 4. Full paid certificates may be issued at such times as the board of directors may determine, to any subscriber paying in the full face value of one hundred dollars ($100) each. Dividends at such rate per annum as may be fixed by the board of directors will be paid semiannually on these certificates, in _____ and _____, and in consideration of such payments the holders shall waive all right to participation, in excess thereof, in the profits of the corporation. These investment certificates are withdrawable, with accrued unpaid interest, to date of notice, at any time after one year from date of issue, upon thirty (30) days written notice of intention to withdraw, but otherwise subject to the restrictions set forth in section 642 of the Civil Code. The corporation reserves the right to retire any or all of these certificates, in the order of issuance, at any time after two years from date of issue, upon sixty (60) days written notice to the holder, upon the payment of the face value plus accrued and unpaid interest to date of expiration of notice.

Sec. 5. Holders of either form of these investment certificates are *not* members of the corporation and have none of the rights, power and liabilities incident thereto.

Article X.

WITHDRAWAL AND MATURITIES.

Section 1. Holders of installment membership shares, and of installment investment certificates, desiring to withdraw a part or all of the amount to the credit of their shares or certificates, may do so by giving thirty (30) days written notice of their intention or desire so to do. On the expiration of such notice, they are entitled to receive the full amount paid in upon their membership shares or investment certificates, exclusive of any entrance fee charged and collected, together with such proportion of the earnings thereon as may have been fixed by the board of directors; provided that not more than one-half of the monthly receipts of any one month shall, without the consent of the board of directors, be applicable to withdrawals for that month. All withdrawals will be paid in succession and in the order in which the notices of intenton were filed. Shares or certficates pledged as security for or with a loan can not be withdrawn in money until the loan is fully paid.

Article XI.

LOANS.

Section 1. Loans may be made on such terms and at such rate of interest as the board of directors may determine; provided that whenever loans are made for a definite period on the installment plan, the number of installments, and the amount of each installment required to pay the principal of the loan together with interest at the agreed rate on the periodical balances, within the time specified, must be expressed in the face of the note or obligation taken.

Sec. 2. Loans will only be made upon the security of a first mortgage or deed of trust of real estate, the several classes of bonds named in section 647 of the Civil Code, and upon the security or pledge of free "membership shares," or "investment certificates" of this association.

Sec. 3. Loans upon the security of membership shares or investment certificates shall not be made in excess of ninety per cent of the withdrawal value of such shares or certificates.

Sec. 4. Loans made for a definite period on the installment plan may be repaid at any time by paying the balance then unpaid on the principal and all arrears of interest, if any. The corporation reserves the right to charge a penalty of two months' interest on the unpaid balance if repaid within one year from date of note, or a penalty of one month's interest on the unpaid balance if repaid after one year from date of the note but in advance of the time set forth in the contract.

Sec. 5. Whenever a borrower shall be three months in arrears in the payment of his interest or loan installments, unless otherwise provided in the note, the whole loan shall become due, at the option of the board of directors, and they may proceed to enforce collection upon the securities held by the corporation. The withdrawal value of all shares or certificates pledged as collateral security shall be applied in part payment of the loan and said shares or certificates shall be deemed canceled and surrendered to the corporation.

Sec. 6. All expenses incident to abstracts, examinations of title, execution of papers, attorney's fees, or sale of securities pledged as security for loans or advances, shall be paid by the party offering the security or securing the loan.

Sec. 7. Borrowers must furnish, at their own expense, acceptable policies of fire insurance on all improved realty pledged as security for loans granted, with the usual mortgage clause making loss, if any, payable to the corporation, as its interest may appear.

Article XII.

FINES AND PENALTIES.

Section 1. Borrowers who neglect or fail to pay their interest or loan installments in accordance with the terms of the note or obligation shall pay interest at not exceeding one per cent per month on the amount of such delinquent indebtedness.

Sec. 2. The same rate of interest shall apply to all advances made by the association for insurance premium, street or sewer assessments, balances due for unpaid taxes on property pledged as security for loans, or other like advances.

Article XIII.

MISCELLANEOUS.

Section 1. Each member or investor shall be entitled to a certificate of "membership shares" or "investment certificates" showing the number of such shares or certificates held, and their par, or ultimate value, and each member or investor holding installment membership shares or installment investment certificates shall also be furnished with a pass book, in which to record the periodical payments made by him, and in which the terms and conditions attaching thereto shall be fully set forth. These certificates may be transferred by assignment, in person or by an attorney, but no such assignment shall be valid, except between the parties thereto until duly entered upon the books of the corporation. A transfer fee of ten cents for each share or certificate transferred will be charged by the corporation.

Sec. 2. In the event of loss of any certificates of stock, membership shares or investment certificates, the recorded owner shall be entitled to a duplicate upon making an affidavit setting forth the facts of the loss and the filing of an acceptable bond, with two or more sureties, in an amount equal to the book value of the certificate lost.

Sec. 3. The board of directors may provide that partial withdrawals, made "mid-term," shall not participate in the earnings on the amount withdrawn, that shall have accumulated since the last apportionment of profits.

Sec. 4. The seal of the corporation shall be circular in form, bearing the name of the corporation and the date when incorporated.

Sec. 5. As to all features not specifically covered by these by-laws, the provisions of sections 633 to 648*a*, inclusive, of the Civil Code shall govern the transaction of business by this corporation.

Article XIV.

Section 1. These by-laws may be amended at any annual or special meeting of the shareholders and members by an affirmative vote of two-thirds of all such shares of stock and membership, issued and in force. The signature of the holders of two-thirds of all such shares shall be effective to adopt such amendments, without the holding of a meeting.

CONSENT TO AND ADOPTION OF BY-LAWS.

We, the undersigned, subscribers to the number of shares of the_____ Building and Loan Association, of _____, set opposite our respective names, in all amounting to more than two-thirds of all subscribed shares, hereby give our written assent and consent to the adoption of the foregoing code of by-laws for the government of said corporation, and we hereby adopt the same.

INSTRUCTIONS TO BE OBSERVED AND FOLLOWED IN THE PREPARATION OF ANNUAL REPORTS.

1. INTEREST delinquent—not actually collected—must be listed on the proper blanks, and must appear in its proper place, as an ASSET, under Arrearages, and must NOT be charged into Loan Account or to Dues Account and credited to Interest, as Interest, subject to distribution as a profit.

2. DIVIDENDS or Interest not actually paid out, on ALL CLASSES of shares or investment certificates, must be set up as a Liability, as is called for in the Report Blanks, and MUST NOT be entered as though disbursed and credited as principal received.

3. Under "Loss and Gain," on the Report Blanks, the actual amounts of Dividends (or Interest) apportioned to the several classes of shares and certificates must be set out separately, as therein called for, and NOT be entered in a lump sum covering all.

4. In the preparation of the "Receipts and Disbursements" be very careful to literally follow the instructions to INCLUDE ALL CASH TRANSACTIONS AND JOURNAL ENTRIES THAT AFFECT ASSETS AND LIABILITIES. Condense both Receipts and Disbursements to conform to the titles of the Accounts as printed in the Blanks.

5. Under "Statistical Information" answer every question and fill every blank space as called for in the Instructions at top.

6. When listing "Loans made since last Report," set forth the location of every loan made upon security located outside the Home City of your association. This list can be more expeditiously and economically prepared upon a typewriter than with a pen.

7. Be very sure that the names of the Officers and Directors appear as called for, and that all Real Estate owned is properly scheduled.

A strict compliance with these instructions will obviate the necessity for returning Reports for correction and completion, and will greatly facilitate the work of this Department, and permit of a more accurate showing in the preparation of the Annual Report of this office for publication, all of which will tend to uniformity and economy and should receive the full cooperation of the several secretaries.

TAXES AND FEES FOR BUILDING AND LOAN ASSOCIATIONS.

State Franchise Tax—

In the past has been 1.8 per cent per annum upon 1/20th of assets, less borrowed money, as per report to State Board of Equalization as of March 1st. Payable to State Treasurer semiannually in January and July.

County and Municipal Taxes—

Payable upon real estate owned, personal property and money in bank.

Building and Loan License Tax—

For new domestic associations, $1 per month for months unexpired for calendar year.

For foreign associations, $3 per month for months unexpired for calendar year.

Annual renewal—Pro rata of estimated expenses, based upon assets as per last report, with a minimum of $10 per year.

Secretary of State—Fees for New Associations—

Authorized capital of not over $25,000	$15 00
Authorized capital over $25,000 and not over $75,000	25 00
Authorized capital over 75,000 and not over 200,000	50 00
Authorized capital over 200,000 and not over 500,000	75 00
Authorized capital over 500,000 and not over 1,000,000	100 00
Authorized capital over 1,000,000 adds $50 for each $500,000 or fraction thereof.	
For recording, per folio	$0 20

LETTER OF TRANSMITTAL

STATE OF CALIFORNIA,
OFFICE OF THE BUILDING AND LOAN COMMISSIONER,
SAN FRANCISCO.

To His Excellency, C. C. YOUNG,
Governor of California,
Sacramento, California.

SIR: In compliance with section 5 of the Building and Loan Commission Act, I have the honor to submit for your consideration the thirty-fifth annual report of this department, setting forth the operations and condition of the building and loan associations of California under my supervision, as reported by the associations during the seventy-ninth fiscal year of the state, ending June 30, 1928.

Respectfully submitted.

GEO. S. WALKER,
Building and Loan Commissioner.

REPORT

OF THE

BUREAU OF BUILDING AND LOAN SUPERVISION

Office of the Building and Loan Commissioner,
San Francisco, California, September 12, 1928.

To His Excellency, C. C. YOUNG,
Governor of California.

SIR: Pursuant to the requirements of section 5 of the Building and Loan Commission Act, I have the honor to submit the thirty-fifth annual report of this department, relating to the condition of the associations under its supervision for the fiscal year ending June 30, 1928.

The "Called Report" as of June 30, 1928, printed herein, gives the combined assets of all the California associations as $337,706,657.32, against $263,441,413.72 for June 30, 1927, a gain of $74,265,243.60 for the year. While this large gain in assets has, in a number of cases, caused some embarrassment to individual associations not prepared to loan extensively, it has, in the main, been absorbed in the regular channels of business. A few associations have reduced their loaning rates and also reduced dividends and interest payable on investment certificates. This reduction by a few is being noticed with great interest by all, many of whom recognize in this the first steps toward placing the business on a more conservative basis. It is now quite probable that before long "5 per cent and safety" will become a building and loan slogan.

With the present great volume of money turning towards building and loan associations, now is the time for those in positions of authority to see to it that all doubtful loan applications be turned down and none but the best be approved. Now also is the time to add to reserves and liquid bonds and maintain larger bank balances than usual.

Because of increased work, and the consequent increase of expense in traveling by our examiners, I have seen fit to divide the state examination work into two divisions. All associations north of the Tehachapi, in the valley, and north of Santa Barbara County, on the coast, are in the Northern Division and under the direct charge of Leo C. McCann. Mr. McCann is a certified public accountant, was for a number of years a chief examiner for the State Corporation Department, and is quick and careful in his work, and in every way qualified for this position. The southern office is in charge of Roy Dorothy, who, before joining the building and loan staff, was for many years an accountant of the State Board of Control. The examination work, however, in the Southern Division, is under the direction and charge of C. C. Barnes, also a certified public accountant and formerly an auditor with the State Board of Control. He is assisted by C. W. Vaught, our newest appointee, selected from the state civil service

list, who we believe will prove a valuable man. The change thus effected is already productive of great good. Many dollars will be saved in traveling expenses, and localization of the deputies is enabling us to catch up with the examination work of this department.

With the continued expansion of the larger associations, new problems are presenting themselves. Applications for branches and agencies are being filed every few days and in most cases should not be allowed. The statutes governing building and loan associations make no provision or regulation for the same. It has now become imperative that some well defined policy should be adopted regarding the establishment of such agencies and branches; yet, your commissioner feels himself powerless in this matter until he has, by legislative enactment, been given the right to license, or refuse to license, branch associations and agencies, and place therein proper restrictions in case such licenses are to be granted.

Because of the great difficulties now being encountered by the tax levying and tax collecting departments of the state and national governments, in defining the various classes of building and loan associations, it has become imperative that our associations should become standardized to the point that such agencies should not be compelled to study the difference between a half dozen or more classes of associations when there should be but two. This office recommends that all associations without guarantee capital stock should become as nearly as possible "mutual," by refraining from issuing investment certificates or notes, and receive investment money only from the sale of shares of stock, or membership shares; while all associations with guarantee capital should refrain from issuing withdrawable shares of stock, or membership shares, and thereby become strictly guarantee stock associations.

I would also recommend standardization as to interest rates on loans, interest to be paid on investment certificates and dividends on shares, to the end that all associations, in a class, in a given territory, have the same rates, and thus eliminate that form of competition which is so conducive of bad feeling and which prevents the close cooperation which is so essential to obtain the very best results.

This report would not be complete without mention of the retirement of James L. Fields, who was secretary of the commission from 1895 to his retirement on October 31, 1927, except for a period of about one year. During the thirty-two years of his work in the commission, Mr. Fields ever had the best interests of the associations at heart and many of our building and loan laws, building and loan computing tables and accounting systems were inaugurated by him. I only regret that, in his retirement, no method could be found to pension him for his splendid work of the past.

In the Appendix to this report, as published, will be found, in condensed form, the annual report of each association, as of the close of its fiscal year, arranged in alphabetical order according to cities and towns; also the latest reports of foreign associations doing business in this state.

Respectfully yours,

GEO. S. WALKER, *Commissioner.*

		216

In addition to the associations enumerated above, there are two foreign associations entitled to operate in California—Western Loan and Building Company, of Salt Lake City, Utah, licensed August 26, 1913, and Intermountain Building and Loan Association, of Salt Lake City, Utah, licensed April 23, 1927.

NEW ASSOCIATIONS LICENSED

The following new associations were licensed by the Commissioner during the past year:

Date Licensed	*Name*	*Location*
July 1, 1927	Superior Building-Loan Association	Sacramento
July 1, 1927	Euclid Guarantee Building and Loan Association	Ontario
July 8, 1927	San Fernando Valley Building and Loan Association	San Fernando
July 9, 1927	Mutual Building and Loan Association	Alhambra
July 13, 1927	Reliance Guaranty Building and Loan Association	Oakland
July 15, 1927	National Guarantee Building-Loan Association	Oakland
July 28, 1927	Fullerton Building-Loan Association	Fullerton
July 28, 1927	Pico-Rivera Building-Loan Association	Pico
Aug. 1, 1927	Thrift Guaranty Building and Loan Association	Los Angeles
Aug. 12, 1927	Orange Belt Building-Loan Association	Colton
Aug. 25, 1927	East Side Mutual Building and Loan Association	Belvedere Gardens
Oct. 28, 1927	Guarantee Building-Loan Association	San Luis Obispo
Nov. 4, 1927	Marysville Guarantee Building and Loan Association	Marysville
Nov. 4, 1927	The Railway Mutual Building and Loan Association	Los Angeles
Nov. 14, 1927	Santa Maria Guarantee Building-Loan Association	Santa Maria
Nov. 21, 1927	Bell Guaranty Building-Loan Association	Bell
Dec. 5, 1927	Continental Building and Loan Association	San Diego
Dec. 28, 1927	Seaboard Building and Loan Association	San Diego
Dec. 29, 1927	United States Building and Loan Association	Bakersfield
Dec. 29, 1927	The Coast Mutual Building-Loan Association	Los Angeles
Jan. 3, 1928	Community Building and Loan Association	Berkeley
Jan. 4, 1928	German-American Building-Loan Association	Los Angeles
Jan. 14, 1928	Washington Building-Loan Association	Venice
Mar. 1, 1928	Consolidated Building and Loan Association	Compton
April 12, 1928	Western States Building-Loan Association	Los Angeles
April 25, 1928	Padway Building and Loan Association	Beverly Hills
April 27, 1928	Surety Bond Building-Loan Association	Burbank
May 2, 1928	Western Security Building and Loan Association	San Francisco
May 11, 1928	Bellflower Building and Loan Association	Bellflower
May 14, 1928	Southeast Building and Loan Association	Huntington Park
June 26, 1928	Southwest Building-Loan Association	Santa Ana

TEN ASSOCIATIONS NOT REPORTING

Ten of the new associations licensed were in operation less than six months prior to the date of their fiscal year, and they were not included in the regular tabulations, as so doing would have materially affected the percentage calculations.

The total assets of these associations were $1,244,728.53.

The location and the names of these associations follow:

Bakersfield—United States Building and Loan Association.
Bellflower—Bellflower Building and Loan Association.
Beverly Hills—Padway Building and Loan Association.
Burbank—Surety Bond Building-Loan Association.
Huntington Park—Southeast Building and Loan Association.
Los Angeles—German-American Building-Loan Association.
San Diego—Seaboard Building and Loan Association.
San Fernando—San Fernando Valley Building and Loan Association.
San Francisco—Western Security Building and Loan Association.
Santa Ana—Southwest Building-Loan Association.

	1927	1928
Net profits reported for year	$13,036,320 46	$16,102,219 06
Percentage to average loans in force	6.881%	6.879%
Average for past ten years	7.011%	6.998%
Percentage of profit to average investment	7.058%	6.891%
Average for past ten years	7.334%	7.290%

Dividends and Interest

The dividends or interest reported as paid or apportioned to installment shares and certificates represent 16 different rates with the lowest at 5 per cent and the highest at 14 per cent. The mean average of all being 6.031%

Apportioned to installments shares	$2,091,426 84
Apportioned to full paid shares	1,200,452 17
Apportioned to investment certificates	10,305,146 08
Apportioned to guarantee capital	1,339,469 20
Total of dividends and interest	$14,936,494 29
Added to surplus, reserve and undivided profits	1,165,724 77
Total net profits	$16,102,219 06

Salaries, Taxes and Other Expenses

The amounts reported as disbursed on account of the above and the percentages to average loans in force are:

For salaries	$1,600,719 28	or 0.684%
For taxes	515,768 43	or 0.220%
For other expenses	2,728,368 13	or 1.165%
Making gross expense of	$4,844,855 84	or 2.069%
The percentage for 1927 was		2.086%

Operating Expenses to Average Loans

Of the above, the percentages directly applicable to operating expenses, aside from taxes, were:

	Percentage for 1927	Percentage for 1928
For salaries	0.673%	0.684%
For other operating expenses	1.156%	1.165%
Total operating expenses	1.829%	1.849%

Operating Expenses to Dues Capital

	Percentage for 1927	Percentage for 1928
Percentage cost for salaries	0.691%	0.685%
Percentage cost for other operating expenses	1.186%	1.168%
Totals	1.877%	1.853%

Gross Income and Percentage of Expenses to Income

	Percentage for 1927	Percentage for 1928
Percentage of net profits to average loans	6.881%	6.879%
Percentage of taxes to average loans	0.257%	0.220%
Percentage of expenses to average loans	1.829%	1.849%
Percentage of apparent gross income	8.967%	8.948%
Ratio of operating expenses to income	20.397%	20.663%

Rates of Interest on Loans

The rates of interest charged upon loans range from 7 to 12 per cent per annum. The factors governing the interest rate usually depend upon the locality, security offered and local money conditions. The following table gives the various rates charged upon installment loans and the number of associations using each rate:

9 associations charge	7.00%	30 associations charge	9.00%
2 associations charge	7.20%	10 associations charge	9.60%
5 associations charge	7.50%	3 associations charge	9.75%
10 associations charge	7.80%	10 associations charge	10.00%
33 associations charge	8.00%	1 association charges	10.20%
90 associations charge	8.40%	1 association charges	10.60%
1 association charges	8.50%	1 association charges	12.00%

Rates of Dividends Paid

The associations paid or credited sixteen different rates of dividends upon investments in installment shares and certificates, the mean average rate of all being 6.031 per cent.

The groups of associations and the mean rate of dividend or interest paid or credited for each group appear as follows:

1 association	5.00%	16 associations	8.00%
126 associations	6.00%	3 associations	8.40%
4 associations	6.50%	3 associations	8.50%
1 association	6.75%	1 association	8.75%
32 associations	7.00%	3 associations	9.00%
7 associations	7.20%	2 associations	10.00%
3 associations	7.50%	1 association	13.00%
2 associations	7.60%	1 association	14.00%

REAL ESTATE AND OFFICE BUILDINGS OWNED

The book value of all real estate owned by California associations is $7,195,954.28, in increase of 26.67 per cent. The above amount comprises $3,482,832.08 invested by 41 associations in property acquired for office buildings, and $3,713,122.20 representing the value of 771 parcels of real estate acquired, principally as the result of foreclosures of delinquent loans. These amounts show increases of 13.78 per cent and 40.58 per cent, respectively, during the year.

The value of real estate owned is 2.42 per cent of the gross assets of all associations.

The value of furniture and fixtures owned is $698,164.64, an increase of 26.58 per cent over 1927.

The Commissioner has ruled that a mutual association must not invest in office buildings an amount in excess of its accumulated reserve, and a guarantee capital association an amount in excess of its paid-in guarantee capital and surplus reserve.

All associations, before making such investments, must receive permission to do so from the Commissioner.

General Laws Governing Building and Loan Associations, and Building and Loan Commission Act

As amended, effective July 29, 1927.

CIVIL CODE

TITLE XVI.

BUILDING AND LOAN ASSOCIATIONS.

Section 633. Formation, powers, and organization.
634. Capital stock.
635. Retiring free shares.
636. Maturity of stock.
637. Loans—Prohibitions—Penalties.
638. Interest—Securities—Repayment of loans.
639. Arrears in payments—Default—Forfeitures.
640. Purchase of real estate.
641. Profits and losses.
642. Withdrawals.
642*a*. Delayed withdrawals and maturities.
643. Membership.
644. State supervision and control.
645. Annual report.
646. Foreign corporations—Deposit by.
647. Investment in and loans upon bonds.
647*a*. Consolidation of associations.
648. Definition of building and loan association.
648*a*. Formation with or without capital stock.

Powers—Purposes for which formed.

633. Building and loan associations as hereinafter in this title defined, shall have power to receive money and accumulate funds to be loaned, and to loan the same to their shareholders, investors and others; to permit shareholders and investors to withdraw part or all of their payments, investments or stock deposits, and to prescribe the terms and conditions of such withdrawal; to cancel shares of stock, the payments on which have been withdrawn; to receive money and to execute certificates therefor, which must specify the date, amount, rate of interest, and when the principal and interest are payable, and also the withdrawal value thereof at the end of each year; to borrow money for the purpose of making loans and of paying withdrawals and maturities; and shall have such further powers as may be specifically set forth under this title; *provided, however,* that no such association shall, at any time, have or carry upon its books, for any member or investor, any demand, commercial or checking account or any credit to be withdrawn upon the presentation of any negotiable check or draft.

Every such corporation hereafter formed, setting forth the purposes for which it is formed, shall state, in its articles of incorporation, that it is formed to encourage industry, frugality, home building, and savings among its shareholders and members; the accumulation of savings; the loaning to its shareholders and members of the moneys or funds so accumulated, with the profits and earnings thereon, and the repayment to each of his savings and profits, whenever they have accumulated to the full par value of the shares, or at any time when he shall desire the same or when the corporation shall desire to repay the same, as it may be provided in the by-laws; and shall also state that it is formed for all the purposes specified in this title, and nothing in the statutes of this state, to the contrary notwithstanding, shall preclude any such association in any of its advertising from setting forth any of the foregoing purposes. (Effective July 29, 1927.)

Capital—How accumulated; classes of shares.

634. The capital of every such corporation shall be divided into shares of the matured or par value of one hundred or two hundred dollars each, as provided by the articles of incorporation, and shall be paid in by the subscribers in the manner provided by the by-laws. All such payments shall be called dues. Certificates shall be issued to each shareholder on the first payment of dues by him. Shares pledged as security for the payment of a loan shall be called pledged shares, and all others, free shares. All shares matured and surrendered or canceled, shall become the property of the corporation and may be reissued. The capital shall consist of the accumulated dues, together with the apportioned profits of the corporation, and shall be accumulated by the issuance of shares in any one or more of the following forms, viz: "installment shares," "full paid shares," "pass book shares" and "guarantee stock."

Installment shares.

(*a*) Installment shares shall be either "serial" or "permanent" in form. When issued in "serial" form the periodical dues on shares in each series shall commence with the date of the issue of such series and the holder must pay such dues and such amounts per share and at such times as the by-laws may provide, and such payments must continue on each share until, with the profits allotted thereto, it reaches its matured value or is withdrawn or canceled. On all such issues the dividends shall be apportioned or credited equally to each share in each series. No share of a prior series shall be issued after the issue of shares in a new series, except by way of transfer. Shares issued in "permanent" form may be issued at any time and the dividends thereon may be credited in the pass books of the members. Shares of either form may be issued in "classes" with a different periodical payment for each class designation, to be specified in the by-laws, and shall be issued with full participation in the profits subject to apportionment as dividends.

Full paid shares.

(*b*) Full paid shares shall be shares upon which a single payment of dues amounting to one hundred or two hundred dollars per share shall be paid at the time of subscription and upon which the holder shall be entitled to either a full participation in the net profits or to an agreed

rate of dividends not exceeding six per cent per annum, payable semi-annually in cash, to be specified in the body of the certificate issued. All such shares may be issued in separate classes as to participation, under regulations to be provided in the by-laws and which must be fully set forth in or upon each certificate issued.

Pass book shares.

(*c*) Pass book shares are shares which shall participate in the apportionment of net profits and be credited therewith at a rate not less than seventy-five nor more than ninety per centum of the rate apportioned to installment shares, as the by-laws shall determine, and upon which the dues may be paid in at such times and in such amounts as the holder thereof may elect until said shares reach their matured value or are withdrawn. Such shares shall be withdrawable under rules to be provided in the by-laws and fully set forth in the pass books issued. The matured value of this class of shares shall not exceed in volume twenty-five per centum of the matured value of all other shares in force. No membership fee, fine or forfeiture shall be chargeable against such shares.

Guarantee stock.

(*d*) Guarantee stock shall be stock, provided by the by-laws, to be set apart and sold as a fixed, permanent or guarantee capital, and shall be issued with full participation in the profits subject to apportionment as dividends. When any such stock has been once so set apart, sold and issued it shall thereafter remain as a fixed, permanent and guarantee capital, and shall be subjected to all the conditions and liabilities attaching to the paid-in capital stock of other classes of corporations. Such guarantee stock shall protect and guarantee all other stockholders and creditors against any loss, and when once paid it must be kept unimpaired.

May issue investment certificates to minors.

(*e*) Every corporation specified in this title, in addition to being entitled to issue investment certificates to adults, shall also have power to issue one or more investment certificates to a minor of any age and receive payments thereon by or for such minor. If such minor be fourteen years of age or over, he shall be entitled to withdraw, transfer or pledge any such certificate owned by him and to receive from such corporation any and all interest or other moneys at any time becoming due thereon and his receipt or acquittance therefor shall constitute a valid release and discharge to the corporation for the payment of such money.

Investment certificate—Reserve required.

(*f*) Every corporation specified in this title issuing installment or full paid investment certificates, or both, shall at all times have issued and fully paid for, either an amount of guarantee capital stock, or permanent nonwithdrawable capital stock, or both such guarantee capital stock and permanent nonwithdrawable capital stock, or a reserve fund, equal to ten per cent of the aggregate amount of its liability on its said installment investment certificates and full paid investment certificates; *provided, however,* that the aggregate of

guarantee capital stock, or permanent nonwithdawable capital stock, or both such guarantee capital stock and permanent nonwithdrawble capital stock, or a reserve fund, of every building and loan association issuing installment or full paid investment certificates, or both, must equal the following percentages of its investment certificate liabilities:

1. Ten per centum of any amount up to and including one million dollars.

2. Seven and one-half per centum of any amount in excess of one million dollars, up to and including two million dollars.

3. Five per centum of any amount in excess of two million dollars, up to and including five million dollars.

4. Three per centum of any amount in excess of five million dollars.

Guarantee stock may have majority of directors.

(*g*) Corporations specified in this title, issuing guarantee stock, may provide in their by-laws that a majority of the board of directors shall be selected from the holders of such stock.

Entrance and transfer fees.

(*h*) Every corporation specified in this title shall also have power, by its by-laws, to charge and collect an entrance fee, for each share of stock, or membership share, or investment certificate, it may issue, not exceeding one dollar on each share or investment certificate having a matured or face value of one hundred dollars, and also to charge and collect a transfer fee, not exceeding ten cents on each share, or investment certificate, all of which fees shall be accounted for by the corporation like other funds of the association. No other fee, charge or deduction shall ever be made or permitted to be made against any shareholder, or certificate holder, or against any of his shares or certificates, hereafter issued, or the dues paid in thereon for the purpose of creating a fund to be used in the payment of current or running expenses. (Effective July 29, 1927.)

Retiring free shares.

635. The directors may in their discretion, under the regulations prescribed by the by-laws, retire any free shares of stock, other than those of the guarantee stock, by enforcing the withdrawal thereof, but whenever the withdrawal of any shares is to be enforced, the holders thereof must be paid the amount actually paid in, and the full amount of earnings at the date of retirement; *provided*, that shares of installment stock shall not be forced out until after they shall have become four years old.

Maturity of shares, and payment.

636. When any stock shall have reached its matured value, payment of dues thereon shall cease. Borrowing stockholders whose loans are fully paid shall have their securities released and returned to them. Holders of free shares of stock shall be paid the matured value thereof out of the funds of the corporation with interest at such rate as the by-laws shall provide, from the time the board of directors shall declare such shares to have been matured, until paid; but at no time shall more than one-half of the receipts of the corporation be applicable to the

payment of matured shares without the consent of said board. The order of the payment of matured shares, if not otherwise determined by the by-laws, shall be in the numerical order of issuance.

Loans—Officers and directors may not borrow; no loans on guarantee stock or mining stock.

637. Loans may be made upon the "mutual plan" or upon the "definite contract plan." Loans made upon the mutual plan shall be accompanied by a pledge of shares having a matured or par value equal to the face of the loan. Definite contract loans shall be repayable in a definite number of equal periodical installments, to be named in the note or obligation, each in an amount sufficient for the aggregate of all to repay the principal of the loan together with interest on the unpaid periodical balances, within the time and at the rate agreed upon. It shall be unlawful for any director or officer of any corporation governed by this title, directly or indirectly, for himself, or as a partner or agent for others, to borrow any of the funds of such corporation, and any officer or director violating the provisions of this section shall be guilty of a felony. Any officer or director of any such corporation who consents on behalf of such corporation to make a loan to any officer or director of such corporation shall be guilty of a felony, and shall also be personally liable to the corporation for the full amount thereof. Any officer, director, or employee of such corporation who asks or receives or consents or agrees to receive any commission, emolument, gratuity or reward, or any money, property or thing of value, for his own personal benefit or of personal advantage, for procuring or endeavoring to procure for any person, firm or corporation any loan from such corporation, is guilty of a felony. It shall be unlawful for any building and loan association, corporation or society operating under the provisions of this title to loan any of its funds upon any of its own guarantee stock or upon its permanent nonwithdrawal capital stock as security. Any officer or director of an association who shall make any such loan for and on behalf of any association shall be personally liable to the corporation for the full amount thereof, and shall also be deemed guilty of a felony. It shall be unlawful for any building and loan association, corporation or society, operating under the provisions of this title, to loan any of its funds upon the security of, or to invest any of its funds in mining shares or mining stocks, or in the stocks or bonds of any corporation, other than in this title provided; and any officer or director who, on behalf of any such corporation, shall make any such loan or investment, or who shall consent thereto, shall be personally liable to the corporation for the whole amount of any such loan or investment, and shall also be guilty of a felony. (Effective July 29, 1927.)

Security for loans—Interest, rate to appear.

638. For every loan made a note or obligation, expressing and setting forth the exact rate of interest, must be executed by the borrower, secured by a first mortgage or deed of trust upon unencumbered real estate having an appraised value of not less than twenty-five per cent in excess of the face of the loan, except such loans as may be made upon the security of bonds specified in section six hundred forty-seven;

or in lieu of a mortgage or deed of trust, loans to the extent of not exceeding ninety per cent of the then withdrawable value, may be made upon the pledge of free shares or certificates as security for their repayment. The board of directors may from time to time fix the rate of interest to be charged on loans. A borrower may at any time repay his loan together with interest or arrears due thereon and upon the surrender of the shares, or certificate pledged as security therefor. (In effect July 27, 1917.)

Arrears in payment; default; forfeitures.

639. Whenever any non-borrowing member shall be six months in arrears in the payment of his dues upon free shares, the secretary may give him notice thereof in writing, and a statement of his arrearages, by mailing the same to him at his last post-office address given by him to the association; and if he shall not pay all arrearages within two months thereafter, the board of directors may, at their option, declare his shares forfeited, and at the time of such forfeiture, the withdrawal value thereof shall be determined and stated, and the defaulting member shall be entitled to withdraw the same without interest, upon such notice as shall be required of a withdrawing shareholder. Whenever a borrower shall be three months in arrears in the payment of his dues or interest or loan installments, the whole loan shall become due at the option of the board of directors, and they may proceed to enforce collection upon the securities held by the association. The withdrawal value, at the time of exercising such option, of all shares pledged as collateral security, shall be applied to the payment of the loan, and said shares from that time shall be deemed surrendered to the association and canceled.

May purchase real estate on foreclosure sale.

640. Any such association may purchase at any sale, public or private, any real estate upon which it may have a mortgage, judgment, lien, or other incumbrance, or in which it may have an interest, and may sell, lease, or mortgage the same at pleasure to any person or persons.

Apportionment of profits; reserve—Guarantee stock participation and reserve.

641. Profits and losses shall be apportioned at least annually, and shall be apportioned to all shares in each class at the time of such apportionment, according to the actual or book value thereof. If the guarantee capital herein provided for if any there be, together with the reserve fund, or if the reserve fund, where there be no guarantee capital, shall not equal five per cent of the outstanding loans at the time of each apportionment of profits, the directors shall set aside, as a reserve fund, not less than five per cent of the net profits accruing since the last prior apportionment, and shall continue so to do until said fund shall amount to at least five per cent of the loans in force, at which figure said fund shall thereafter be maintained. Said reserve fund shall at all times be available to meet losses arising from any source not heretofore provided to be assumed by the guarantee capital. Every such corporation having a paid-in guarantee capital stock, may provide in its by-laws, that an amount not exceeding one per cent per annum on the average loans in force shall be set aside from and

out of the net profits, at each annual distribution thereof, or a proportionate amount at each semi-annual distribution, from which to declare additional dividends on and provide a reserve fund that shall be specially applicable thereto. At least one-tenth of the amount so set aside shall be carried to such reserve fund until the same shall amount to at least twenty-five per cent of the paid-in guarantee stock. (Effective July 29, 1927.)

Withdrawals; conditions and limitations.

642. A stockholder or investor, desiring to withdraw from any such corporation or to surrender a part or all of his stock, or investment certificate, may do so by giving thirty days' notice, in writing, of his intention or desire so to do. On the expiration of such notice, he is entitled to receive the full amount paid in upon the stock or investment certificate surrendered, exclusive of the entrance fee, together with such proportion of the earnings thereon as the by-laws may provide, or as may be fixed by the board of directors; but not more than one-half of the monthly receipts in any one month must be applied to withdrawals for that month, without the consent of the board of directors, and no stockholder must be permitted to withdraw whose stock is pledged to the corporation as security for a loan, until such loan is fully paid. All withdrawals must be paid in succession in the order that the notices of intention are given. Whenever the demands of withdrawing stockholders or investors exceed the money applicable to their payment, the notices of intention to withdraw must be registered in the order of filing and payments thereon must be made in succession, in the order that such notices were filed and registered. The board of directors may permit the withdrawal of a part of the accumulations to the credit of a stockholder or member, on shares of installment stock not issued in serial form, without thereby reducing the number of shares held by him. (In effect July 24, 1925.)

Demands unpaid for two years, business may be taken over.

642a. Whenever an application for withdrawal of free shares or certificates shall have been on file, or the payment of matured shares demanded, and either shall have remained unpaid for a period of one year, all the receipts of the association from dues, interest, premium, loans repaid, and the proceeds of all other investments, shall, after the payment of expenses and general indebtedness, be applied toward the payment of withdrawals and maturities; and the board of directors or the official vested by law with powers of state supervision and license may direct that such payments shall be made upon a ratable and proportionate basis. Whenever such applications or demands, whether heretofore or hereafter made, have been on file and remain unpaid in whole or in part for more than two years the official vested by law with powers of state supervision and license, may in his discretion forthwith take possession of the property and business of such association, and retain such possession until its affairs be finally liquidated in the manner provided by law for the liquidation of associations by him. (In effect August 8, 1915.)

Who may become members.

643. Any person of full age and sound mind may become a member of an association by taking one or more shares therein and subscribing

to the by-laws, and annexing to his signature his post-office address. A minor may hold shares in the name of a parent, guardian, or next friend, as trustee. The shares of stock in any such corporation held by any person, to the extent of one thousand dollars, shall be exempt from execution.

State supervision and control.

644. All building and loan associations, as in this title defined, doing business in this state, shall be under the supervision and control of such official or officials as are by law vested therewith; and except in the manner provided in this title, no corporation, firm, or association shall conduct or carry on the business of accumulating the savings of its shareholders, members, or investors, and loaning such accumulations to them, in the manner of building and loan associations.

Annual and other reports; penalties.

645. Every association organized under the provisions of this title, and every other association doing a similar business, shall annually make a full report, in writing, of the affairs and condition of such corporation, within thirty days after its annual meeting, to the official or officials vested with powers of state supervision and license. Such reports shall be verified by the oath of the officers making the same, and a copy of the same shall be delivered to every stockholder, from the office of the corporation, who may call for such report. Every association shall make any further reports which the said official or officials may require, and in such form and as to such matters relating to the conduct of the business of the association as such official or officials may designate. Any wilfully false statement in making and verifying said report shall be perjury. Any such association which shall fail to furnish the said official or officials any such report required, within thirty days after demand, shall forfeit the sum of ten dollars per day for every day such report shall be delayed or withheld, which may be recovered in an action brought by the attorney general in the name of the people of this state; and all moneys so recovered shall be paid to the treasurer of this state, who shall pay the same into such fund as may be provided by law, for the purposes of the official or officials vested with power of supervision and license.

Foreign association; deposit required.

646. Every building and loan association, and every other corporation, association or society organized under and by virtue of the laws of any other state or territory or of any foreign country, for the purpose of conducting and carrying on a business of a character similar to that authorized by this title, or whose by-laws, rules, prospectus, contracts or methods of business provide for the conducting or carrying on the business of accumulating the periodical payments or savings of its shareholders, members or investors in the manner of building and loan associations, or as authorized and provided in this title, desiring to enter the State of California for the transaction of business or for selling its bonds, debentures, certificates, shares of stock, shares of membership, contracts, or other similar securities, must first comply with the requirements of sections four hundred five and four hundred eight of the Civil Code and immediately thereafter deposit with the

official vested by law with state supervision and license not less than fifty thousand dollars in lawful money of the United States or in bonds of the United States or of the State of California, or of any county, municipality or school district of said state, or of any public utility corporation, or of any irrigation district in said state, the bonds issued by which district are legal investments for savings banks or any notes or bonds secured by mortgage or deed of trust payment of which is guaranteed by a policy of mortgage insurance, or mortgage participation certificates, issued by a mortgage insurance company in accordance with the provisions of chapter eight, title two, part four of division first of the Civil Code or in lieu thereof promissory notes secured by first mortgages or deeds of trust upon real estate located within this state, satisfactory to the official vested by law with state supervision and license of building and loan associations, all duly assigned or endorsed in blank, to be held by the said official as a guarantee fund for the protection and indemnity of residents of the State of California who shall invest in any of its bonds, debentures, shares, contracts, agreements or other securities, or with whom it shall do business.

It must also procure from the official vested by law with state supervision and license of building and loan associations, the license provided for building and loan and similar corporations and associations, paying the statutory fee therefor before entering upon the transaction of business, and annually renew the same; *provided, however,* that the official or officials, vested by law with state supervision and license of building and loan associations may, before issuing license to any building and loan association, or other corporation, organized under and by virtue of the laws of any other state or territory, or of any foreign country, doing a business which would properly place it under the supervision of the state building and loan commission, require such corporation, or corporations, to so modify or change their contracts, certificates of membership shares, or stock that they will conform in all respects to the requirements of associations organized within the State of California; and shall likewise conform in all other respects to the provisions of sections six hundred thirty-three to six hundred forty-eight *a* of the Civil Code of the State of California.

With the consent of the said official vested by law with state supervision and license any of the securities deposited as herein provided may be withdrawn at any time upon the substitution and deposit of others of form and character herein specified and of like or greater net value, so long as the aggregate net convertible value of all equals or exceeds the amount named herein. The fund thus created is not to be foreclosed or realized upon except for the liquidation of a final judgment in favor of residents of California who were investors in any of the above mentioned securities of such foreign company, corporation or association, and then only after certified proof thereof has been filed with the custodian.

Except as above provided, securities deposited as herein specified shall not be withdrawn until satisfactory proof of the liquidation of all liabilities to residents of California, approved by the official vested by law with state supervision and license, shall be filed with the custodian, when all may then be withdrawn.

Any person or persons who shall be found in the state, as principal, agent, solicitor, or in any other capacity, soliciting or conducting the

business of selling, disposing of, or taking or soliciting subscriptions for the sale of any of the forms of bonds, debentures, shares, contracts, agreements or other securities of any such foreign company, corporation or association which has not complied with all the requirements of this section shall be deemed guilty of a misdemeanor punishable, upon conviction, by a fine of not less than one hundred nor more than one thousand dollars or by imprisonment in the county jail for not less than one nor more than twelve months, or by both such fine and imprisonment. (In effect August 17, 1923.)

Investments permitted; approval required.

647. Any building and loan association may invest in or loan upon bonds of the United States, of the State of California, or of any county, municipality or school district of said state, or of any public utility corporation, or notes or bonds secured by mortgage or deed of trust, payment of which is guaranteed by a policy of mortgage insurance, or mortgage participation certificates, issued by a mortgage insurance company, in accordance with the provisions of chapter VIII of title II of part IV, division I of the Civil Code, and may also invest in bonds or securities certified by the superintendent of banks to be legal as investments for savings banks in accordance with the provisions of an act entitled "An act to define and regulate the business of banking," approved March 1, 1909, and acts amendatory thereof and supplemental thereto, and in full paid investment certificates issued by any building and loan association licensed by, and under the direct supervision of the building and loan commissioner of the State of California in accordance with the provisions of this title, the total of which investments shall not at any time exceed twenty-five per centum of the assets of such investing association; *provided, however,* that any such loan or investment, made by such association, must first be approved by the official, or officials, vested with the powers of supervision and license. (Effective July 29, 1927.)

Consolidation of associations.

647a. Any two or more building and loan associations may unite and become incorporated in one body, with or without any dissolution or division of the funds of either of them; or any such corporation, association or society may transfer its engagements, funds and property to any other like corporation, association or society upon such terms as may be agreed by an unanimous vote of their respective boards of directors, ratified by the written consent of the shareholders holding more than two-thirds of the shares in force in each of the respective contracting associations; *provided, however*, that any such consolidation or transfer must also be approved by the official or officials vested by law with powers of state supervision and license. (In effect July 22, 1919.)

Name; to include what.

648. The name "building and loan associations" as used in this title shall include:

Mutuals.

First—Corporations formed for the purpose of receiving money from, and loaning money to, their members only.

Corporations operating on similar lines.

Second—Corporations, associations, companies, copartnerships, and individuals transacting the business of issuing or selling bonds, debentures, certificates, shares of stock, or other papers, by whatever names said instruments may be designated, whether said instruments are issued for money paid in advance or for money to be paid in installments, but with an intent, either implied or expressed, that the proceeds or accumulated installments thereof and thereon are to be withdrawable or repayable, with accumulated profits, at some future fixed, or indefinite date of maturity; *provided always,* that this section does not include persons, copartnerships or corporations engaged in any kind of banking business. (In effect March 22, 1909.)

Formation with or without capital stock.

648a. Building and loan associations may be formed under this title with or without guarantee or other capital stock, with all the rights, powers and privileges and subject to all the restrictions and liabilities set forth in this title. If formed without any capital stock or with guarantee capital stock only, the working capital may be accumulated by the issue of membership shares, units or certificates having a paid-up or ultimate matured installment value of one hundred or two hundred dollars each, and entitled to all the rights, powers and privileges and subject to all the restrictions and liabilities provided in this title for shares of authorized capital stock of a similar class. Any building and loan association heretofore formed may reincorporate under the provisions of this section and may substitute membership shares, units or certificates of similar classes for its outstanding or authorized shares of capital stock, other than guarantee capital stock by amending its articles of incorporation in the manner prescribed by section three hundred sixty-two of this code, except that such amended articles of incorporation must be adopted by a unanimous vote of the board of directors. (In effect July 29, 1921.)

BUILDING AND LOAN COMMISSION ACT

CHAPTER 354.

[Approved April 5, 1911. Stats. 1911, p. 607.]

(Amendments effective December 18, 1911, March 23, 1912, August 8, 1915, July 27, 1917, July 29, 1921, August 17, 1923, July 24, 1925, and July 29, 1927.)

The people of the State of California, represented in senate and assembly, do enact as follows:

SECTION 1. There is hereby created a bureau, to be known and designated as the "bureau of building and loan supervision," with powers of supervision, examination and license of all building and loan associations, mutual loan associations, cooperative home associations, and all other corporations, association and societies whenever, wherever and however formed, which are based, or are operating on plans or methods similar to building and loan associations as defined in section six hundred forty-eight of the Civil Code. Said bureau is charged with the enforcement of all laws designed for the formation, government or operation, in this state, of any such association, corporation or society, and is vested with power to determine what associations, corporations and societies, come within the purview of the laws. (In effect March 23, 1912.)

Administration; commissioner, deputies, etc.

SEC. 2. The administration of said bureau shall be vested in a commissioner, to be known and designated as the "building and loan commissioner," who shall be appointed by the governor and commissioned to hold office at the pleasure of the governor. He must be a citizen of the state; and he must not be in any way connected with any association or corporation or society coming under his supervision. He shall appoint a chief deputy building and loan commissioner with full power as such, who must be a practical, skilled accountant, fully conversant with the building and loan systems and accounts; he may appoint an appraiser and such other examiners, deputies, assistants, clerks and stenographers as shall be found necessary for the proper conduct of the business of his office and the making of examinations of associations.

Salaries and expenses.

SEC. 3. The commissioner shall receive a salary of six thousand dollars, per annum. He shall, subject to the approval of the board of control, have power to fix the salaries and compensation of an appraiser, examiners, deputies, assistants and employees. There shall also be allowed and paid the necessary traveling expenses of the commissioner and his deputies incurred while traveling in the line of their duties. The commissioner shall procure and have an office in the city of San Francisco. Said commissioner shall also provide for such stationery, printing, postage and all other necessary expenditures as may be

necessary for the proper conduct of his office. All said salaries and expenses shall be audited and paid in the same manner as the salaries and expenses of other state offices. Said salaries and expenses shall be paid from the "building and loan inspection fund." (Effective July 29, 1927.

Bonds and oath of office.

SEC. 4. Before entering upon their duties, the commissioner and his deputies shall each execute an official bond in the penal sum of five thousand dollars, each of which bonds must be guaranteed by a duly authorized surety or bonding company, the premium on which shall be paid from the allowance for office expenses. Any bond executed under this section must be approved by the governor and filed and reported in the office of the secretary of state, and such commissioner and deputies must take the oath of office as prescribed by the Political Code for the state officers in general. (In effect July 29, 1921.)

Commissioner to license and report to governor.

SEC. 5. It shall be the duty of the commissioner to furnish all associations, corporations or societies, which, in his judgment, legally come under his jurisdiction, and that have otherwise complied with the requirements of law, a license authorizing them to transact business for one year from the date of said license; to receive and place on file in his office the annual or other reports required by law to be made by building and loan associations, licensed by him; to supply each with blank forms for such statement; and to make, on or before the first day of October in each year, a tabulated report to the governor of this state, showing the condition of all such associations, corporations or societies reporting to him, with such recommendation as he may deem proper, accompanied by a detailed statement of all moneys received by him since his last report and the disposition thereof. (In effect July 29, 1921.)

Examinations of domestic and foreign associations.

SEC. 6. It shall be the duty of the commissioner, in person, or one of his deputies at least once in each year, without previous notice, to visit and examine into the affairs of every such association, corporation or society licensed by him, incorporated or doing business in this state; on such occasions he shall have free access to all the books, records, securities and papers of every such association, corporation or society, and shall first count the cash and check the bank balance of such corporation or association with the proper amount of funds as shown by the books to be on hand and at the date and hour of such examination, and shall then examine and verify the books, accounts, and securities, and, so far as possible and consistent, the values of all property owned or held as collateral security for moneys loaned, and otherwise use reasonable diligence to ascertain the financial condition and solvency thereof. He and his deputies shall have power to administer oaths in the line of duty, and to examine under oath the officers, employees and agents, or the custodian or receiver, relative to any or all the business thereof. Whenever the result of any such

examination shall develop a condition demanding an extended audit of the books and affairs, the commissioner may, for such purpose, appoint a competent auditor at the expense of the association, corporation or society examined. The expense of such audit shall be fixed by the commissioner and shall not exceed fifteen dollars per diem, plus traveling and hotel expenses, for each day actually engaged in the making of the audit and the preparation of the report.

The commissioner or his deputies shall examine, or cause to be examined, the books and affairs of any such association, corporation or society formed under the laws of any other state, territory or foreign country applying for a license to enter this state for the transaction of business, prior to the granting of such license and annually thereafter, and for every such examination made outside the state the actual traveling and hotel expenses incurred shall be paid by the association, corporation or society so examined; *provided*, that the result of any similar examination made and certified by the duly constituted authorities of any state having similar laws of supervision may be accepted by the commission. (In effect July 29, 1921.)

Books and accounts required; appraisement of real estate.

SEC. 7. To facilitate the examination specified in the foregoing section, he shall require every such association, corporation, or society to keep its books in such form as to accurately show its assets and liabilities in detail and to keep records written in ink, showing the appraised values of the real estate security held in connection with each loan, and signed in each case by the appraiser, officer or committee charged with making such estimated valuations. The commissioner may make a revaluation of the real estate owned, and of other securities of any such association, corporation or society licensed by him, on which the loan payments may be delinquent for six months or more, and may, for that purpose, appoint local appraisers, who shall be disinterested persons, at the expense of such association, corporation or society; the expense of such appraisement to be fixed by the commissioner, but not to exceed the sum of five dollars for property located outside of any incorporated limits and three dollars for property located inside of any incorporated limits for each property so examined and appraised. Each appraiser so appointed shall be required to make a sworn report to the commissioner of his estimated valuations of all property so examined and appraised.

Power to issue subpœnas.

SEC. 8. The commissioner shall have power to issue subpœnas and require attendance of any or all trustees, or agents of any such association, corporation or society, and such other witnesses as they may deem necessary, in relation to its affairs, transactions and condition, and any such person so served with such subpœna may upon application of the commissioner be required by order of the superior court of the county where the corporation, association or society has its principal place of business to appear and answer such pertinent questions as may be put to him by such commissioner and be required to produce such books, papers or documents in his possession as may be required by such commissioner.

Powers of commissioner in unsafe practices and conditions, and in liquidations.

SEC. 9. If the commissioner, as the result of any examination, or from any report made to him or to the shareholders, shall find that any association, corporation or society licensed by him, is violating the provisions of its charter or of the laws of this state provided for its government, or is conducting its business in an unsafe or unauthorized manner, he may, by an order addressed to the association, corporation or society so offending, direct a discontinuance of such violations or unsafe practices and a conformity with all the requirements of law; and if such association, corporation or society shall refuse or neglect to comply with such order within the time specified therein; or if it shall appear to the commissioner that any such association, corporation or society is in an unsafe condition, or is conducting its business in an unsafe manner, such as to render its further proceeding hazardous to the public, or to those having funds in its custody; or if he shall find that its assets are impaired to such an extent that, after providing for all liabilities other than to shareholders, members and investors, they do not exceed in volume the dues or principal payments paid in by the shareholders, members and investors and accredited to or on account of all classes of stock, shares, or certificates of investment, issued and outstanding, he shall, in order to prevent waste and diversion of assets, assume and take charge of the affairs and business of such association, corporation or society and possession and control of all its property and assets, and retain such possession pending action by the proper court. Upon taking such action, he may, under his hand and official seal, appoint a custodian, require from him a good and sufficient bond, and place him in charge as his representative. He shall immediately notify the attorney general of his action and of all the necessary facts in connection therewith; and thereupon it shall become the duty of the attorney general to at once apply to the superior court of the county in which such association, corporation or society has its principal place of business, for an order citing such association, corporation or society to show cause, if any it may have, within not exceeding ten days, why the action of the commissioner should not be approved and confirmed by the court, and made permanent. Such court may in such application, and after a full hearing, approve or disapprove of the action of the commissioner. If the court shall approve and confirm the action of the commissioner, such approval and confirmation shall operate as a permanent injunction against the further prosecution of business by such association, corporation or society, and the commissioner shall proceed immediately to liquidate the business and affairs thereof, and so continue until such liquidation has been completed. If the action of the commissioner shall be disapproved by the court, the commissioner shall cause all reasonable expenses incurred by him during his occupancy or possession, including not exceeding eight dollars per diem, for each business day, as the compensation of the custodian, to be paid from the funds of such association, corporation or society, and immediately restore the balance of the property and assets thereof to the possession of the proper officers.

The approval and confirmation of the action of the commissioner, by the court, shall operate to empower the commissioner to collect all moneys, debts and claims due to or belonging to such association or society and to give full receipt therefor; to release or reconvey all real

or personal property pledged as security for loans; to approve and pay all just and equitable claims; to prosecute all actions necessary to enforce liquidations; and, on the order of the court, to compound bad and doubtful debts and to sell and convey real and personal property.

As soon as practicable after the approval and confirmation of the action of the commissioner, by the court, he shall cause an inventory of all the assets of such association, corporation or society to be made in duplicate, the original to be filed with the proper court and the duplicate in the office of the commissioner. He shall cause due notice to be given by publication, weekly, for four successive weeks, in some newspaper published at or near the principal place of business of such association, corporation or society, requesting all persons having claims against it as creditors, shareholders, members or investors, to present same and make legal proof thereof, at a place and within a time to be designated in such publication; and he shall cause a copy of such notice to be mailed to all persons whose names appear of record upon its books as creditors, shareholders, members or investors; and upon the expiration of the time fixed for the presentation of claims the commissioner shall prepare or cause to be prepared, in duplicate, a full and complete schedule of all claims presented, specifying by classes those that have been approved and those that have been disapproved, and file the original with the proper court and the duplicate in the office of the commissioner. Due notice shall be mailed to all claimants whose claims may have been rejected. Action to enforce the payment of any rejected claim must be brought and service had within thirty days from and after the date of filing of the schedule of claims with the proper court, otherwise all such actions shall be forever barred. The commissioner may, under his hand and official seal, appoint one or more special deputies to assist in the duties of liquidation and distribution, under his direction, and may also employ such counsel and clerical assistance as may be needful and requisite, and fix the salaries and compensation to be allowed and paid to each. All such salaries, together with such other reasonable and necessary expenses as may be incurred in the liquidation, shall be paid by him from the funds of such association, corporation or society in his hands, and from the net realization of assets, in excess of such salaries and expenses, the commissioner shall first pay all approved claims other than to stockholders, shareholders and members; and thereafter he shall distribute and pay dividends, in liquidation to the stockholders, other than guarantee, and to the shareholders and members, as fast as funds to the amount of ten (10) per cent of such approved claims are available therefor, and so continue until all the assets have been realized upon and a final dividend in liquidation shall be declared and paid. Upon the payment of a final dividend in liquidation, the commissioner shall prepare and file with the proper court a full and final statement of the liquidation, including a summary of the receipts and disbursements, and a duplicate thereof shall be filed in the office of the commissioner, and after due hearing and approval by the court the liquidation shall be deemed to be closed. The approval and confirmation of the action of the commissioner, in the manner herein provided, shall operate to dissolve or stay any or all actions or attachments initiated or levied within thirty days next preceding the date of notification of the attorney general by the commissioner; and, pending the process of liquidation, as herein provided, no attachment or

execution shall be levied nor lien created upon any of the property of such association, corporation, or society.

In every case where any such association, corporation or society shall have a paid in guarantee capital, and the realization of assets shall be insufficient to meet the liabilities due to all other classes of stockholders, shareholders, members and investors, the commissioner shall enforce, by action or otherwise, the liability of each and every of the holders of the guarantee capital stock for his or their respective pro rata of any such deficiency. Whenever, in all cases where there shall be a paid in guarantee capital, the commissioner shall have fully liquidated all approved claims, and shall have made due provision for any and all known but unclaimed liabilities, guarantee capital excepted, and shall have paid all expenses of liquidation, any surplus that may then remain in his hands, together with all the records and effects, shall be delivered over to the holders of the guarantee capital stock at a meeting thereof to be called by the commissioner for that purpose. (In effect March 23, 1912.)

Penalty for noncompliance with orders, sheriff may enforce demands.

SEC. 9*a*. Whenever it shall become necessary for the commissioner to take action against any association because of unsafe practices and of conditions unsafe and hazardous to the public and to those having funds in its custody, as provided in section nine, the refusal of any officer or director to comply with his written demand for possession of the property and assets shall constitute a misdemeanor punishable by a fine of not more than five hundred dollars or by imprisonment in the county jail for not more than ninety days, or by both such fine and imprisonment; and if such demand be not complied with within twenty-four hours after service the commissioner may call to his assistance the sheriff of the county in which the principal place of business of such association is located, by written demand under his hand and official seal, whereupon it shall become the duty of such official to enforce the demands of the commissioner. (In effect August 8, 1915.)

Officers must furnish schedule of property.

SEC. 10. Upon the approval of the action of the commissioner, in the manner and for the cause set forth in section nine, the commissioner shall require the president and secretary of such association, corporation or society to, and such officers shall, make a schedule of all its property and make oath that such schedule sets forth all the property which such association, corporation or society owns or to which it is entitled, and deliver such schedule, and the possession of any and all such property as may not have been so previously delivered, to the commissioner, who may at any time examine under oath such president and secretary, or other officers, to determine whether or not all the property which such association, corporation or society owns, or to which it is entitled, has been transferred and delivered into his possession. (In effect March 23, 1912.)

Receivers, duties and powers.

SEC. 11. Receivers, heretofore appointed, must, at least annually, make due report of all their doings and accounts to the proper court, and immediately thereafter file a copy thereof with the commissioner;

and the commissioner shall, at least once in each year, and as much oftener as he may deem expedient, examine the accounts and doings of such receivers, and, for such purpose, shall have full and free access to all books, accounts and vouchers relating to such liquidation, and any defect, irregularity or misconduct on the part of such receivers as he may find to exist shall be, by the commissioner, reported to the proper court. (In effect March 23, 1912.)

Special examinations on request.

SEC. 12. Upon the certificate, under oath, of any ten or more officers, trustees, creditors, shareholders or depositors of any such association, corporation or society, setting forth their interest and the reason for the making of such examination, directed to the commissioner, and requesting him so to do, he shall forthwith make a full investigation of its affairs, in the manner provided.

Failure of commissioner to act.

SEC. 13. If the commissioner, having knowledge of the insolvent condition, or of any violation of law or unsafe practice of any such association, corporation or society under his supervision, such as renders, in his opinion, the conduct of its business hazardous to its shareholders, creditors or depositors, shall fail to take the proper action required by this act, or shall refuse or neglect to perform the official duties pertaining to his office, then upon conviction thereof the office of such commissioner shall be declared vacant by the governor, and a successor be appointed to fill the unexpired term.

Assessments for salaries and support.

SEC. 14. To meet the salaries and expenses provided for by this act, the commissioner shall require every association, corporation or society licensed by him or coming under his supervision to pay in advance, to him, and prior to the issuance of any license, its pro rata amount of all such salaries and expenses, and it is hereby made the duty of every such association, corporation or society to pay the same; such pro rata shall be fixed and determined by the proportion which its assets bear to the aggregate assets of all such associations, corporations, or societies, receiving licenses, as shown by the last reports of such corporations, associations, or societies to the commissioner. On or before the thirtieth day of December, in each year, the commissioner shall notify each of such associations, corporations or societies, through the United States mail, of the amount assessed and levied against it and that the same must be paid within twenty days thereafter; and should payment not be made to him within said twenty days, he shall then assess and collect a penalty, in addition thereto, of ten per cent per day for each day that such payment may be delayed or withheld; *provided, however,* that in the levy and collection of such assessment, no such association, corporation or society shall be assessed for, nor be permitted to pay less than ten dollars per annum, and any such association hereafter formed in this state, shall be required to pay not less than one dollar per month for the unexpired term ending December thirty-first, succeeding application; and in like manner any such association organized outside this state shall be required to pay not less than three dollars per month, for such unexpired term, for its first license.

Requirement for license and renewal; commissioner may revoke license.

SEC. 15. It shall be the duty of the commissioner to require every such association, corporation or society coming under his supervision, to procure from him, prior to the transaction of any business, a certificate of authority or license to transact business in this state; and it is hereby made the duty of every association, corporation or society to comply with such requirement. To procure such license, there must be filed with and approved by the commissioner, a certified copy of its articles of incorporation, constitution and by-laws and all subsequent amendments thereto, accompanied by the license fee herein provided for; and after the expiration of the term for which a license may have been granted to it, no such association, corporation or society shall be permitted to continue to transact business without first procuring a renewal of such license on the terms provided in this act, and any such association, corporation or society violating the provisions hereof shall be subject to a penalty of ten per cent per day of the amount of the license fee required to be paid under section fourteen of this act, in addition thereto, for each day during the continuance of such offense. The commissioner is authorized and empowered to revoke the license of any such association, corporation or society under his supervision, the solvency whereof may have become imperiled by losses or irregularities; and immediately upon the revoking of any such license he shall report the facts to the attorney general, who shall thereupon take such proceedings as are provided in section nine of this act.

Agents' licenses and renewals.

SEC. 15*a*. No person receiving compensation therefor, other than an officer, director or salaried employee, no part of whose compensation consists of commissions, or other than a local resident agent who has resided in the county in which he holds such local agency for a period of not less than one year prior to the time that he took such agency, of a building and loan association or other similar corporation or society which is duly licensed by the commissioner, shall act as solicitor or agent for the sale of the shares of stock, shares of membership, certificates or other securities or forms of investment issued by, or for the securing of loans from any such association, corporation or society until he has first procured from the commissioner a license therefor. To obtain such license there must be filed with the commissioner a duplicate of the authorization or appointment issued to him by, together with a request from, a licensed association, corporation or society that a license be issued to him to act as an agent or solicitor for it, and accompanied by a fee of one dollar. All such licenses shall expire by limitation on the thirtieth day of June succeeding their issue, but may be renewed from time to time, for an additional period of one year upon a request therefor from the association, corporation or society originally applying, and payment of a renewal fee of one dollar. Any such license may be revoked at any time on the application of the association, corporation or society for whom it was issued, or may be revoked by the commissioner for cause.

The commissioner shall keep an alphabetical list of the names of persons to whom such licenses are issued with the date of issue and renewal, and the name of the association, corporation or society for whom such licensee is authorized to act. All such licenses shall be

issued under rules and regulations to be prescribed by the commissioner. (In effect July 27, 1917.)

Bonds of officers to be filed with the commissioner.

SEC. 15*b*. The commissioner shall require all officers and employees of every association, corporation or society licensed by him or coming under his supervision, having access to moneys or negotiable securities of such association, corporation or society in the regular discharge of their duties, before entering upon their duties and throughout the entire term of office and employment, and any subsequent term of office or employment, of such officers or employees to give to the employing association, corporation or society a good and sufficient bond. Such bond shall guarantee the faithful performance of duty on the part of said officers and employees and the safekeeping and proper application of all moneys or property coming into their hands. The commissioner shall prescribe the amount and form of said bond and the term during which it shall run, and the sufficiency of the surety or sureties thereon shall at all times be subject to the approval of the commissioner. Each of such officers and employees shall renew his bond upon the expiration of its term. The commissioner may at any time require an additional bond or security when, in his opinion, any such bond then in force is insufficient. All such bonds shall be filed in the commissioner's office. (Effective July 29, 1927.)

Procedure and powers regarding new associations.

SEC. 15*c*. Before the articles of incorporation of any building and loan association, hereafter desiring to incorporate, under the laws of this state, shall be filed in the office of the secretary of state of the State of California, there must be attached thereto, the certificate of approval of the building and loan commissioner. Such proposed articles shall be submitted to the commissioner, and upon receipt of same, he shall immediately examine into all the facts connected with the formation of such intended corporation, including its location, and proposed incorporators. If it appears to him that such corporation, if formed, will be entitled to commence the business for which it is organized, and authorized under the law to conduct, the commissioner shall execute his certificate of approval; *provided, however,* that the commissioner may refuse to execute such certificate, if, upon his examination and investigation, he has reason to believe that the proposed corporation is to be formed for any business, other than legitimate building and loan business, or that the persons proposing to incorporate such corporation, lack the character and general fitness to engage in such business, or that the name of the proposed corporation is likely to mislead the public, as to its character or purpose, or that the name proposed for such corporation is the same as one already adopted or appropriated by any existing building and loan association in this state, or so similar thereto, as to be likely to mislead the public. (In effect July 24, 1925.)

Restrictions to use of name "building and loan."

SEC. 15*d*. No person, firm, company, association, copartnership, or corporation, either domestic or foreign, unless he or it is the lawful holder of a license, to transact business in this state, issued by the

building and loan commissioner, and then in force, and is actually engaged in carrying on a building and loan business in this state, shall hereafter transact business under any name or title which contains the term "building and loan," nor use any sign or circulate or use any letterhead, billhead, circular, or paper whatever, or advertise in any manner, which indicates that his or its business is the character or kind of business, carried on or transacted by a building and loan association, or which is calculated to lead the public to believe that his or its business is that of a building and loan association. Any violation of any of the provisions of this section shall constitute a misdemeanor, punishable by a fine of not exceeding five hundred dollars, or by imprisonment in the county jail for not exceeding ninety days, or by both such fine and imprisonment. Upon action brought by the commissioner, the court may also issue an injunction, restraining any person, firm, company, copartnership, or corporation from continuing to violate any provision of this section. (In effect July 24, 1925.)

Annual report required and penalty for failure to report.

SEC. 16. The commissioner shall require every association, corporation or society licensed by him, and including associations in liquidation, within thirty days after the close of its annual fiscal term to make a report to him in writing, verified by the oath of its president and secretary, showing accurately its financial condition at the close of such term; such report shall also include all the receipts and disbursements and income and expenses for the term, together with such statistical and other information as may be deemed essential; all and every of such reports shall be in such form as the commissioner may prescribe, and upon blanks to be by him furnished therefor. Every such association, corporation or society is hereby required to make and file all such reports within the time specified herein, and for failure or neglect so to do shall be subject to a penalty of ten dollars per day for each and every day the same shall be delayed or withheld.

Disposition of moneys—Revolving fund.

SEC. 17. The collection of all moneys assessed, as herein provided, for the payment of salaries and annual expenses, or forfeitable as fines for failure to make payment of assessments, procure licenses, or make and file reports as herein specified, and due from any such association, corporation or society coming within the provisions of this act, or imposed as a penalty for violation of any order or summons, may be enforced by the commissioner by action instituted in any court of competent jurisdiction; and all moneys collected or received by the commissioner under this act, shall be deposited with the state treasury, to be credited to a fund to be known and designated as the "building and loan inspection fund"; which said fund shall only be used in defraying the salaries and expenses provided for by this act; *provided, however*, that the commissioner shall, without at the time furnishing vouchers and itemized statements, withdraw from said fund, a sum not to exceed five hundred dollars. The sum so drawn shall be used as a revolving fund where cash advances are necessary and at any time upon the demand of the board of control, must be accounted for and substantiated by vouchers and itemized statements submitted to and audited by the board of control and the controller. (In effect July 24, 1925.)

Repealing act of 1905 and earlier acts.

SEC. 18. An act approved March 21, 1905, entitled "An act creating a bureau of building and loan supervision; providing for the appointment of administration officials therefor to be known as the building and loan commissioners; prescribing their duties, powers and compensation; providing for a secretary, his powers and compensation; providing for the rental of offices for the use of the bureau and for traveling and office expenses; providing a system for licensing building and loan and other associations, and for assessing and collecting the license fees necessary to meet the salaries and other expenses; providing a course of procedure where violations of law, or unsafe practices are found to exist, or are reported by the commissioners to the attorney general; providing for involuntary liquidation by trustees, and proceedings in connection therewith; providing for exemption of property of associations in liquidation from attachments, executions and liens, pending liquidation; providing for and requiring associations to procure licenses, pay assessments levied for pro rata of salaries and expenses, and to make and file reports; providing penalties for violations of law and orders of the commissioners; providing for succession in office, and repealing all acts and parts of acts in conflict herewith." Also an act approved March 23, 1907, entitled "An act to amend section sixteen (16) of an act entitled 'An act creating a bureau of building and loan supervision; providing for the appointment of administration officials therefor to be known as the building and loan commissioners; prescribing their duties, powers and compensation; providing for a secretary, his powers and compensation; providing for the rental of offices for the use of the bureau and for traveling and office expenses; providing a system for licensing building and loan and other associations, and for assessing and collecting license fees necessary to meet the salaries and other expenses; providing a course of procedure where violations of law, or unsafe practices are found to exist, or are reported by the commissioners to the attorney general; providing for involuntary liquidation by trustees, and proceedings in connection therewith; providing for exemption of property of associations in liquidation from attachments, executions, and liens pending liquidation; providing for and requiring associations to procure licenses, pay assessments levied for pro rata of salaries and expenses, and to make and file reports; providing penalties for violations of law and orders of the commissioners; providing for succession in office, and repealing all acts and parts of acts in conflict herewith,' " approved March 21, 1905, relating to and providing for reports to building and loan commissioners and the publication thereof. Also an act approved March 20, 1909, entitled "An act creating a bureau of building and loan supervision; providing for the appointment of administration officials therefor to be known as the building and loan commissioners; prescribing their duties, powers and compensation; providing for a secretary, his powers and compensation; providing for the rental of offices for the use of the bureau and for traveling and office expenses; providing a system for licensing building and loan and other associations, and for assessing and collecting license fees necessary to meet the salaries and other expenses; providing a course of procedure where violations of law, or unsafe practices are found to exist or are reported by the commissioners to the attorney general; providing for involuntary liquidation by trustees,

and proceedings in connection therewith; providing for exemption of property of associations in liquidation from attachments, executions and liens pending liquidation; providing for and requiring associations to procure licenses, pay assessments levied for pro rata of salaries and expenses, and to make and file reports; providing penalties for violations of law and orders of the commissioners; providing for succession in office, and repealing all acts and parts of acts in conflict herewith," approved March 21, 1905, relating to the powers and duties and salaries of the state building and loan commissioners, and all acts or parts of acts inconsistent with the provisions of this act are hereby repealed.

Transfer of powers from board of commissioners to commissioner.

SEC. 19. The building and loan commissioner provided for by this act shall be the successor in interest of, and shall succeed to all the rights, powers and privileges possessed by, the building and loan commissioners under and by virtue of that certain act entitled "An act approved March 21, 1905, as amended March 23, 1907, and as amended March 20, 1909, entitled 'An act creating a bureau of building and loan supervision; providing for the appointment of administration officials therefor to be known as the building and loan commissioners; prescribing their duties, powers and compensation; providing for a secretary, his powers and compensation; providing for the rental of offices for the use of the bureau and for traveling and office expenses; providing a system for licensing building and loan and other associations, and for assessing and collecting the license fees necessary to meet the salaries and other expenses; providing a course of procedure where violations of law or unsafe practices are found to exist, or are reported by the commissioners to the attorney general; providing for involuntary liquidation by trustees, and proceedings in connection therewith; providing for exemption of property of associations in liquidation from attachments, executions and liens, pending liquidation; providing for and requiring associations to procure licenses, pay assessments levied for pro rata of salaries and expenses and to make and file reports; providing penalties for violations of law and orders of the commissioners; providing for succession in office and repealing all acts and parts of acts in conflict herewith' "; and any and all actions or proceedings taken or commenced by the said building and loan commissioners, under the act aforesaid, shall continue in full force and effect and the said actions and proceedings shall not abate and the said building and loan commissioner provided for by this act shall be substituted for and continue in the place and stead of the said building and loan commissioners under the act aforesaid, and likewise all books, documents, records and property of every kind and description obtained or possessed by the building and loan commissioners or their secretary or clerks, examiners or employees under the provisions of the said act of March 21, 1905, shall immediately be turned over and delivered to the said building and loan commissioner herein provided for.

Title of act.

SEC. 20. This act shall be known as the building and loan commission act.

When in effect.

SEC. 21. This act shall take effect immediately.

ADDITIONAL LAWS.

(Not included in sections 633 to 648a, inclusive.)

CHAPTER 133.

An act making full paid investment certificates issued by any building and loan association licensed by, and under the direct supervision of the building and loan commissioner of the State of California in accordance with the provisions of title sixteen, part four, division first of the Civil Code, legal investments for certain purposes.

The people of the State of California do enact as follows:

SECTION 1. All full paid investment certificates issued by any building and loan association licensed by, and under the direct supervision of the building and loan commissioner of the State of California in accordance with the provisions of title XVI of part IV of division I of the Civil Code shall be legal investments for the funds of executors, administrators, guardians, receivers, and trustees of every kind and nature, and for the funds of all insurance companies.

SEC. 2. This act is intended to be, and shall be considered, the latest enactment upon the matters herein contained, and is supplemental to any and all other acts regulating, relating to and declaring what shall be, legal investments for the funds of executors, administrators, guardians, receivers or trustees or for the funds of insurance companies. (Effective July 29, 1927.)

CHAPTER 144.

An act to amend sections six hundred sixteen and six hundred seventeen of the Civil Code of the State of California, relating to cemetery corporations.

The people of the State of California do enact as follows:

SECTION 1. Section 616 of the Civil Code of the State of California, is hereby amended to read as follows:

616. Any corporation organized to establish and maintain, or to improve, a cemetery, may take and hold any property bequeathed, granted, or given to it in trust, to apply the proceeds or income thereof to any and all of the following purposes: To the improvement or embellishment of such cemetery or of any lot therein; or to the erection, renewal, repair or preservation of any monument, fence or other structure in such cemetery; or to the planting or cultivation of trees, shrubs, or plants in or around such cemetery, or any lot therein; or to the improving, ornamenting, or embellishing of such cemetery, or any lot therein, in any other mode or manner not inconsistent with the purposes for which such cemetery was established or is being maintained. Such property and the proceeds or income thereof shall be invested and reinvested in bonds of the United States, or of this state, or of any municipality of this state, or in first mortgages on real estate, or in centrally located income producing improved real estate in any

city, or city and county in this state, or in investment certificates of any building and loan association organized and existing under the laws of this state, if such investment is not repugnant to the terms of the bequest, grant, or gift.

SEC. 2. Section 617 of the Civil Code of the State of California, is hereby amended to read as follows:

617. Any cemetery corporation or association under contract for the perpetual care of a certain lot or lots in the cemetery of said corporation or association, is hereby expressly forbidden to use the funds received for the perpetual care of any lot or lots under such contract or contracts, for any other purpose than to provide the perpetual care mentioned in said contract, and it shall be the duty of the board of directors, or board of trustees of a cemetery corporation or association receiving funds from perpetual care contracts, to invest or reinvest such funds in bonds of the United States or the State of California, or of any county, city and county, or city, of the State of California, or in first mortgages on real estate, or in centrally located income producing improved real estate in any city or city and county in this state, or in bonds legal for investment by savings banks in this state, or in investment certificates of any building and loan association organized and existing under the laws of this state. (Effective July 29, 1927.)

CHAPTER 134.

An act to add a new section to the Code of Civil Procedure to be numbered one thousand four hundred fifty-four a, relating to the collection of money by heirs.

[Approved by the Governor April 13, 1927.]

The people of the State of California do enact as follows:

SECTION 1. A new section is hereby added to the Code of Civil Procedure to be numbered 1454*a*, and to read as follows:

1454*a*. The surviving husband or wife, or the guardian of the estate of any insane or incompetent husband or wife, of any deceased person, or if no husband or wife is living, then the children, or the guardian of the estates of any minor or insane or incompetent children of said deceased, or, if no children are living, then the father or mother or guardian of the estate of any insane or incompetent father or mother of such decedent, and if neither the father nor mother is living, then the brothers and sisters or the guardian of the estates of any minor or insane or incompetent brothers and sisters of such decedent may, without procuring letters of administration, collect any and all moneys which such decedent, if living, would have been entitled to collect from any building and loan association in this state, including any moneys of such decedent invested in, or represented by, shares of stock, membership shares, investment certificates, promissory notes or other evidences of indebtedness, standing in his name, on the books or records of such association, at the time of his death; *provided*, that all of such moneys do not, in the aggregate, exceed the sum of one thousand dollars. Any building and loan association upon receiving an affidavit stating that

said investor in, or creditor of, such association is dead, and that affiant is the surviving husband or wife or the guardian of the estate of an insane or incompetent surviving husband or wife, as the case may be, of said decedent, or stating that decedent left no husband or wife, and that affiant is the child, or that affiants are the children, or the guardians of the estates of the minor, insane or incompetent children, as the case may be, of said decedent, or stating that decedent left neither husband, wife nor children, and that affiant is the father or mother, or the guardian of the estate of the insane or incompetent father or mother, as the case may be, of said decedent, or stating that the decedent left neither husband, wife, children, father nor mother, and that affiants are the brothers and sisters, or the guardians of the estates of the minor, insane or incompetent brothers and sisters, as the case may be, of said decedent, and that the entire amount of investments of said decedent in shares of stock, membership shares, investment certificates, promissory notes and other evidences of indebtedness, standing in his name on the books or records of any and all building and loan associations in this state, at the time of his death, including all moneys owing to said decedent, at the time of his death, from any such association in this state, does not exceed in the aggregate the sum of one thousand dollars, may pay to said affiant or affiants any and all such moneys, if the total amount thereof does not exceed the sum of one thousand dollars and the receipt of such affiant or affiants shall constitute sufficient acquittance therefor and shall fully discharge such association from any further liability with reference thereto. (Effective July 29, 1927.)

PENAL CODE, SECTION 563c.

Any person who wilfully and knowingly makes, circulates or transmits to another or others any statement or rumor, written, printed or by word of mouth, which is untrue in facts and is directly or by inference derogatory to the financial condition or affects the solvency or financial standing of any building and loan association, doing business in this state, or who knowingly counsels, aids, procures or induces another to start, transmit or circulate any such statement or rumor, is guilty of a misdemeanor punishable by a fine of not more than one thousand dollars or by imprisonment for not more than one year, or both. (Effective July 29, 1927.)

PENAL CODE, SECTION 564.

Every director, officer, or agent of any corporation or joint stock association, who knowingly concurs in making, publishing, or posting either generally or privately to the stockholders or other persons, any written report, exhibit, or statement of its affairs or pecuniary condition, or book or notice containing any material statement which is false, or any untrue or wilfully or fraudulently exaggerated report, prospectus, account, statement of operations, values, business, profits, expenditures, or prospects, or any other paper or document intended to produce or give, or having a tendency to produce or give, the shares of stock in such corporation a greater value or a less apparent or market value than they really possess, or refuses to make any book or post any notice required by law, in the manner required by law, is guilty of a felony.

INSTRUCTIONS FOR FORMING NEW ASSOCIATIONS

Effective on and After July 1, 1926

First—A "Guarantee Capital" association, irrespective of the authorized capital, has certain paid-in capital requirements.

To organize "Guarantee Capital" associations in the following cities, there must be a paid-in capital of $100,000 or more:

Los Angeles, Oakland, San Francisco.

To organize "Guarantee Capital" associations in the following cities, there must be a paid-in capital of $75,000 or more:

Berkeley,	Long Beach,	Sacramento,	San Jose,
Fresno,	Pasadena,	San Diego,	Stockton.

To organize "Guarantee Capital" associations in the following cities, there must be a paid-in capital of $50,000 or more:

Alameda,	Glendale,	Redlands,	Santa Cruz,
Alhambra,	Lodi,	Richmond,	Santa Monica
Bakersfield,	Modesto,	Riverside,	Vallejo,
Burlingame,	Ontario,	San Bernardino,	Venice,
Chico,	Palo Alto,	Santa Ana,	Whittier.
Eureka,	Pomona,	Santa Barbara,	

To organize "Guarantee Capital" associations in the following cities, there must be a paid-in capital of $25,000 or more:

Anaheim,	Hanford,	Oroville,	Santa Clara,
Arcadia,	Hayward,	Oxnard,	Santa Maria,
Auburn,	Hemet,	Pacific Grove,	Santa Paula,
Belvedere,	Hollister,	Paso Robles,	Santa Rosa,
Beverly Hills,	Huntington Beach,	Petaluma,	Sausalito,
Brawley,	Huntington Park,	Pico,	Selma,
Burbank,	Inglewood,	Pittsburg,	Sherman,
Calexico,	La Mesa,	Pleasanton,	South Pasadena,
Chino,	Lankershim,	Porterville,	So. San Francisco,
Chula Vista,	Livermore,	Red Bluff,	Taft,
Colton,	Madera,	Redding,	Tiburon,
Compton,	Martinez,	Redondo,	Torrance,
Corona,	Marysville,	Redwood City,	Tulare,
Cucamonga,	Merced,	Rialto,	Turlock,
Culver City,	Mill Valley,	Roseville,	Upland,
El Centro,	Monrovia,	Salinas,	Van Nuys,
Elsinore,	Montebello,	San Fernando,	Ventura,
Encinitas,	Monterey,	San Gabriel,	Visalia,
Escondido,	Napa,	San Leandro,	Watsonville,
Fillmore,	Newcastle,	San Luis Obispo,	Wilmington,
Fortuna,	Ocean Park,	San Mateo,	Woodland.
Fullerton,	Oceanside,	San Pedro,	
Grass Valley,	Orange,	San Rafael,	

All shares of "Guarantee Capital" stock must be in denominations of $100 and when sold to provide for the necessary initial paid-in capital, must be fully paid up.

In organizing a "Guarantee Capital" association, an organization fund of not less than $10 per share on the shares actually subscribed must be provided.

Second—Select a name not now in use by any association in the state, embracing the words "Building and Loan Association," or "Building-

Loan Association," and submit it to this office for approval, which, after approval, should then be submitted to the Secretary of State that he may advise if it is available for use. The words "Trust" or "Savings" must not be used as a part of the corporate name.

Third—Apply to this office for the loan of a "sample" form of articles of incorporation, which, after being prepared, but before being executed, must be submitted to this office that we may ascertain if it is in proper form, and, if found satisfactory, return for execution.

After being executed the original and a duplicate must be forwarded to this office that the certificate required by section 15*c* of the Building and Loan Commission Act may be attached before the original can be filed with the Secretary of State, or a certified copy with the county clerk of your county.

Fourth—Apply to this office for the loan of a "sample" form of the by-laws provided for in the articles of incorporation, then prepare your by-laws and submit them to this office for approval, after which they can be regularly adopted.

Fifth—As section 15*c* of the Building and Loan Commission Act provides that the commissioner shall examine into the general character and fitness of persons proposing to incorporate associations, it will be necessary to submit a brief history of the incorporators and directors; references should also be given to assist the commissioner in his investigation.

Sixth—After the by-laws have been adopted, forward a certified copy of the by-laws, a copy of the articles of incorporation, a list of the stockholders showing the number of shares of guarantee capital stock fully paid up and the total amount of money paid in, a certificate from your bank showing that there is on deposit to the credit of the association the above required $25,000, $50,000, $75,000 or $100,000 for a "Guarantee Capital" association, plus the above requirement for organization expenses, together with a check to the order of the "Building and Loan Commissioner," for the equivalent of $1 per month for the number of months unexpired of the calendar year, and a license will be issued to expire December 31st next.

Seventh—All moneys collected for the organization fund must be paid into the treasury to the credit of that fund to be used to defray the expenses of the association until it has been placed on a self-supporting basis.

Eighth—No window, door or office signs of any kind, advertising the proposed association, may be displayed until the organizers have been assured by this department that a license will be granted to the association, or until such license has actually been granted.

Ninth—Manuscripts or proofs of circulars or advertisements must be submitted to the commissioner for approval before being printed or circulated.

ARTICLES OF INCORPORATION OF A GUARANTEE CAPITAL ASSOCIATION

KNOW ALL MEN BY THESE PRESENTS:

That we, the undersigned, citizens and residents of the State of California, have this day voluntarily associated ourselves together for the purpose of forming a corporation under the laws of the State of California.

AND WE HEREBY CERTIFY

First—That the name of said corporation shall be_____

_____

Second—That the purposes for which said corporation is formed are to encourage industry, frugality, home-building, and savings among its shareholders, members and others; the accumulation of savings; the loaning to its shareholders, members and others of the moneys or funds so accumulated, with the profits and earnings thereon, and the repayment to each of his savings and profits, whenever they have accumulated to the full par value of the shares, or at any time when he shall desire the same or when the corporation shall desire to repay the same, as it may be provided in the by-laws; and generally to do any and all other acts and things authorized by law, and more particularly by and under Title XVI, Part IV, Division I of the Civil Code of the State of California, and for all the purposes and with all the rights, powers, privileges and immunities in said title set forth.

Third—That the place where the principal business of said corporation is to be conducted is in the city of_____, in the county of_____, State of California.

Fourth—That the term for which said corporation is to exist is fifty (50) years from and after the date of its incorporation.

Fifth—That the number of directors of said corporation shall be_____ a majority of whom shall at all times each be the owner and holder of not less than _____ shares of the guarantee capital stock, and that the names and residences of the directors who are appointed for the first year and to serve until the election and qualification of their successors are as follows, to wit:

NAMES	WHOSE RESIDENCE IS
_____	_____

Sixth—That the amount of the capital stock of this corporation is_____ dollars, and the number of shares into which it is divided is_____of the par value of one hundred dollars ($100) each, all of which, when issued, shall be set apart as a fixed and permanent guarantee capital. Additional working capital may be accumulated by the issuance of membership shares, units and certificates, both installment and fully paid as provided for in section 648*a* of the Civil Code.

Seventh—That the amount of said capital stock which has been actually subscribed is_____dollars and the following are the names of the persons by whom the same has been subscribed, to wit:

NAMES OF SUBSCRIBERS	NUMBER OF SHARES	AMOUNT
_____	_____	_____
_____	_____	_____

IN WITNESS WHEREOF, we have hereunto set our hands this_____ day of_____A. D., 192___.

_____

_____

_____

State of California
County of_____ } ss.

On this_____day of_____, A. D. 192___, before me _____, a notary public in and for said county, residing therein, duly commissioned and sworn, personally appeared_____ _____ known to me to be the persons whose names are subscribed to the foregoing instrument, and they each duly acknowledged to me that they executed the same.

IN WITNESS WHEREOF, I have hereunto set my hand and affixed my official seal, at my office in said_____county, the day and year in this certificate first above written.

(SEAL)

_____
Notary Public in and for the County of
_____
State of California.

BY-LAWS OF A GUARANTEE CAPITAL ASSOCIATION

ARTICLE I.

NAME, LOCATION AND OBJECTS.

Section 1. This corporation shall be known as the_____ _____ of_____, California.

Sec. 2. The principal place of business of the corporation shall be in the city of _____, County of_____ State of California.

Sec. 3. The object and purpose of this corporation shall be to encourage industry, frugality and the accumulation of savings among its shareholders, members and others, and to make loans to its shareholders, members and others for the purpose of aiding them in acquiring and improving real estate.

ARTICLE II.

GUARANTEE CAPITAL STOCK.

Section 1. The capital stock of this corporation shall be_____ divided into_____shares of a par value of one hundred dollars each, all of which shall be a guarantee capital, and shall be issued at such times and in such amount as the board of directors may determine. It shall be sold upon subscriptions, at not less than par, payable not less than_____per cent at the time of subscription, and the balance as may be ordered by the board of directors. This stock is not withdrawable until final liquidation, and no loans shall ever be made upon the pledge of any of its shares, as security, to the corporation.

Sec. 2. A majority of the board of directors shall always be selected from the holders of shares of the guarantee capital holding in their names ten shares or more of guarantee stock, and the minority may be selected from the holders of membership shares.

Sec. 3. The guarantee capital stock shall participate in the net earnings of the association to the full extent permitted under the provisions of section 641 of the Civil Code. As provided in said section, an amount not exceeding one per cent per annum on the average loans in force, may be set aside from and out of the net profits, at each annual distribution thereof, or a proportionate amount at each semiannual distribution, from which to declare dividends on and provide a reserve fund that shall be specially applicable thereto. The reserve fund shall be created and maintained in amount as provided in said section.

ARTICLE III.

OFFICERS.

Section 1. The affairs of the corporation shall be managed by a board of_____ directors, who shall be elected annually from the shareholders and members, in the manner provided by law, to hold office for one year, and until their successors are duly elected and qualified.

Sec. 2. Immediately following the annual meeting of the shareholders and members, the directors shall organize by the election of a president, and one or more vice presidents from among their own members, a secretary and one or more assistant secretaries, who may or may not be directors but must be shareholders or members. They shall also select an attorney and a treasurer; provided that a banker or banking corporation may be selected as a treasurer or depository. They shall also select from their own number a security committee to consist of three members, and a finance committee to consist of two members.

ARTICLE IV.

POWERS AND DUTIES OF DIRECTORS.

Section 1. The board of directors shall have power:

First—To suspend or remove, for cause, any elected or appointed officer of the corporation.

Second—To require any officer to produce for inspection at any time, any or all books, papers or documents in his possession relating to the business of the corporation.

Third—To fill all vacancies that may occur in the board of directors or elected or appointed officers.

Fourth—To loan the funds of the corporation, or such portion thereof as may be advisable, upon such securities as are provided by law, and to prescribe the terms and conditions upon which loans may be made; provided, that whenever loans are made upon the definite contract plan the body of the note or obligation shall set forth the number of installments, and the amount of each installment required to repay the principal of the loan, together with the interest on the periodical unpaid balances, within the time agreed upon, the exact rate of interest to be specified in each note or obligation.

Fifth—To borrow money for the purpose of making loans or with which to pay withdrawals or maturities.

Sec. 2. A majority of the board shall constitute a quorum for the transaction of business; provided that no action relating to the final disposition of funds or other financial matters under consideration shall become effective except by an affirmative vote of a majority of the whole board.

Article V.

DUTIES OF OFFICERS.

PRESIDENT AND VICE PRESIDENT.

Section 1. It shall be the duty of the president, or in his absence, of one of the vice presidents:

First—To preside at all meetings of the shareholders and members of the board of directors; to sign all certificates of stock or membership, contracts, deeds, leases, releases, and orders on the treasurer for the payment of money, and to perform such other duties as may be ordered by the board of directors.

SECRETARY.

Section 1. It shall be the duty of the secretary, or in his absence, of the assistant secretary:

First—To attend all meetings of the corporation, and of the board of directors and to keep correct minutes thereof; to receive and receipt for all moneys paid to the corporation, to endorse all checks or drafts made payable to its order, and to deposit with the treasurer or depository all funds coming into his or her possession and take a proper receipt therefor.

Second—To keep proper and accurate accounts with the shareholders, members and investors; to draw and sign all orders on the treasury or depository; to countersign all documents requiring the signature of the president or vice president, and to affix the seal of the corporation whenever such is required to authenticate the acts of the corporation.

Third—To furnish the board of directors at each monthly meeting with a statement of financial and other transactions since the prior report and semiannually, immediately after the first day of_____and_____, of each year, a statement of the condition of the corporation and of the business of the past semiannual term, and, after approval by the board, to cause the same to be printed for the information of the shareholders and members.

Fourth—To have the custody of, and properly care for, all notes, mortgages, deeds of trust, deeds, leases, insurance policies and other documents pertaining to the business of the association, subject only to the orders of the board of directors.

Fifth—To require that the interest of the corporation in any property or building it may own or on which it may have a loan is properly insured, in an acceptable insurance company, against loss or damage by fire.

Sixth—To protect the interest of the corporation in all tax sales or forfeitures, and for this purpose to draw on the treasurer for the proper funds, without further notice or orders of the board; provided, however, he or she shall report the facts at the first stated meeting of the board thereafter.

Seventh—To deliver to his or her successor all books, vouchers, securities, documents and property of every kind of which he or she is the custodian for the corporation, whenever he or she may retire from office, or within three days thereafter.

Eighth—To do and perform such further acts as may be required by the board of directors.

TREASURER OR DEPOSITORY.

Section 1. It shall be the duty of the treasurer or depository to receive all moneys deposited by the secretary for account of the corporation, and to disburse same only on orders signed by the secretary and countersigned by the president or a vice president, and to render a proper account thereof at the close of each month.

ATTORNEY.

Section 1. It shall be the duty of the attorney to attend the meetings of the board of directors whenever requested to do so; to examine into the sufficiency of title of any property offered as security for loans that may be referred to him, and to perform such other duties and render such other services as may be requested by the board of directors.

COMMITTEES.

SECURITY COMMITTEE.

Section 1. It shall be the duty of the security committee to ascertain the market value of each and every piece of property offered as security for any proposed loan and to report thereon, in writing, at the next meeting of the board of directors.

Sec. 2. Every application for a loan shall be approved in writing by at least two members of said committee before the loan shall be made.

FINANCE COMMITTEE.

Section 1. It shall be the duty of the finance committee:

First—To examine and report upon all bills or claims against the corporation, prior to the same being ordered paid.

Second—To examine and report upon the books and accounts of the secretary and treasurer, at least semiannually, and for that purpose, they may employ an expert of accounts to assist them, at a compensation to be fixed by the board of directors.

ARTICLE VI.

BONDS AND SALARIES.

Section 1. The secretary and treasurer (except where the treasurer shall be a bank or bankers), and such other employees as the board of directors shall determine, shall give bond, as security for the faithful performance of their duties, in such amount as the board of directors shall from time to time require, with corporate surety, the expense to be borne by the association.

All subject to the approval of the State Building and Loan Commissioner.

Sec. 2. The president, vice presidents, secretary, treasurer, assistant secretary, assistant treasurer, attorney, and the members of the security and finance committees shall receive such compensation for their services as the board of directors shall determine.

Sec. 3. The compensation of the directors, as such directors, in excess of five dollars each, for each meeting attended, shall be fixed by the stockholders at the annual meeting.

ARTICLE VII.

MEETINGS.

Section 1. The annual fiscal term shall end_____ and the annual meeting of the stockholders and members shall be held at the office of the corporation at_____, California, on the_____, in each year, notice of which must be given in the manner prescribed in section 301 of the Civil Code. Special meetings may be called by the board of directors, on their own initiative, and shall be called upon the written request of ten or more shareholders and members. Notice of special meetings shall be mailed to each shareholder and member, at his last known address, at least two weeks prior to the date of holding such meeting.

Sec. 2. The board of directors shall convene for the transaction of business on _____ in each month, and as much oftener as the necessities of business may demand. Notice of all meetings of the board of directors shall be given to each director in writing, by the secretary, at least twenty-four hours prior to the time of the holding of the meeting.

Sec. 3. All meetings of the board of directors shall be open to all shareholders and members.

Article VIII.

MEMBERSHIP SHARES.

Section 1. Membership shares having an ultimate matured or par value of _____dollars each may be issued in either of the following forms, viz: "Installment" or "Full paid."

Sec. 2. Installment membership shares, Class "A," may be subscribed for and issued at any time. Each subscriber to those shares shall on or before_____ pay dues in an amount not less than _____ upon each share held by him, until such payments, together with the profits apportioned thereto, shall amount to the sum of one hundred dollars for each of such shares, at which time the shares shall mature and payments thereon shall cease.

Sec. 3. Installment membership shares, Class "D.C.," whenever authorized by the board of directors, will be issued only to borrowers on mortgage or deed of trust security, and then only to those who borrow on the "Definite Contract" plan. The monthly payment of dues on this class will be five cents per share of one hundred dollars matured or par value, and must be paid with, and in addition to, the monthly payments required to be paid upon the loan. Such shares shall participate pro rata with other classes of installment shares in the net profits subject to distribution, and, upon the repayment of the loan with which they are pledged, the then book value will be paid to the borrower, or credited as part payment on the loan, and the shares surrendered and canceled.

Sec. 4. Full paid membership shares may be issued at such times as the board of directors may determine to any subscriber paying in the full face value of one hundred dollars ($100) each. Dividends at such rate per annum as may be fixed by the board of directors, not in excess of six per cent (6%) per annum, shall be paid on these shares, semiannually in_____ and _____, and in consideration of such payments the holders shall waive all right to further participation in profits of the corporation. These shares are withdrawable, with accrued interest to the date of the notice, at any time after thirty (30) days' written notice of the intention to withdraw, but subject in other respects to the restrictions set forth in section 642 of the Civil Code. The corporation reserves the right to retire any or all these shares, in the order of issuance, at any time after two years from issue, upon sixty (60) days' written notice to the holders by paying the face value plus accrued interest to date of expiration of notice.

Sec. 5. Full paid membership shares may also be issued at such times as the board of directors may determine to subscribers paying in the full face value of one hundred dollars ($100) per share. Dividends at such rate per annum as may be fixed by the board of directors, not exceeding a full participation in the net profits, shall be paid on these shares, semiannually in _____ and _____.

Sec. 6. Holders of either form of membership shares are members of the corporation, with all the rights, powers and privileges incident thereto, including the right to vote at all meetings of the shareholders and members—one vote for each share—and are subject to the same restrictions and liabilities.

Sec. 7. An entrance fee of not exceeding one dollar ($1) per share may be charged and collected upon all installment membership shares.

Article IX.

INVESTMENT CERTIFICATES.

Section 1. Investment certificates, having an ultimate matured or par value of one hundred dollars ($100) each, may be issued in either of the following forms: "Installment investment certificates" and "Full paid investment certificates."

Sec. 2. Installment investment certificates may be subscribed for and issued at any time. Each subscriber to these certificates shall, on or before the _____ day of each month, pay dues in an amount of not less than _____ upon each certificate held by him, until such payments, together with the profits apportioned thereto, shall amount to the sum of one hundred dollars ($100) for each of such certificates, at which time the certificates will mature and payments may cease. An entrance fee of one dollar ($1) per certificate may be charged and collected upon this class of installment investment certificates.

Sec. 3. Installment investment certificates may also be issued, upon which payments may be made at such times and in such amounts as the holder thereof may elect until said certificates reach their matured value or are withdrawn. No membership fee, fine or forfeiture shall be chargeable against the holder of these certificates.

Sec. 4. Full paid certificates may be issued at such times as the board of directors may determine, to any subscriber paying in the full face value of one hundred dollars ($100) each. Dividends at such rate per annum as may be fixed by the board of directors will be paid semiannually on these certificates, in _____ and _____, and in consideration of such payments the holders shall waive all right to participation, in excess thereof, in the profits of the corporation. These investment certificates are withdrawable, with accrued unpaid interest, to date of notice, at any time after one year from date of issue, upon thirty (30) days' written notice of intention to withdraw, but otherwise subject to the restrictions set forth in section 642 of the Civil Code. The corporation reserves the right to retire any or all of these certificates, in the order of issuance, at any time after two years from date of issue, upon sixty (60) days' written notice to the holder, upon the payment of the face value plus accrued and unpaid interest to date of expiration of notice.

Sec. 5. Holders of either form of these investment certificates are *not* members of the corporation and have none of the rights, powers and liabilities incident thereto.

Article X.

WITHDRAWALS AND MATURITIES.

Section 1. Holders of installment membership shares, and of installment investment certificates, desiring to withdraw a part or all of the amount the credit of their shares or certificates, may do so by giving thirty (30) days' written notice of their intention or desire so to do. On the expiration of such notice, they are entitled to receive the full amount paid in upon their membership shares or investment certificates, exclusive of any entrance fee charged and collected, together with such proportion of the earnings thereon as may have been fixed by the board of directors; provided that not more than one-half of the monthly receipts of any one month shall, without the consent of the board of directors, be applicable to withdrawals for that month. All withdrawals will be paid in succession and in the order in which the notices of intention were filed. Shares or certificates pledged as security for or with a loan can not be withdrawn in money until the loan is fully paid.

Article XI.

LOANS.

Section 1. Loans may be made on such terms and at such rate of interest as the board of directors may determine; provided that whenever loans are made for a definite period on the installment plan, the number of installments, and the amount of each installment required to pay the principal of a loan together with interest at the agreed rate on the periodical balances, within the time specified, must be expressed in the face of the note or obligation taken.

Sec. 2. Loans will only be made upon the security of a first mortgage or deed of trust of real estate, the several classes of bonds named in section 647 of the Civil Code, and upon the security or pledge of free "membership shares," or "investment certificates" of this association.

Sec. 3. Loans upon the security of membership shares or investment certificates shall not be made in excess of ninety per cent of the withdrawal value of such shares or certificates.

Sec. 4. Loans made for a definite period on the installment plan may be repaid at any time by paying the balance then unpaid on the principal and all arrears of interest, if any. The corporation reserves the right to charge a penalty of two months' interest on the unpaid balance if repaid within one year from date of note, or a penalty of one month's interest on the unpaid balance if repaid after one year from date of the note but in advance of the time set forth in the contract.

Sec. 5. Whenever a borrower shall be three months in arrears in the payment of his interest or loan installments, unless otherwise provided in the note, the whole loan shall become due, at the option of the board of directors, and they may proceed to enforce collection upon the securities held by the corporation. The withdrawal value of all shares or certificates pledged as collateral security shall be applied in part payment of the loan and said shares or certificates shall be deemed canceled and surrendered to the corporation.

Sec. 6. All expenses incident to abstracts, examinations of title, execution of papers, attorney's fees, or sale of securities pledged as security for loans or advances, shall be paid by the party offering the security or securing the loan.

Sec. 7. Borrowers must furnish, at their own expense, acceptable policies of fire insurance on all improved realty pledged as security for loans granted, with the usual mortgage clause making loss, if any, payable to the corporation, as its interest may appear.

Article XII.

FINES AND PENALTIES.

Section 1. Borrowers who neglect or fail to pay their interest or loan installments in accordance with the terms of the note or obligation shall pay interest at not exceeding one per cent per month on the amount of such delinquent indebtedness.

Sec. 2. The same rate of interest shall apply to all advances made by the association for insurance premiums, street or sewer assessments, balances due for unpaid taxes on property pledged as security for loans, or other like advances.

Article XIII.

MISCELLANEOUS.

Section 1. Each member or investor shall be entitled to a certificate of "membership shares" or "investment certificates" showing the number of such shares or certificates held, and their par, or ultimate, value, and each member or investor holding installment membership shares or installment investment certificates shall also be furnished with a pass book, in which to record the periodical payments made by him, and in which the terms and conditions attaching thereto shall be fully set forth. These certificates may be transferred by assignment, in person or by an attorney, but no such assignment shall be valid, except between the parties thereto, until duly entered upon the books of the corporation. A transfer fee of ten cents for each share or certificate transferred will be charged by the corporation.

Sec. 2. In the event of loss of any certificates of stock, membership shares or investment certificates, the recorded owner shall be entitled to a duplicate upon making an affidavit setting forth the facts of the loss and the filing of an acceptable bond, with two or more sureties, in an amount equal to the book value of the certificate lost.

Sec. 3. The board of directors may provide that partial withdrawals, made "mid-term," shall not participate in the earnings on the amount withdrawn, that shall have accumulated since the last apportionment of profits.

Sec. 4. The seal of the corporation shall be circular in form, bearing the name of the corporation and the date when incorporated.

Sec. 5. As to all features not specifically covered by these by-laws, the provisions of sections 633 to 648*a*, inclusive, of the Civil Code shall govern the transaction of business by this corporation.

Article XIV.

Section 1. These by-laws may be amended at any annual or special meeting of the shareholders and members by an affirmative vote of two-thirds of all such shares of stock and membership, issued and in force. The signature of the holders of two-thirds of all such shares shall be effective to adopt such amendments, without the holding of a meeting.

CONSENT TO AND ADOPTION OF BY-LAWS.

We, the undersigned, subscribers to the number of shares of the_____ Building and Loan Association, of_____, set opposite our respective names, in all amounting to more than two-thirds of all subscribed shares, hereby give our written assent and consent to the adoption of the foregoing code of by-laws for the government of said corporation, and we hereby adopt the same.

INSTRUCTIONS TO BE OBSERVED AND FOLLOWED IN THE PREPARATION OF ANNUAL REPORTS

1. INTEREST delinquent—not actually collected—must be listed on the proper blanks, and must appear in its proper place, as an ASSET, under Arrearages, and must NOT be charged into Loan Account or to Dues Account and credited to Interest, as Interest, subject to distribution as a profit.

2. DIVIDENDS or Interest not actually paid out, on ALL CLASSES of shares or investment certificates, must be set up as a liability, as is called for in the Report Blanks, and MUST NOT be entered as though disbursed and credited as principal received.

3. Under "Loss and Gain," on the Report Blanks, the actual amounts of Dividends (or Interest) apportioned to the several classes of shares and certificates must be set out separately, as therein called for, and NOT be entered in a lump sum covering all.

4. In the preparation of the "Receipts and Disbursements" be very careful to literally follow the instructions to INCLUDE ALL CASH TRANSACTIONS AND JOURNAL ENTRIES THAT AFFECT ASSETS AND LIABILITIES. Condense both Receipts and Disbursements to conform to the titles of the Accounts as printed in the Blanks.

5. Under "Statistical Information" answer every question and fill every blank space as called for in the Instructions at top.

6. When listing "Loans made since last Report," set forth the location of every loan made upon security located outside the Home City of your association. This list can be more expeditiously and economically prepared upon a typewriter than with a pen.

7. Be very sure that the names of the Officers and Directors appear as called for, and that all Real Estate owned is properly scheduled.

A strict compliance with these instructions will obviate the necessity for returning Reports for correction and completion, and will greatly facilitate the work of this Department, and permit of a more accurate showing in the preparation of the Annual Report of this office for publication, all of which will tend to uniformity and economy and should receive the full cooperation of the several secretaries.

TAXES AND FEES FOR BUILDING AND LOAN ASSOCIATIONS

State Franchise Tax—

In the past has been 1.8 per cent per annum upon 1/20th of assets, less borrowed money, as per report to State Board of Equalization as of March 1st. Payable to State Treasurer semiannually in January and July.

County and Municipal Taxes—

Payable upon real estate owned, personal property and money in bank.

Building and Loan License Tax—

For new domestic associations, $1 per month for months unexpired for calendar year.

For foreign associations, $3 per month for months unexpired for calendar year.

Annual renewal—Pro rata of estimated expenses, based upon assets as per last report, with a minimum of $10 per year.

Secretary of State—Fees for New Associations—

Authorized capital of not over $25,000	$15 00
Authorized capital over $25,000 and not over $75,000	25 00
Authorized capital over 75,000 and not over 200,000	50 00
Authorized capital over 200,000 and not over 500,000	75 00
Authorized capital over 500,000 and not over 1,000,000	100 00
Authorized capital over 1,000,000 adds $50 for each $500,000 or fraction thereof.	
For recording, per folio	0 20
For certificate of incorporation	3 00
For certifying copy of articles	2 50
